

# How to send files on Viber for PC

Finally, one of the most anticipated user features was officially updated by Viber in the latest version 5.9, which is to send the file. Now users can send and receive files very quickly in the conversation. Besides, we can press Like messages like on Facebook. It is very interesting, isn't it. Please refer to the instructions below of TipsMake.com offline.

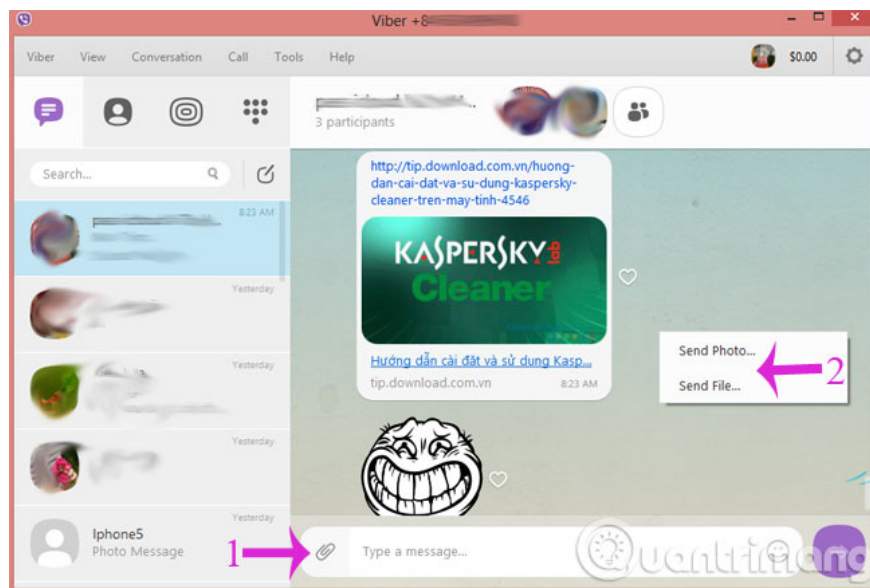

Finally, one of the most anticipated user features was officially updated by Viber in the latest version 5.9, which is to send the file. Now users can send and receive files very quickly in the conversation. Besides, we can press Like messages like on **Facebook** . It is very interesting, isn't it. Please refer to the instructions below of TipsMake.com offline.

Download Viber 5.9 for PC

## Step 1:

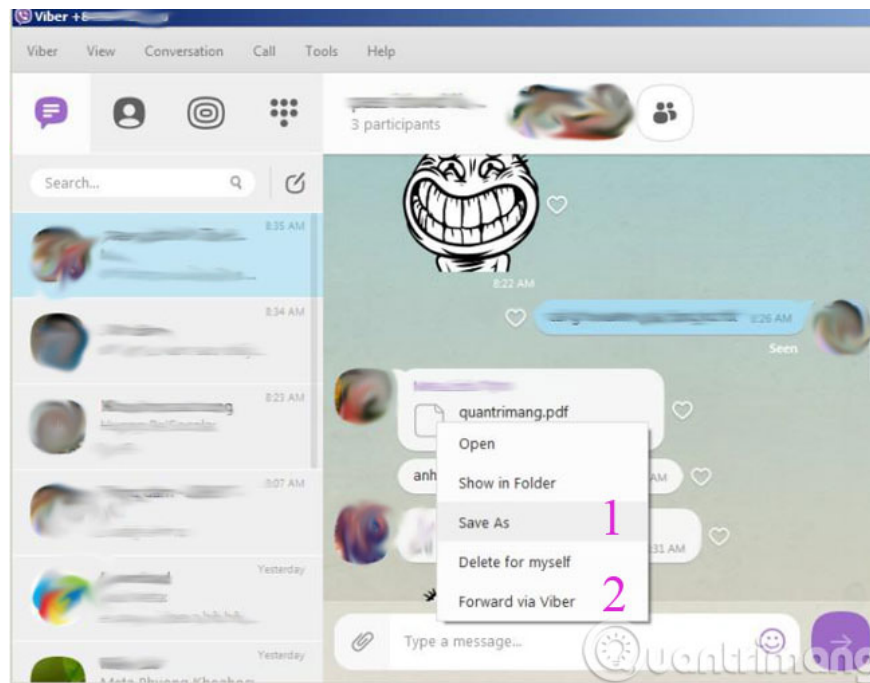

Open any Viber conversation, click **the pin** icon or right-click on the chat screen and select **Send File** .

Note : To send multiple files hold the **Shift** key on the keyboard and press select each file

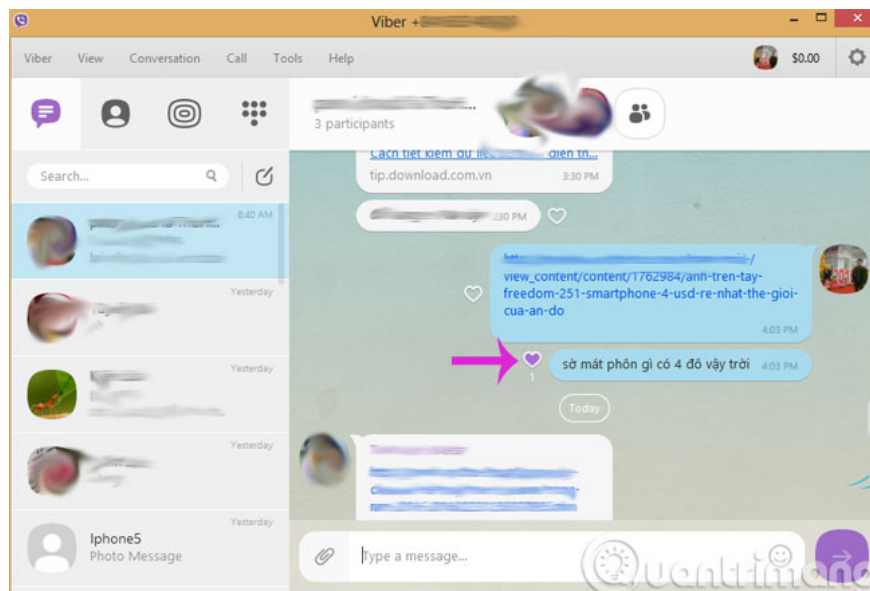

## Step 2:

The recipient simply right-clicks on the file and then select **Save as** to save to the computer or select **Forward via Viber** to forward

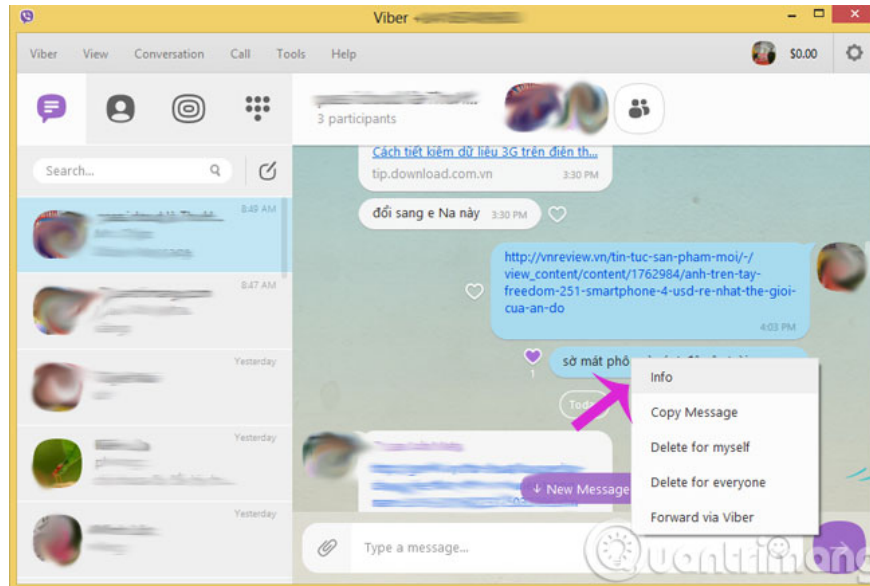

### Step 3:

In addition, you can press **Like** message in **Group chat** by clicking on **the heart** next to each message

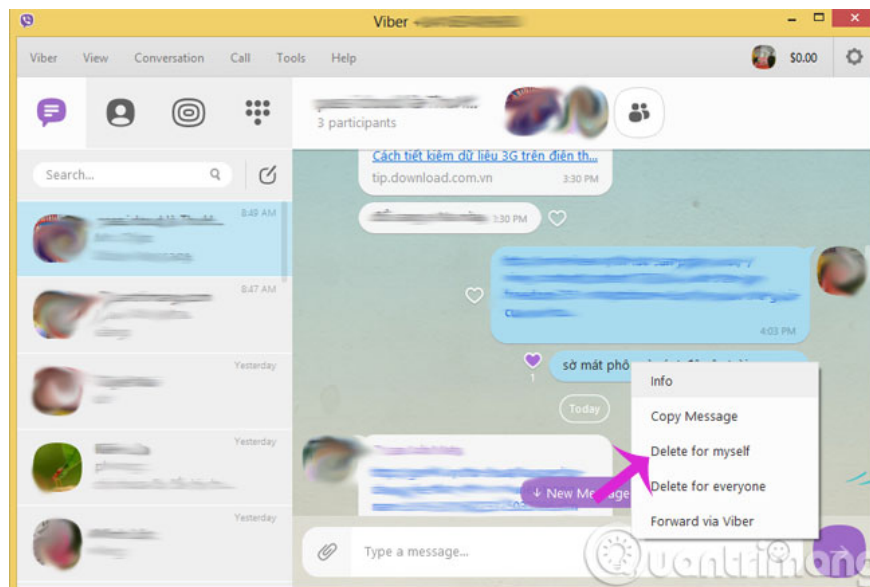

### Step 4:

To see who likes the message, just right-click on it and select **Info**

## Step 5:

To delete a message, right-click and select **Delete for myself**
