

How to set the dark background for pop-up menus on iPhone

Tweak DarkTables will change the pop-up menu on iPhone to black instead of traditional white.

Usually pop-up menus on iPhone, iPad will have white and lowercase black interface. If users want to change the pop-up interface to black, DarkTables tweak can be installed.

Tweak DarkTables will provide the option between 2 dark and black background modes for the pop-up menu on iPhone. DarkTables is installed on iOS 11 jailbroken devices. The following article will show you how to use DarkTables on iPhone.

3. How to turn on Night Mode for Twitter on iPhone

How to set the dark background for pop-up on iPhone

Step 1:

Currently tweaking DarkTables is a free experience on Cydia's BigBoss source. You search in Cydia or you can always access the link below.

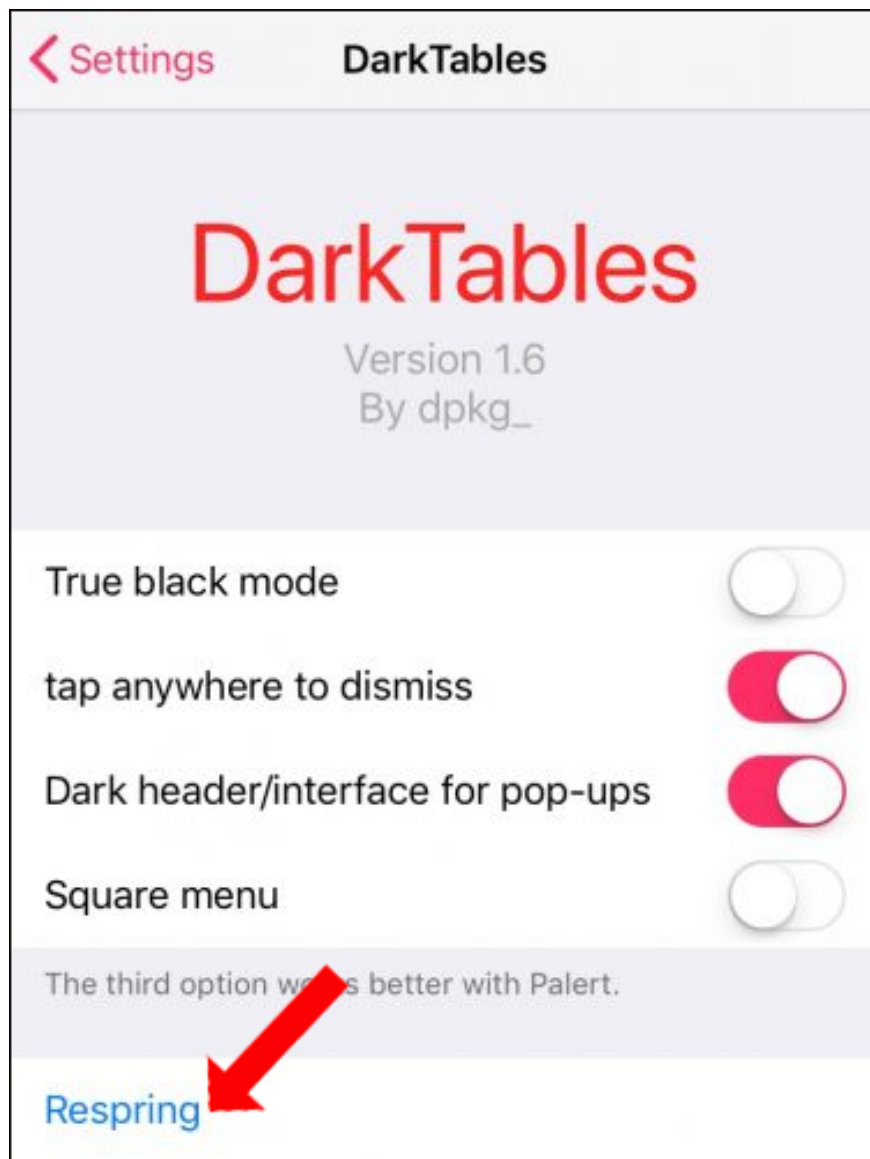

<http://apt.thebigboss.org/onepackage.php?bundleid=com.dpkg.darktables>

Step 2:

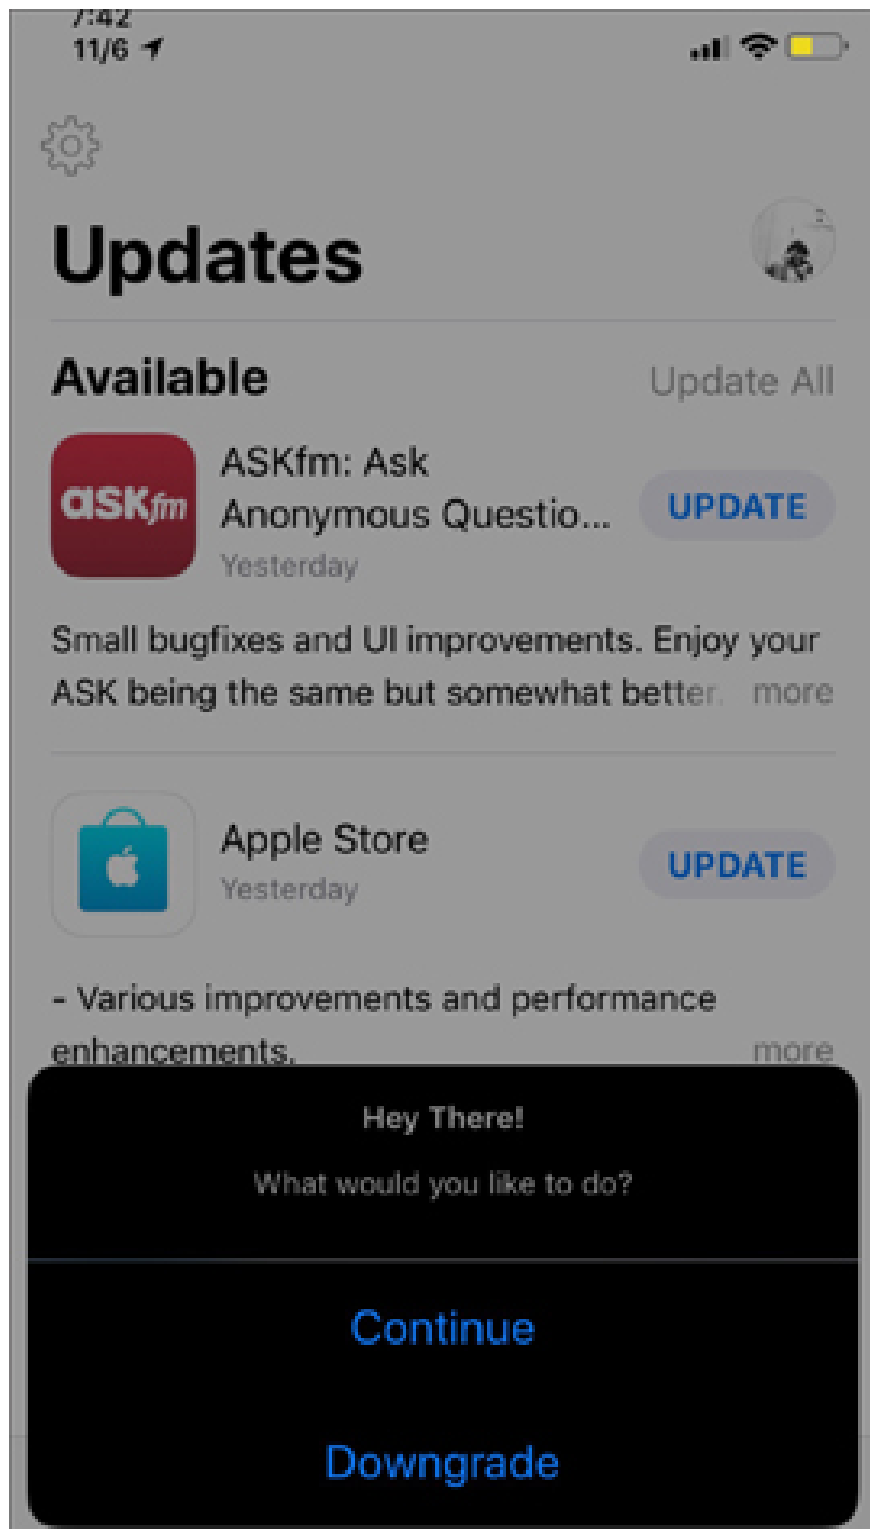

After the installation is complete, the user accessing the **Settings** selects DarkTables to change some settings. The options are simple:

1. True Black Mode: Switch between dark background or black background mode.
2. Tap Anywhere To Dismiss: Click anywhere on the screen to skip the pop-up menu
3. Dark header / interface: Switches the title and dark interface for the displayed menus
4. Square Menu: Remove the corner of the pop-up menu.

If you want to use any setting, just push the round button to the right to activate it. Then click **the Respring button** below to apply the new changes on the device.

Then the iPhone pop-up menu interface will change like some examples below.

Tweaking would be more appropriate if we combined using dark or black background themes for the entire interface.
