2. Instructions for changing Windows 10 wallpaper timer
3. How to change Win 10 computer wallpaper

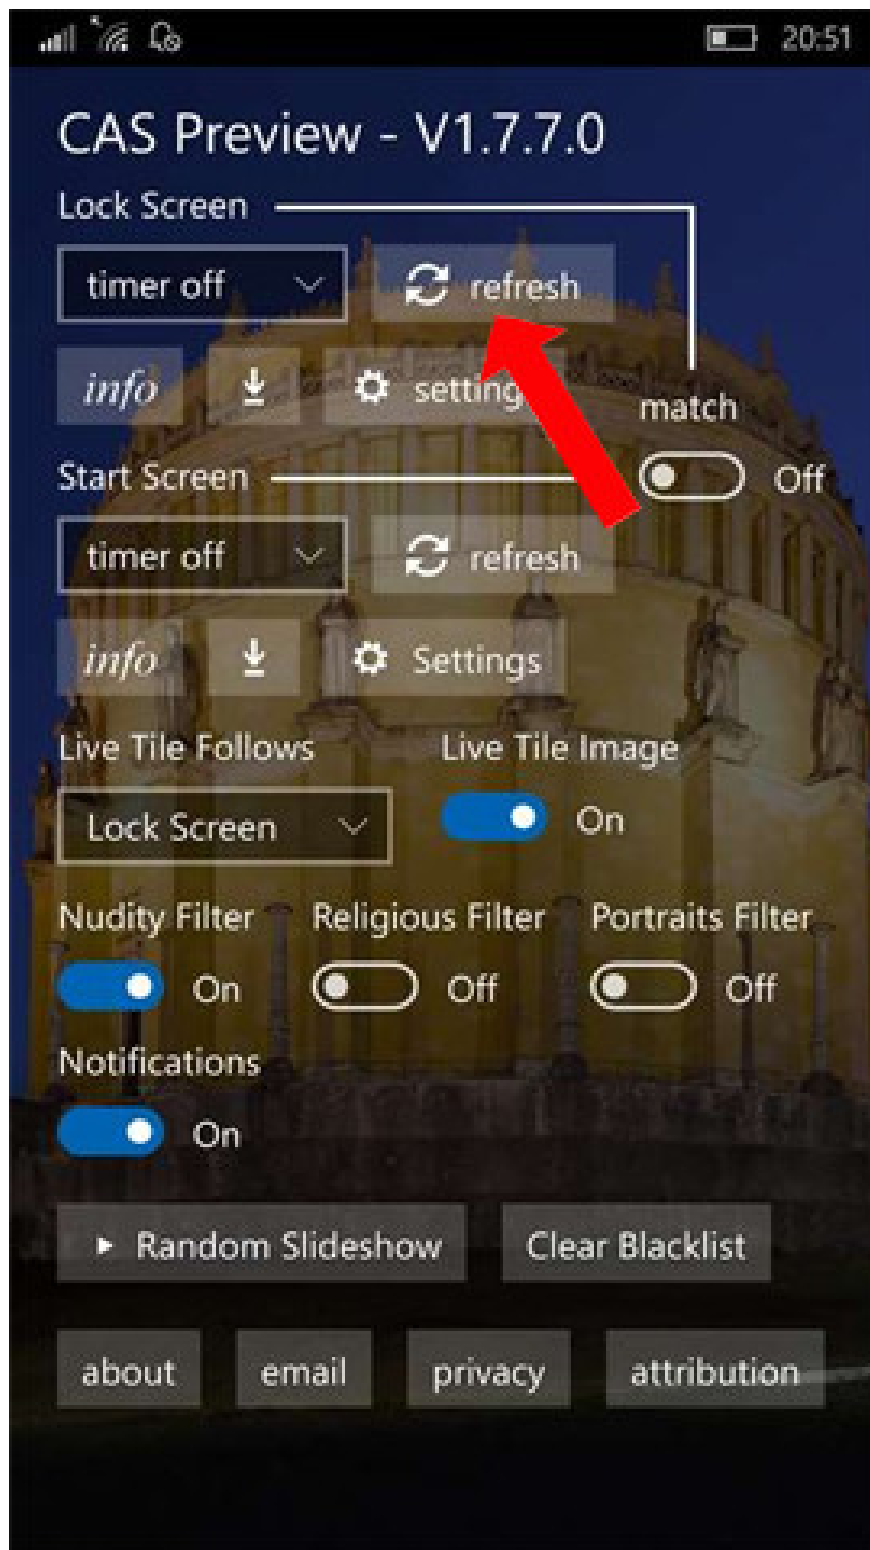

Instructions for using CAS Preview to change Windows 10 wallpapers

Step 1:

Download the CAS Preview application according to the link below, then access the application. Click **the Refresh button** at the computer screen, or the lock screen you want to use to proceed with the wallpaper installation.

1. Download the Windows 10 CAS Preview application

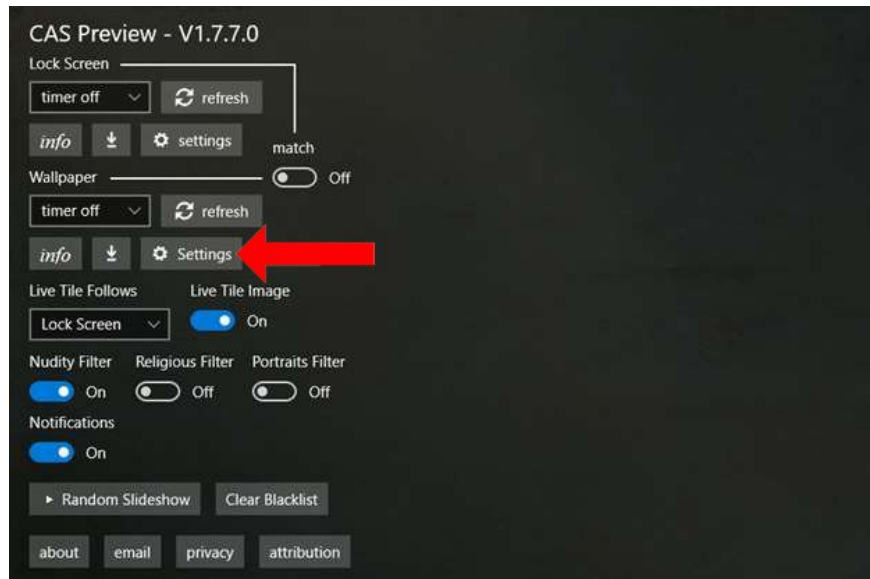

If you want to share images for both desktop or lock screen, turn On at the match. Next press the Refresh button to display the wallpaper. Want to switch to another wallpaper also press the Refresh button.

Step 2:

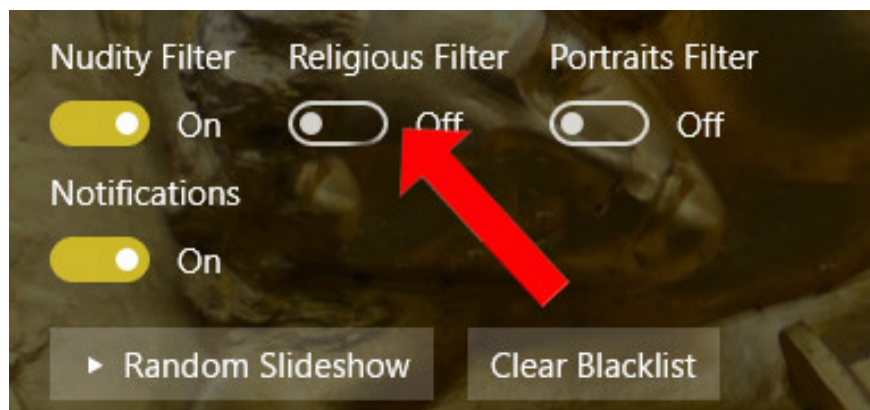

At the **Time off** section, users can set the time to automatically change the wallpaper for the desktop or lock screen. Maximum exchange time is 1 week and minimum 15 minutes.

When clicking on **Settings**, users will access Personalization on the computer system.

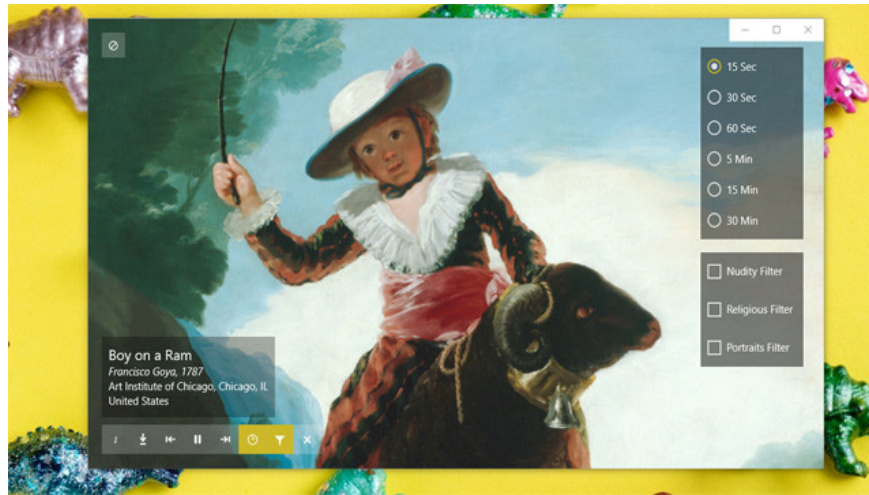

Step 3:

There are a number of different **image filtering filters** like Nudity Filter, Religious Filter or Portraits Filter.

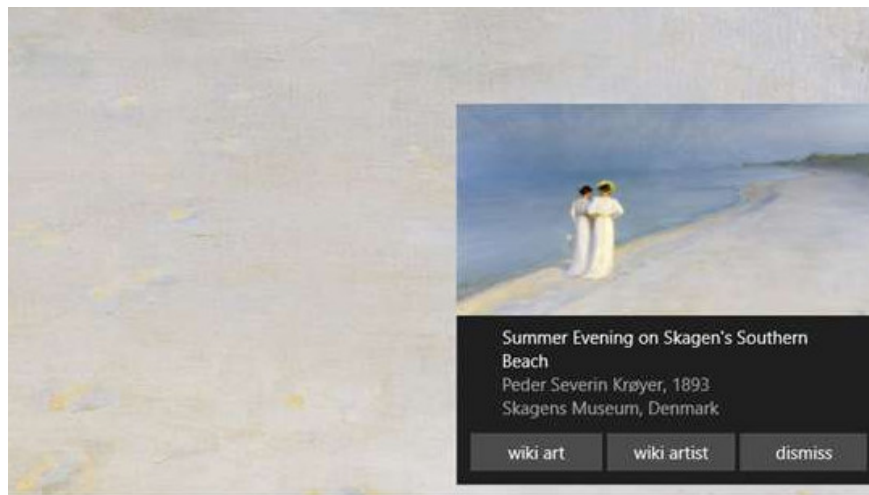

Step 4:

In addition, photo slideshow mode is also provided on the application. Click the **Random Slideshow** button to display the image and change the new image after 15 seconds.

In addition, you can toggle on the display of Live Tile (Live Tile Image), Live Tile Follows, image change notifications (Notification), and Clear Blacklist. In each wallpaper there will be options for you to search for artist and work information if you want.

Not only help you change your computer wallpaper or lock screen with drawings, CAS Preview also brings many other unique features. Each picture will have brief information for users to know, or option to search for that art image.
