

# How to set a Windows 11 computer password, set a Windows 11 password

Setting a password for your Windows 11 computer is an effective way to protect your personal information and important data. This article will provide detailed instructions on how to set a strong Windows 11 password, as well as the benefits of securing your computer through a password for privacy and security.

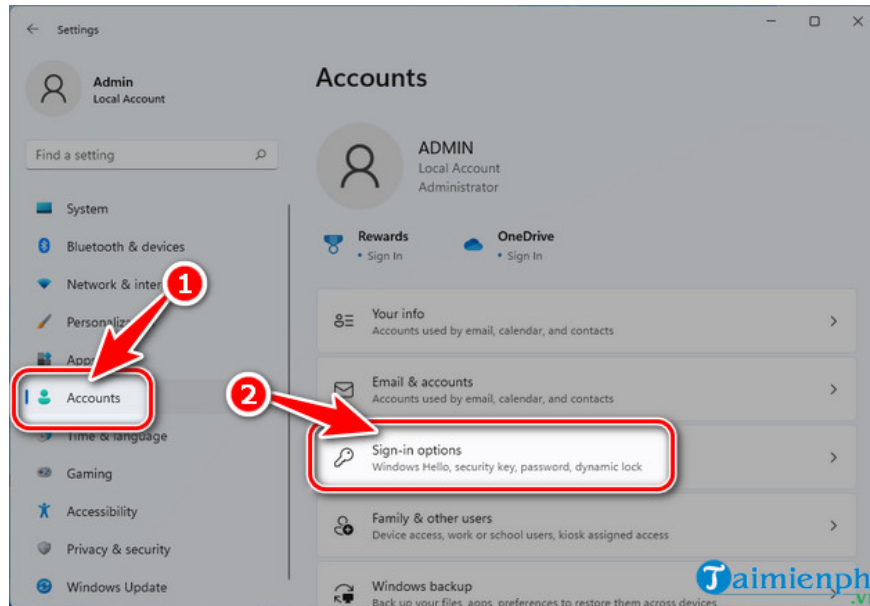

**The Windows 11** version has been edited and optimized by Microsoft with many features and interfaces, so it is completely different from Windows 10/8/7, which also means that setting a **computer password on Windows 11** is also possible. will be different, but the steps are extremely simple.

## *Instructions for setting a Windows 11 computer password*

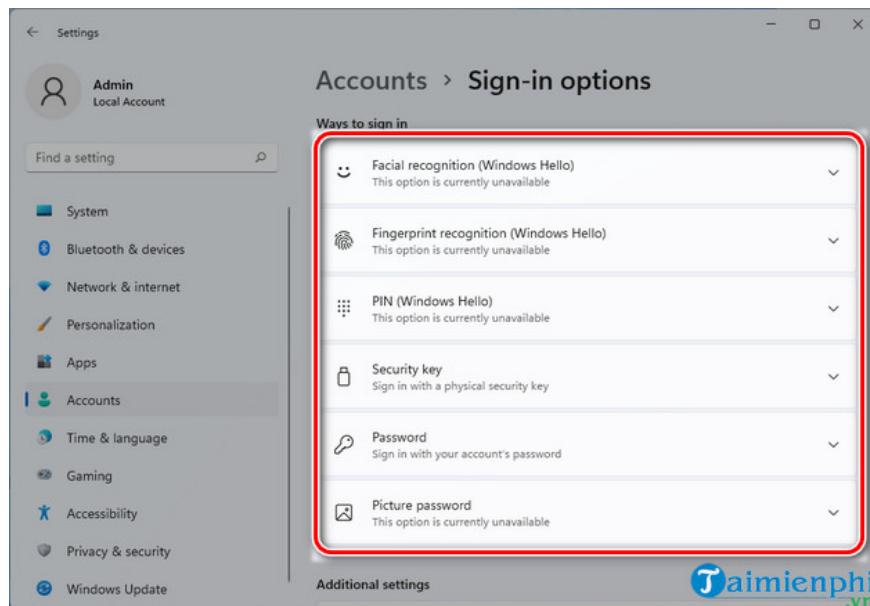

*Step 1:* Press the key combination **Windows + i** or click **Icon Setting** in the **Start Menu**

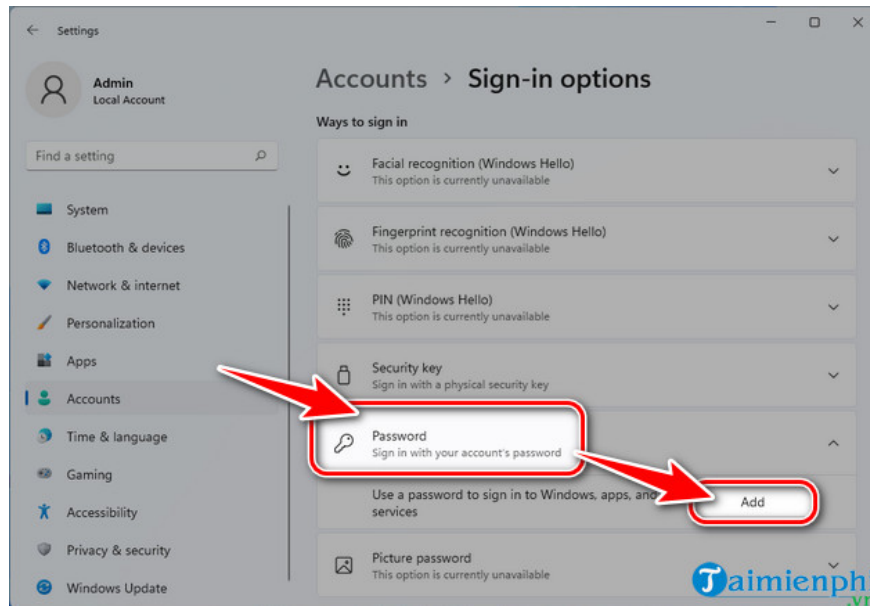

*Step 2:* In the **Setting** panel , select **Account** => click **Sign-in Options** on the right.

Step 3: Here you can set a Windows 11 password using many methods such as **facial recognition** , **fingerprint** , **pin code** , **security code** , **password** , **pattern password** .

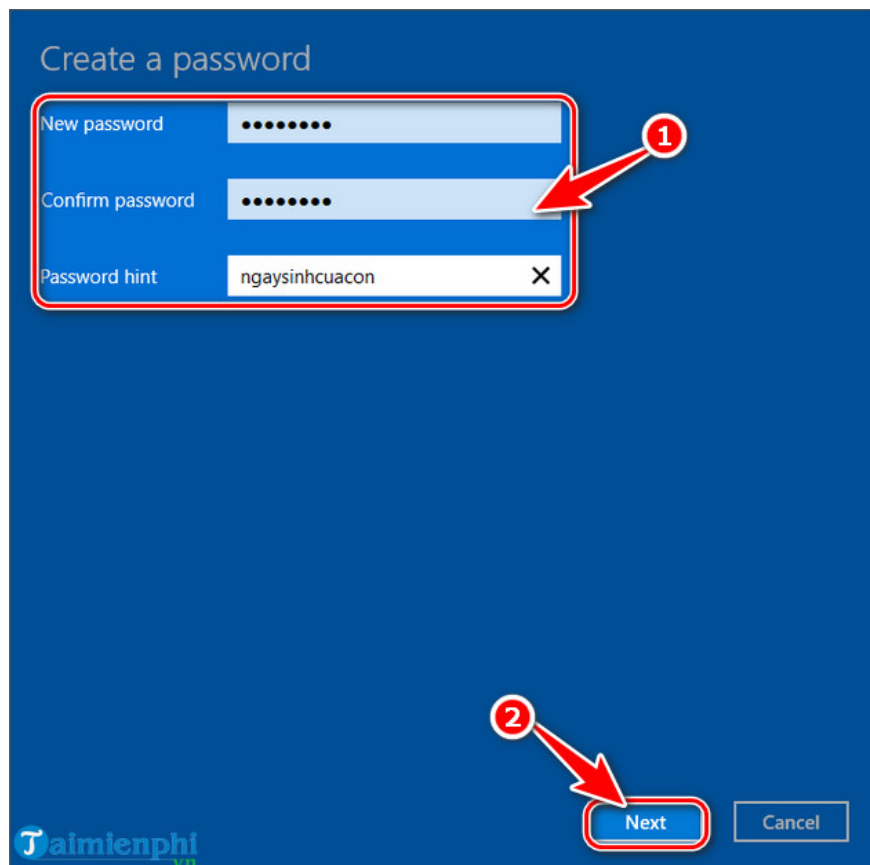

- For example, Taimienphi chooses to Set Windows 11 computer password with Password, select **Password** => click **Add** in the new table that appears.

*Step 4:* Enter the Windows 11 computer **password you need to set in the New Password box => re-enter the password in Confirm Password => enter the password hint in Password Hint => click Next => Finish** and you're done.

- **New Password** and **Confirm Password** must be the same

- **Password Hint** : is a password hint, the system will automatically suggest in case you don't remember what the password you set is (eg main password is 02/24/ 2021, you can set the Password Hint as hoangsinhcuacon to suggest the password you have set).

If you want **to change your Windows 11 computer password** , just click Change, enter the old password, then click Next and follow the same steps as Taimienphi instructed above. If you want to delete the password, leave it blank. total.
