

How to set ChatGPT as Firefox default search engine

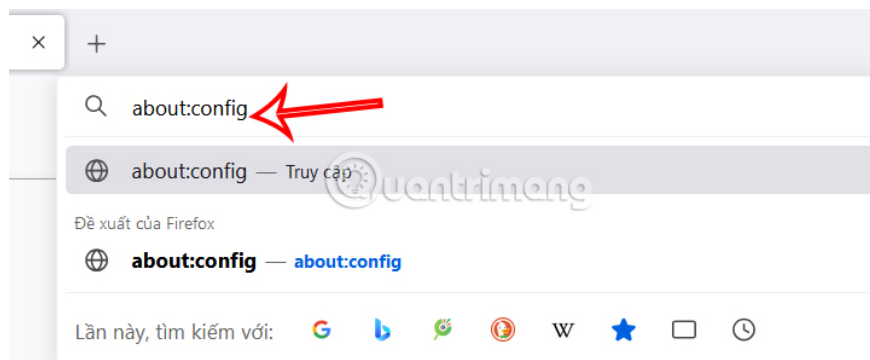

ChatGPT is now available with a search engine for you to use in your web browser, for example we can use ChatGPT as the default search engine on Firefox.

ChatGPT has now been launched with a search engine for you to use for your web browser, for example we can use ChatGPT as the default search engine on Firefox. Accordingly, we just need to adjust a few settings on the browser and ChatGPT will be the default search engine on Firefox. Below are instructions for setting Firefox as the default search engine on Firefox.

How to set ChatGPT as search engine on Firefox

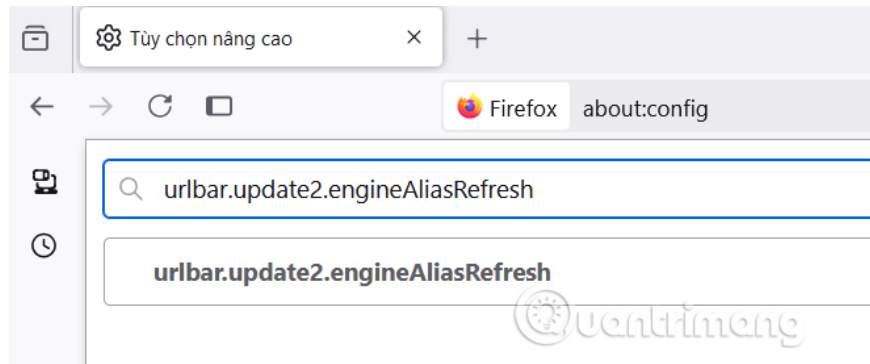

Step 1:

At the interface on the Firefox browser, we **enter about:config in the address bar** and press Enter. When you see the warning interface, **click Accept risk and continue**.

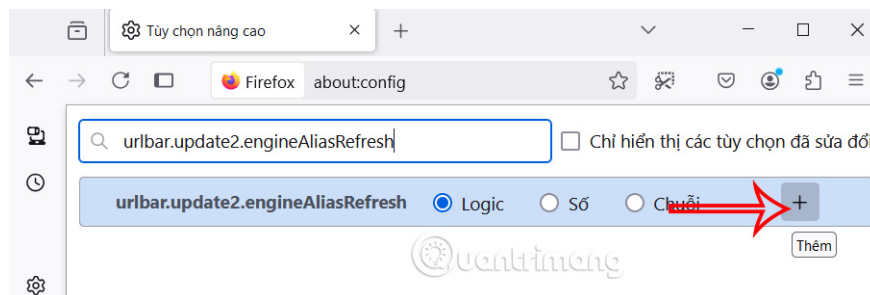

Step 2:

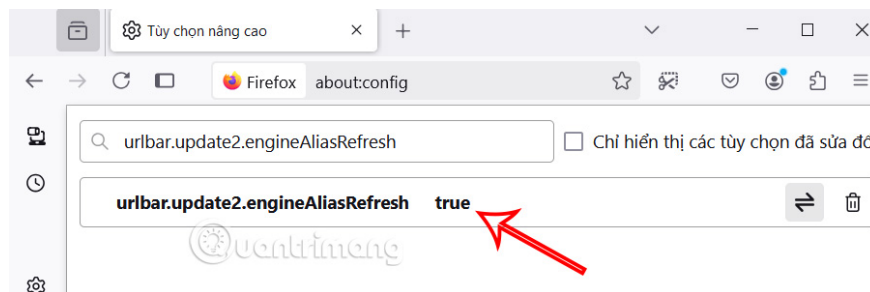

Now the user **enters urlbar.update2.engineAliasRefresh** into the search bar in this interface.

You continue to click on **the plus icon** at the end of the line to activate.

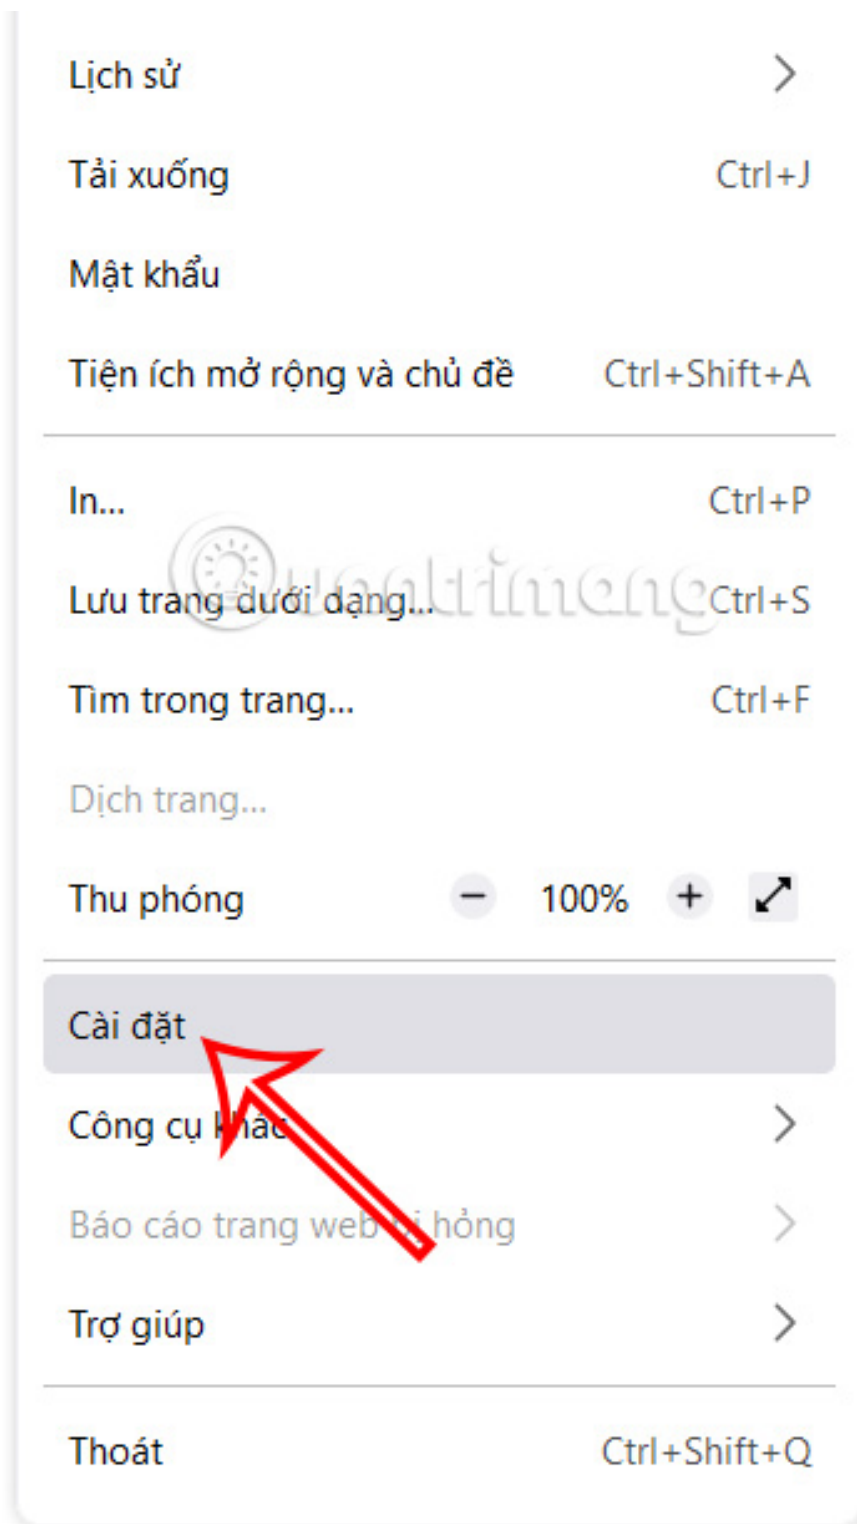

Then the setting is enabled and **turned to true** as shown below.

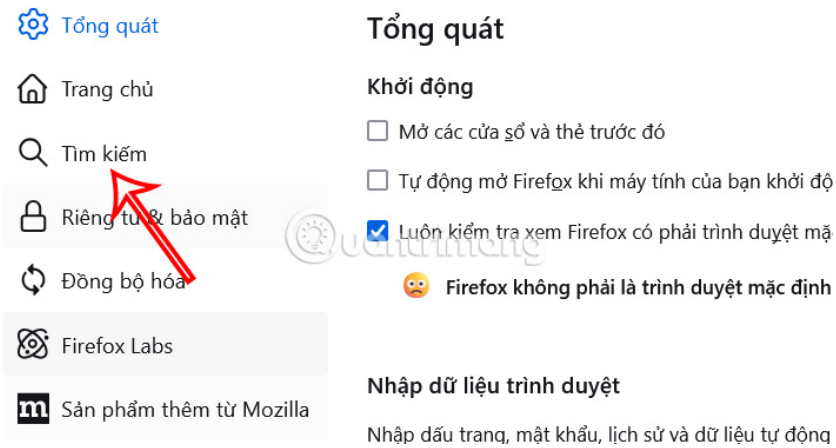

Step 3:

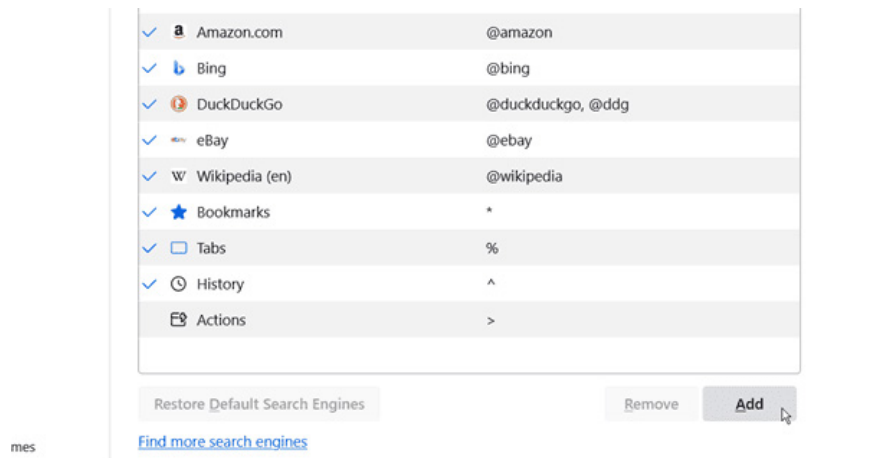

Next, we click on **the 3 dashes icon** and **select Settings** in the displayed list.

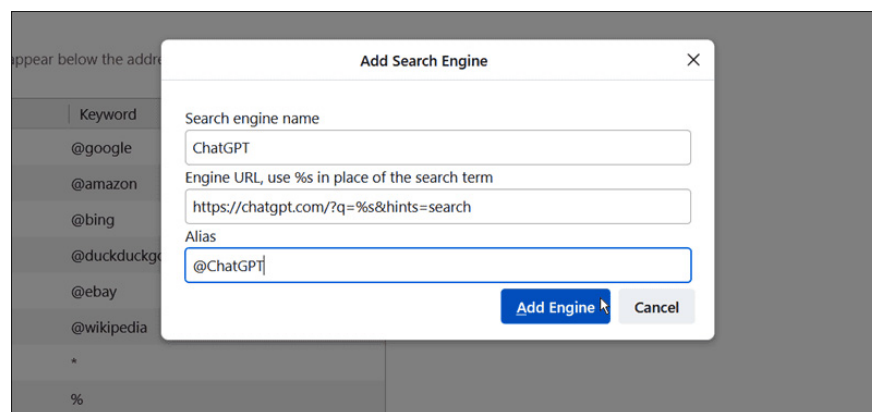

Go to the setup interface, the user clicks on **the Search item** in the list on the left.

Look at the content next to it, **at Search Shortcuts** you **click Add** below.

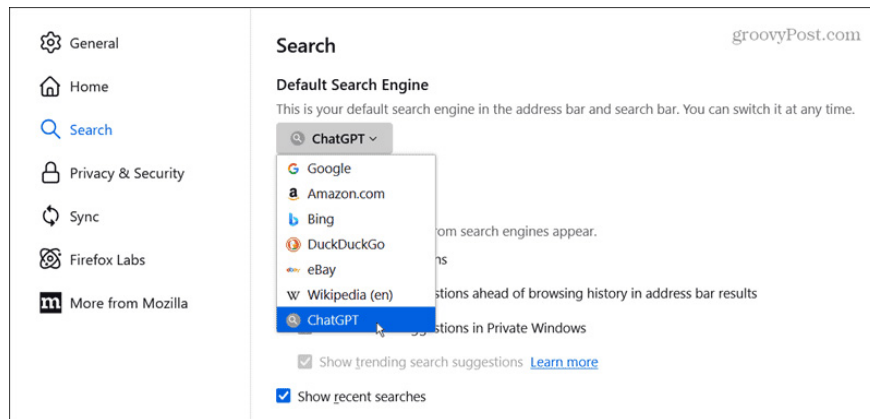

Now we **add information to each frame** as shown below. Then **click Add Engine** to add the ChatGPT search engine on Firefox.

Step 4:

Scroll up at **Default Search Engine**, we select **ChatGPT** in the list to set ChatGPT as the default search engine on Firefox.
