

# How to send WhatsApp messages to yourself

The feature to send messages on WhatsApp to yourself makes it possible for us to save notes, forward messages to ourselves or send ourselves a link to find them right when needed.

Unlike other applications that have a note section, with WhatsApp, you cannot save information in the application such as important information, content links, forwarded messages, . If so you can use the new feature to message yourself on WhatsApp application. The feature to send messages on WhatsApp to yourself makes it possible for us to save notes, forward messages to ourselves or send ourselves a link to find them right when needed. The following article will guide you to send messages on WhatsApp to yourself.

## Instructions to send messages on WhatsApp to yourself

### Step 1:

At the interface on the WhatsApp application, click on the tab of **the message creation icon** in the right corner. Next, display the contact interface on WhatsApp, we **click You** .
