

# How to share files on Google Drive

Besides data storage, Google Drive also allows sharing files on Google Drive with shared links, or you can enter the account name you want to share.

Google Drive is now an online storage service used by many people. Besides, Google Drive also supports data sharing through creating shared links, or users can directly enter the account name to share data.

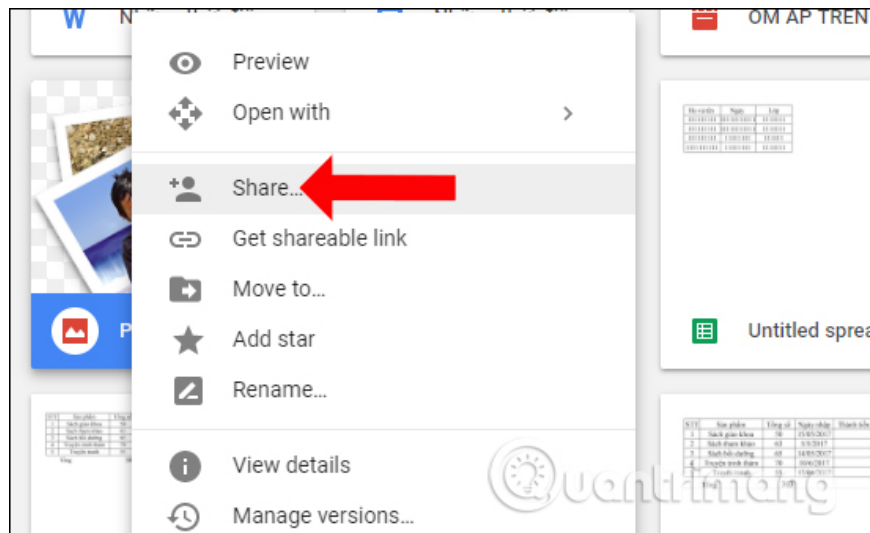

Through creating a Google account, users can use other useful services like Gmail, Youtube, or Google Drive. Downloading data to Google Drive is also very simple. After uploading the data, we can choose the sharing method via the document link to share it with anyone who has the link. Or if you want to share Google Drive data with certain people, Google Drive also supports entering the account name who wants to share data. Thus we will be more easily selected in sharing data.

1. How to limit the time of sharing links on Google Drive
2. How to change folder ownership in Google Drive
3. How to download files on Google Drive when the download limit is exceeded

## Instructions for sharing data on Google Drive

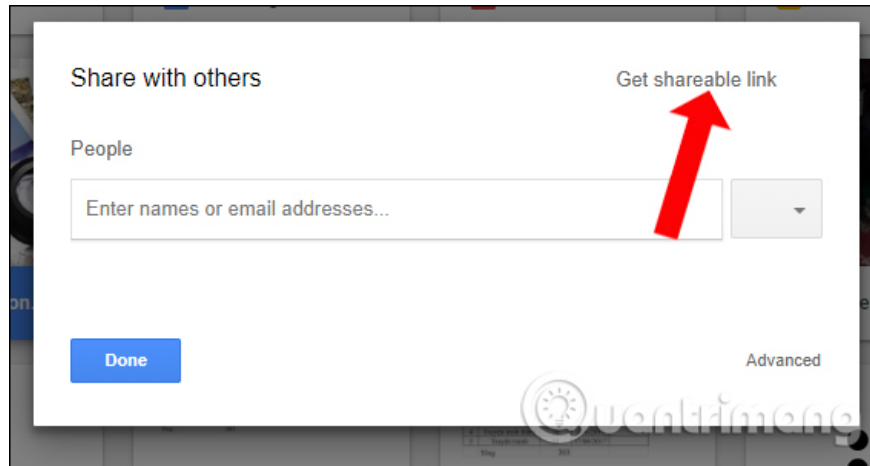

### Step 1:

Access to individual Google Drive accounts. Right-click on the data you want to share and select **Share** in the data options list.

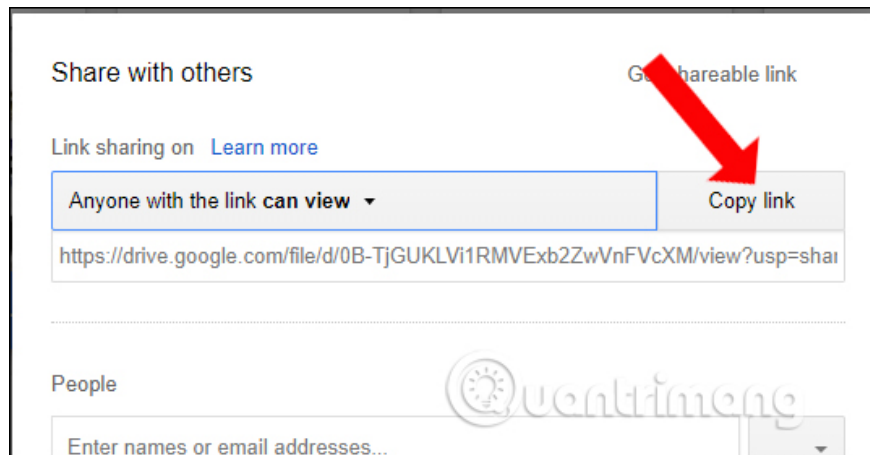

## Step 2:

Next click on **Get shareable link** ( **Get a shareable link** ).

## Step 3:

After that, the interface will have a link to share data with default, anyone can see this link (Anyone with the link can view). Click on the **Copy link** button to copy the data sharing link on Google Drive. You only need to send this sharing link to anyone to have access to the data

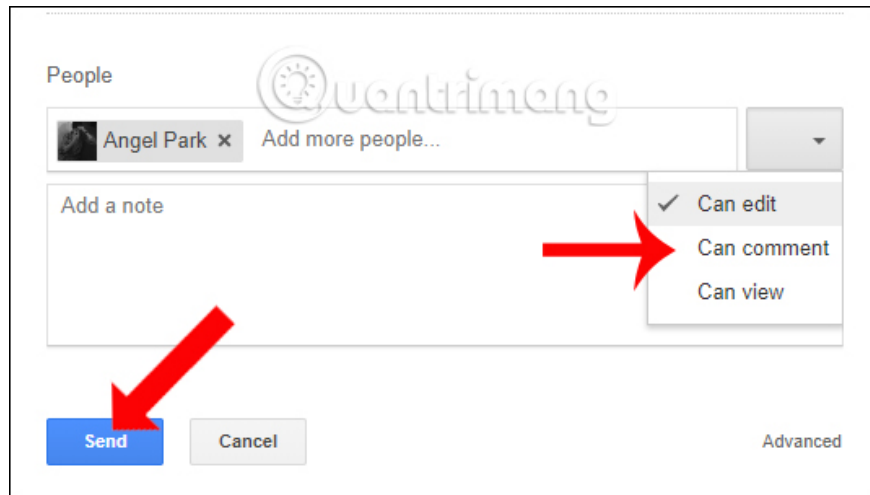

## Step 4:

In case you want **to share data for someone** , enter their account name in the People bar below. Enter the email address of the person who wants to share data from Google Drive. Below can write messages to shared people.

Next you can **customize the permissions** of the designated users to share data, including Can edit (Can edit data), Can comment (Can write comments to data) and Can view (Only can view data)

Finally press **the Send button** to send the data.

Through data sharing link on Google Drive, anyone can access the document when the mode is set, anyone can view the data. Besides, users can also customize specific people to edit documents, write comment content, or only view documents.
