

How to set the default browser when opening any link on the computer

Setting the default browser on your computer allows you to open links from other applications using your favorite browser. If you do not change the default browser to your liking, the Windows default browser is Internet Explorer. If you install Chrome, Firefox or Coc Coc and want to set them as the default browser, please see the instructions below.

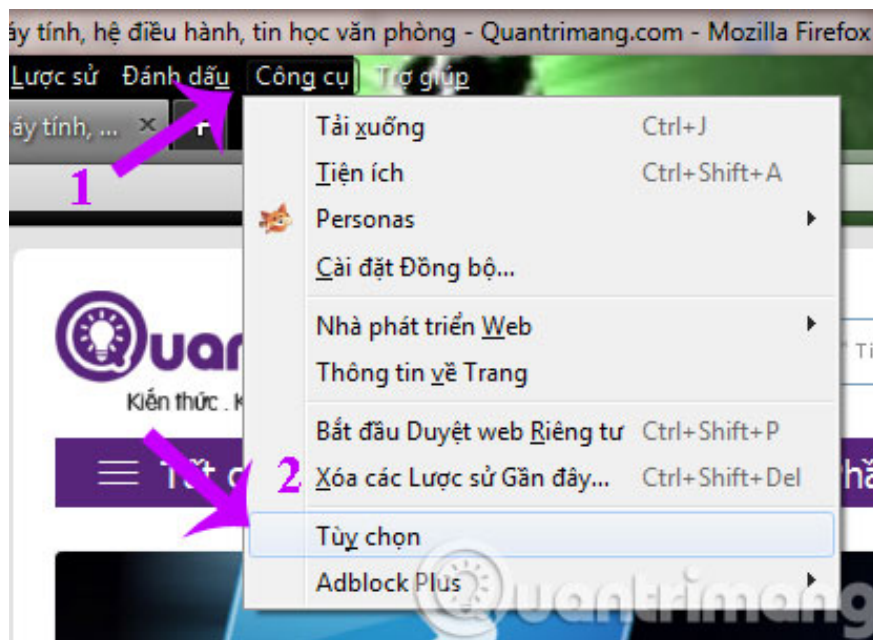

Setting the default browser on your computer allows you to open links from other applications using your favorite browser. It could be the link of songs, videos, websites that friends share with you via chat applications, document links on Word, links to the developer website after the application is installed.

1. How to block ads when surfing the web
2. How to fix SSL connection errors on Chrome and Firefox
3. How to take photos of websites on Chrome and Firefox

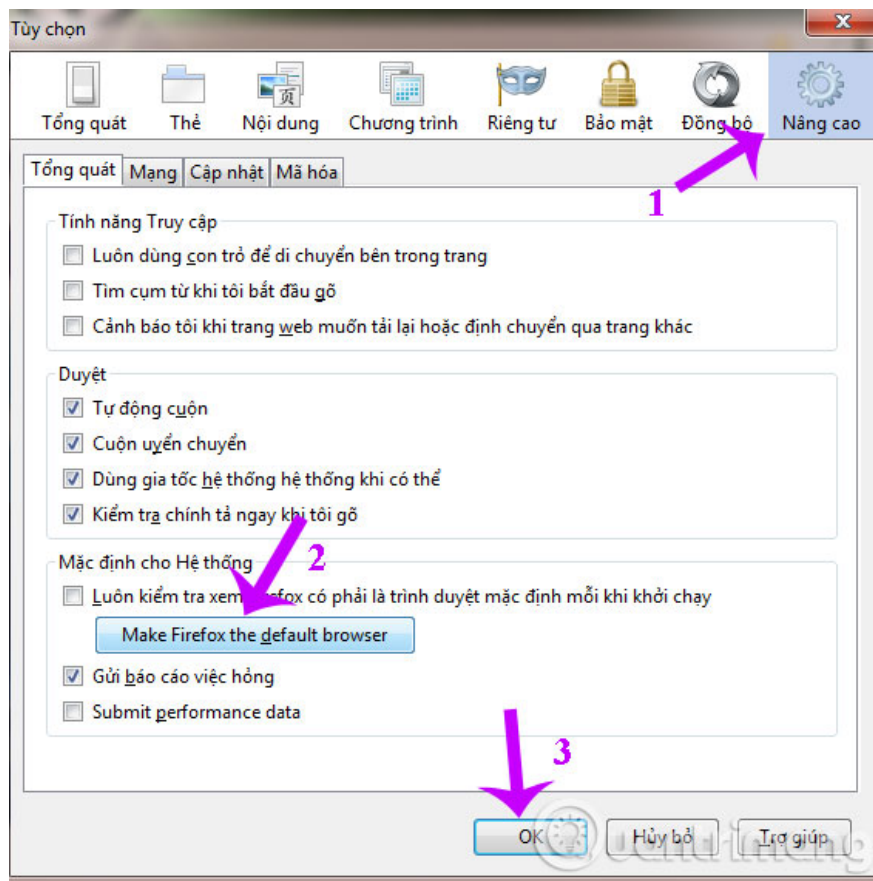

If you do **not change the default browser to your** liking, Windows implicitly sets **the default browser to** Internet Explorer, Mac will implicitly set Safari as the default browser. If you install Chrome, Firefox or Coc Coc and want to set them as the default browser, please see the instructions below.

Set Firefox as the default browser

Step 1 : In the main interface of Firefox, select the **Tools** menu and choose **Options**

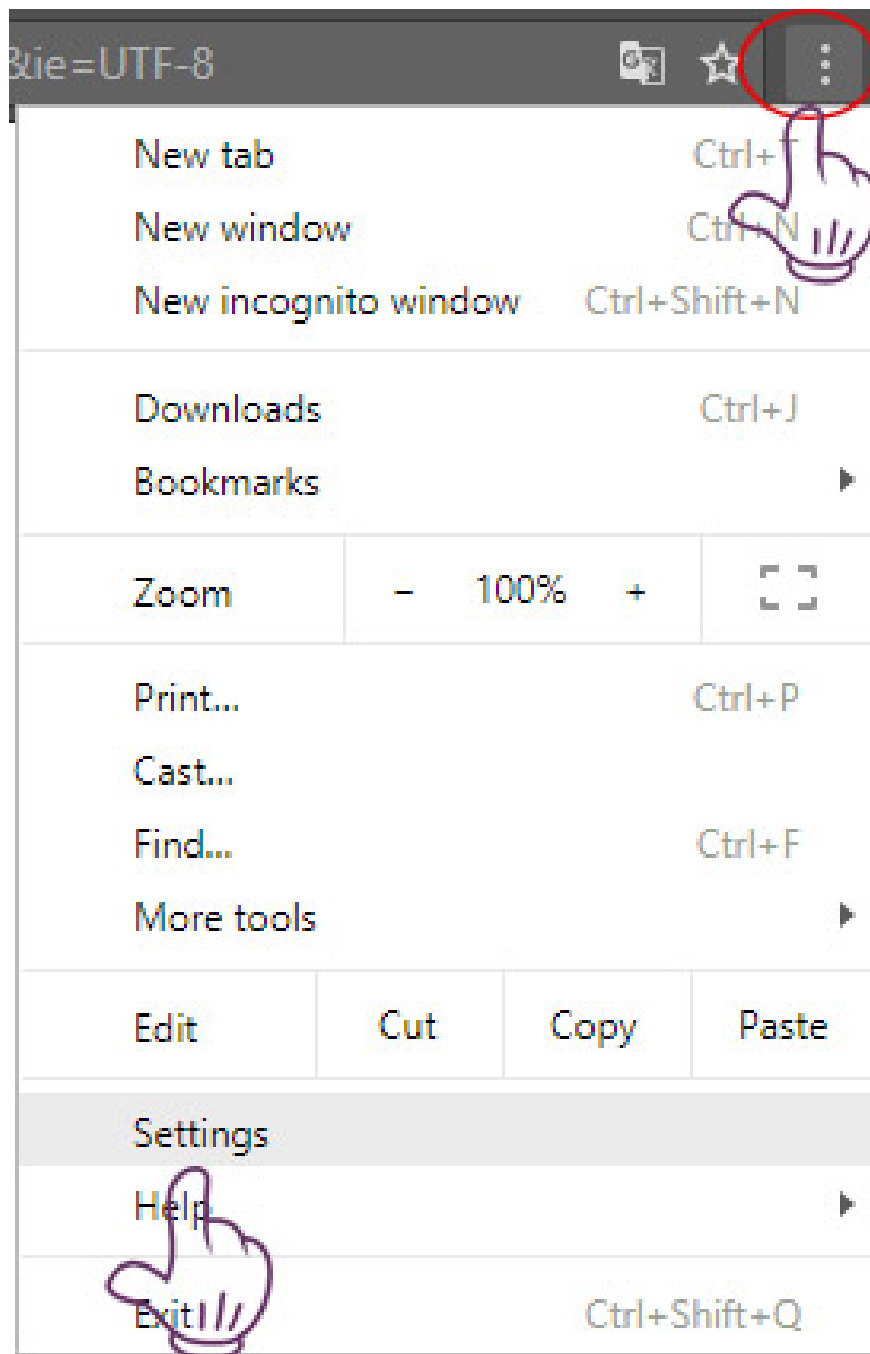

Step 2 : When the **Options** window appears, switch to the **Advanced** tab and click **Make Firefox the default browser** and click **OK**

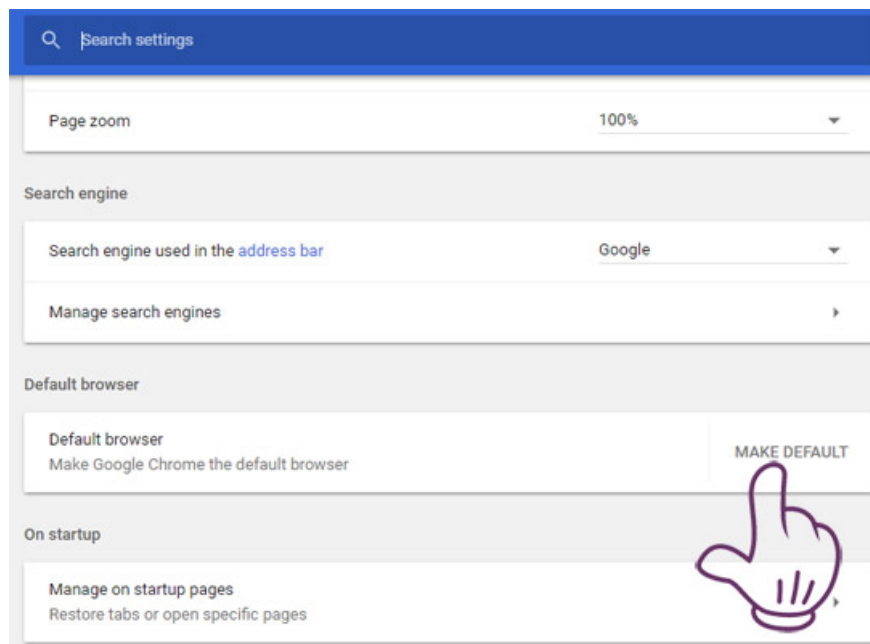

Set Chrome as the default browser

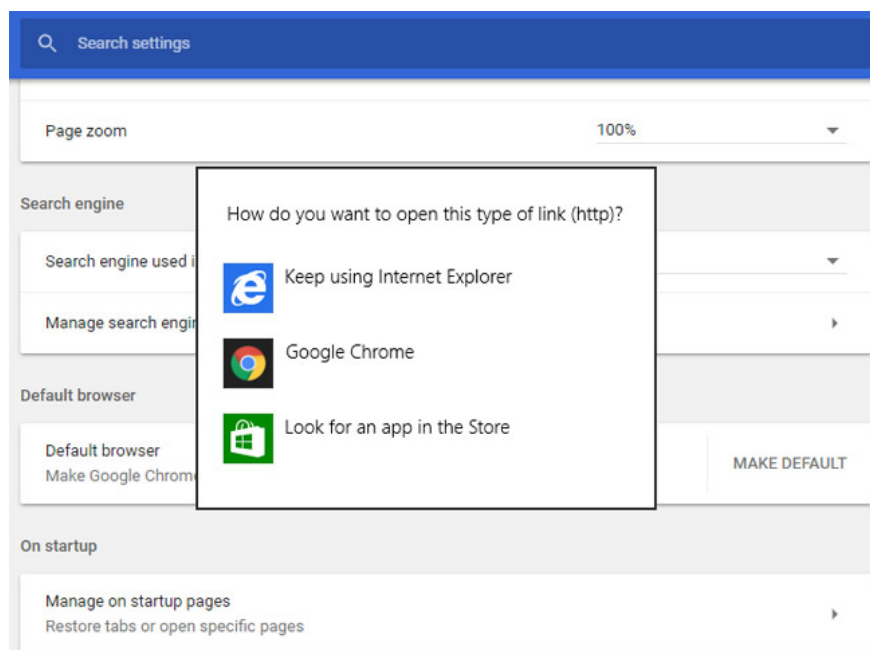

Step 1 : In the Chrome interface, you click on the **3 dots** icon **along** the top right corner and select **Settings (Settings)**

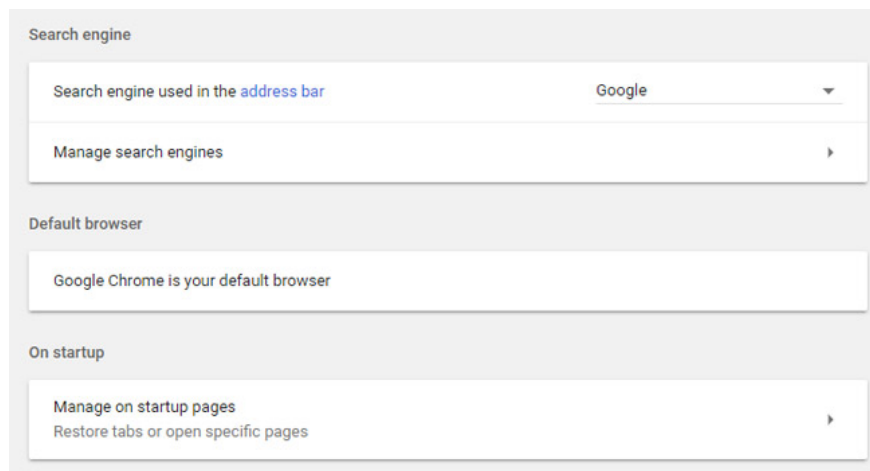

Step 2 : In the **Settings** window, click **Make Default (Select the default browser)**

Step 3: In the window that appears, select Google Chrome

Step 4: Complete the default browser conversion on Chrome

Set Coc Coc as the default browser

Usually, once you install Coc Coc, it asks if you want to set it as the default browser, and repeatedly asks you later when you open it, until you select "Don't ask again", that's all. If you choose "Don't ask again" and regret it, it's okay, follow these steps to set Coc Coc as your default browser.

Step 1: Click the Coc Coc icon

Step 2: Select Settings

Step 3: Select System default settings

Step 4: Click Choose Coc Coc as the default browser
