

How to send audio animations on Viber

Viber has allowed to send animated images with sound through the TuneMoji feature.

On the current chat application, there is a feature to send animated images. And on Viber the latest version, a new feature called TuneMoji allows users to send animated images with sound with the animation and sound themes available. Accordingly we can choose the animation themes according to the emoticons. Besides, users can choose different animation, then insert the sound in TuneMoji's list to create the new animation theme they want. With Viber's new TuneMoji, the conversation becomes much more interesting and new. Below is a guide from Network Administrator on how to send audio animations on Viber.

1. Instructions on how to share and send GIF images via Zalo
2. Turn selfie into a GIF image with Lumyer
3. How to chat secret groups on Viber
4. Translate language on Viber

Instructions for creating GIFs with music on Viber

Step 1:

At the Viber chat interface, click on **the GIF icon** to choose to send the animation. Display services for sending images, drag to the left to find **TuneMoji** .

You can't come into my section,
I'm gon' put you in your place

I'm so fly when I rock robins
wings, I can't stay in one place

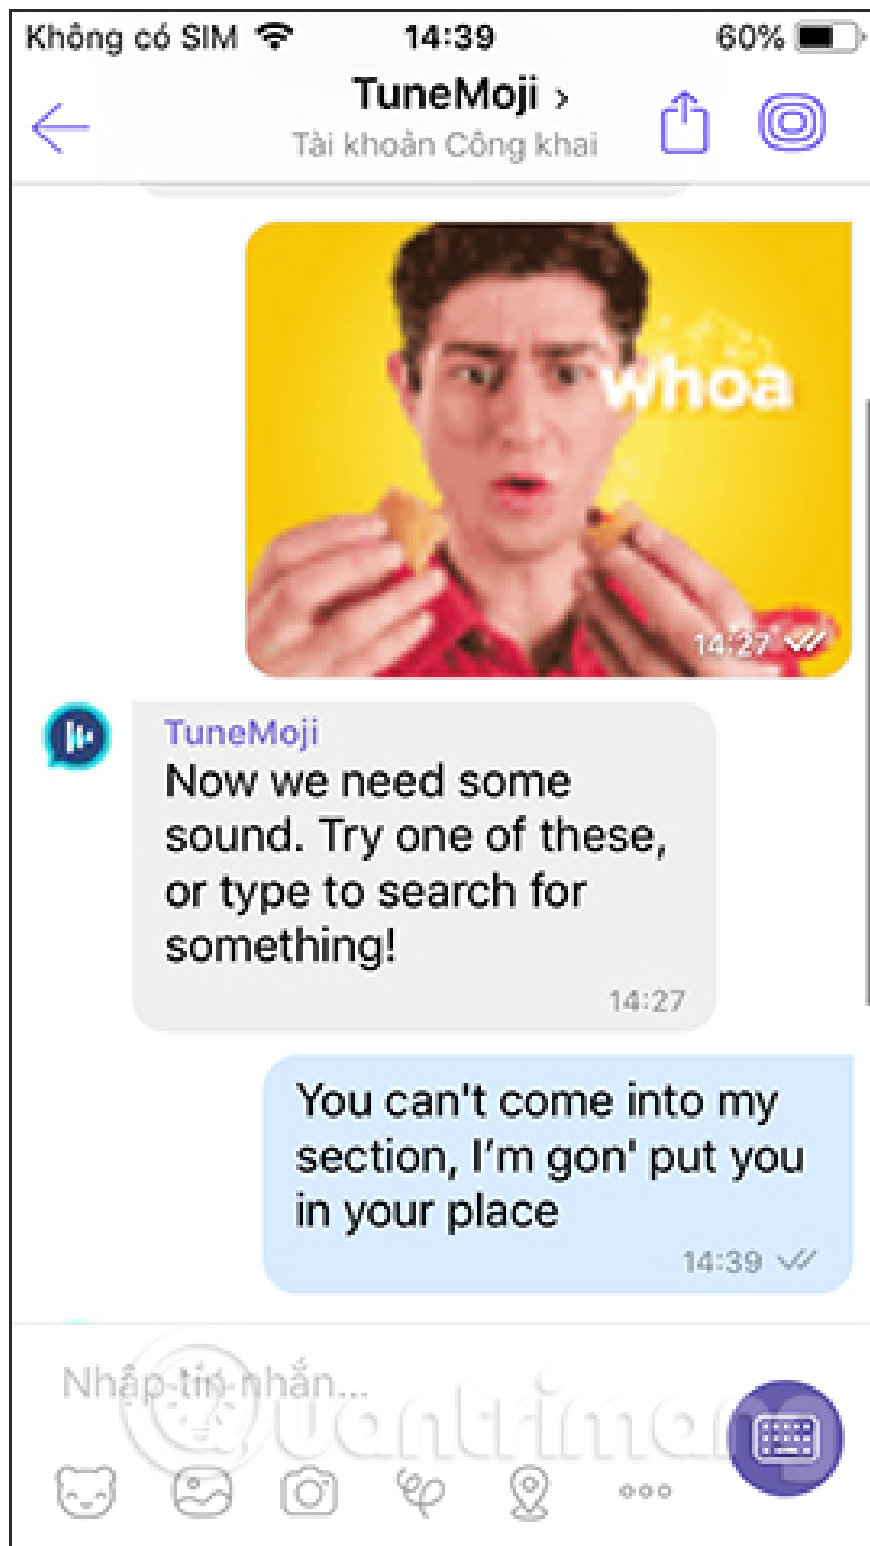

Flexing hard, call me Popeye,
wallet filled with spinach, ayy

I don't want a valentine I just
want Valentino

Step 6:

Also TuneMoji also allows **changing caption, content of the message** if desired, click **Edit Caption** . Enter the new caption content then press the send button as usual.
