

How to share screen in Google Meet

In the article below, Make Tech will guide you on how to share your screen on Google Meet.

You can share your screen at any time during the call with Google Meet. The Chrome web browser has a ton of screen change options. You can use Firefox, Microsoft Edge or Safari for the same experiences.

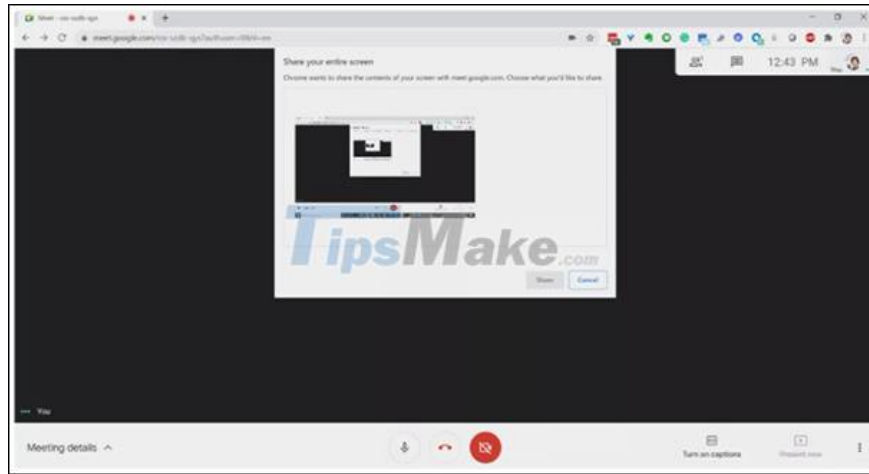

Step 1. Click **Present Now** at the bottom of the toolbar.

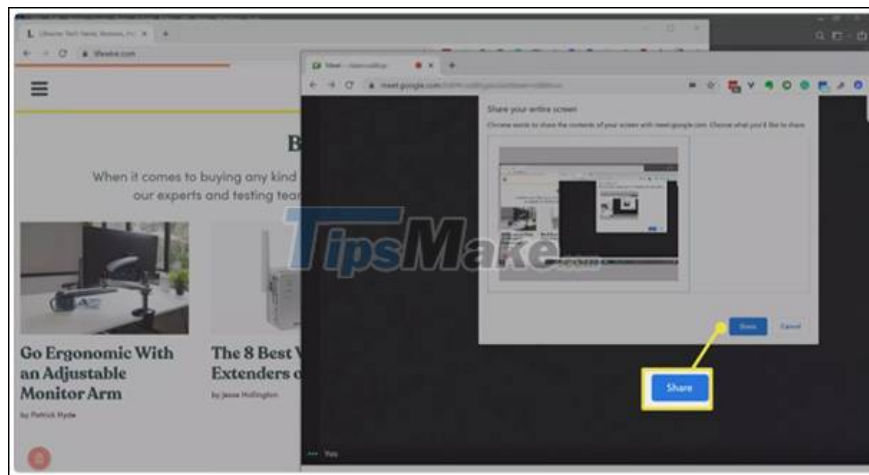

Step 2. Choose **Your entire screen**, **A window** or **Chrome Tab** from the pop-up menu.

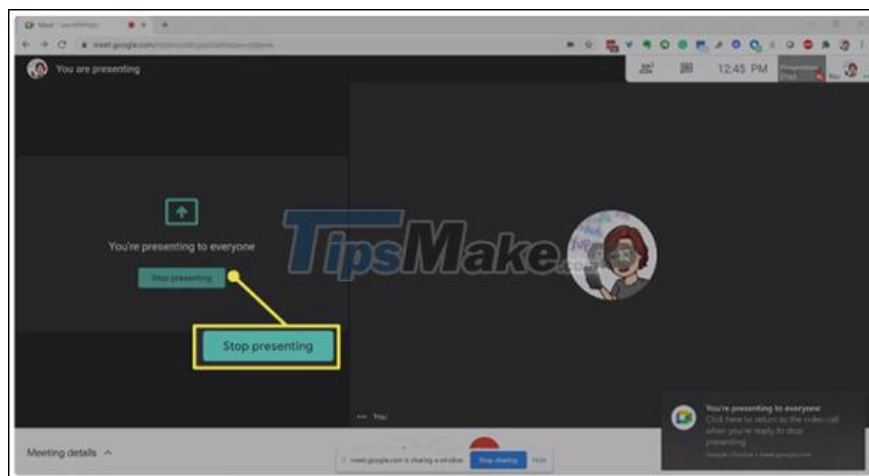

Step 3. Next, select the Chrome window or tab you want to share. You can share an application window, for example Photoshop or Microsoft Excel, a web page tab, or a PDF file.

Step 4. Click **Share** .

Step 5. To stop sharing, click **You Are Presenting > Stop Presenting** .

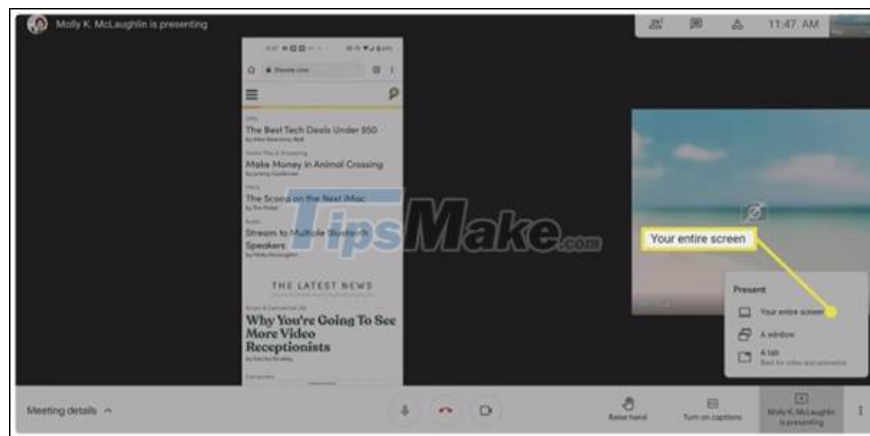

Share your screen with a presenter

You can share your screen while someone else is presenting, their screen pauses.

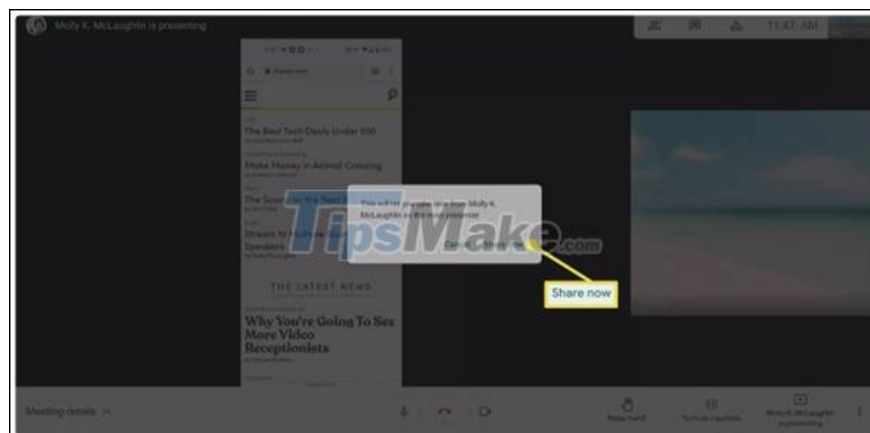

Step 1. Click on **[Name] is presenting** .

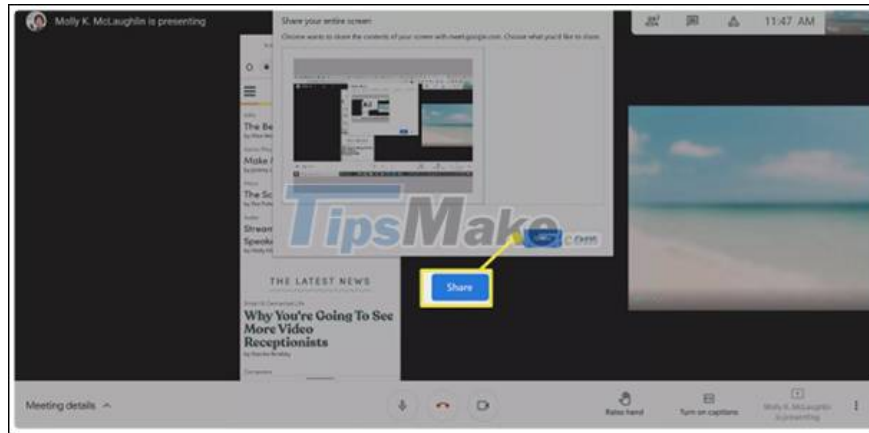

Step 2. Select **Your entire screen** , **A window** or **Chrome Tab** .

Step 3. A pop-up will pop up confirming you are trying to get screen sharing permissions. Click on **Share now** .

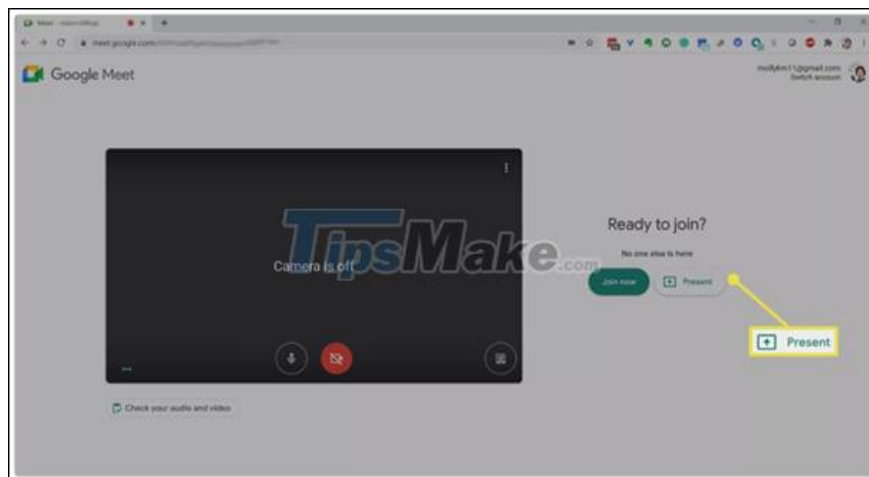

Step 4. Select **Share** .

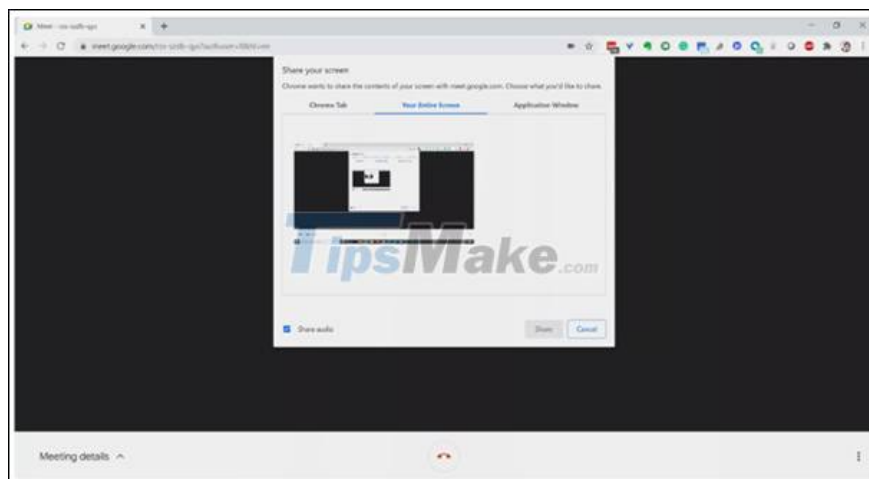

Join Google Meet just for presentations

If you're giving a presentation during a meeting and don't need to participate in other activities, you can go just to share the screen. You will not appear on the camera, only your screen will be displayed.

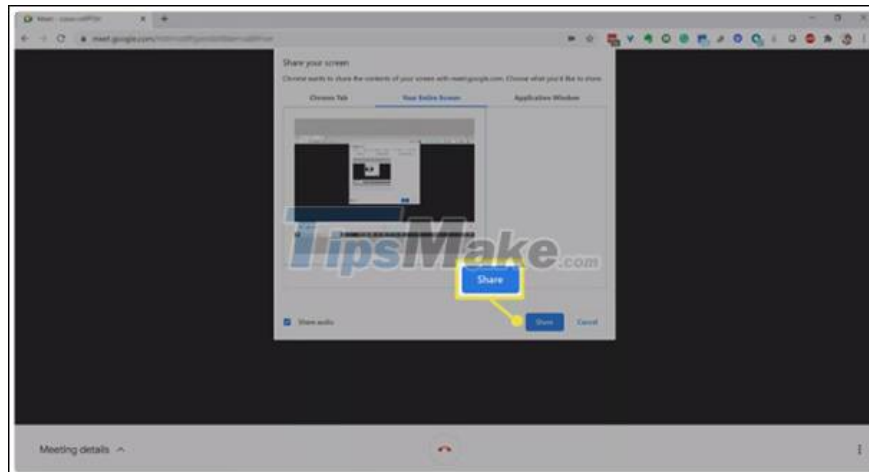

Step 1. Go to the **Google Meet** page and click **Present** .

Step 2. Select a window or application.

Step 3. Click **Share** .

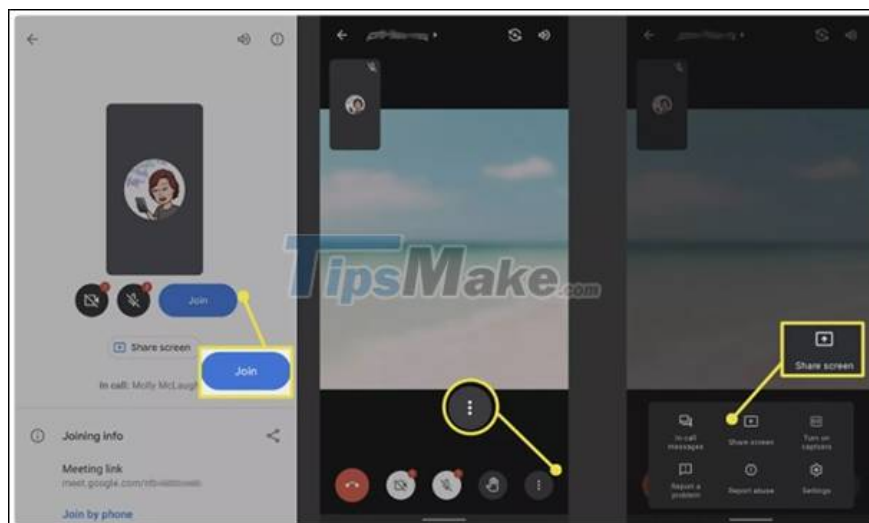

How to share a screen in the Google Meet app

The screen sharing process is similar when using apps on Android and iOS.

Step 1. Join the call.

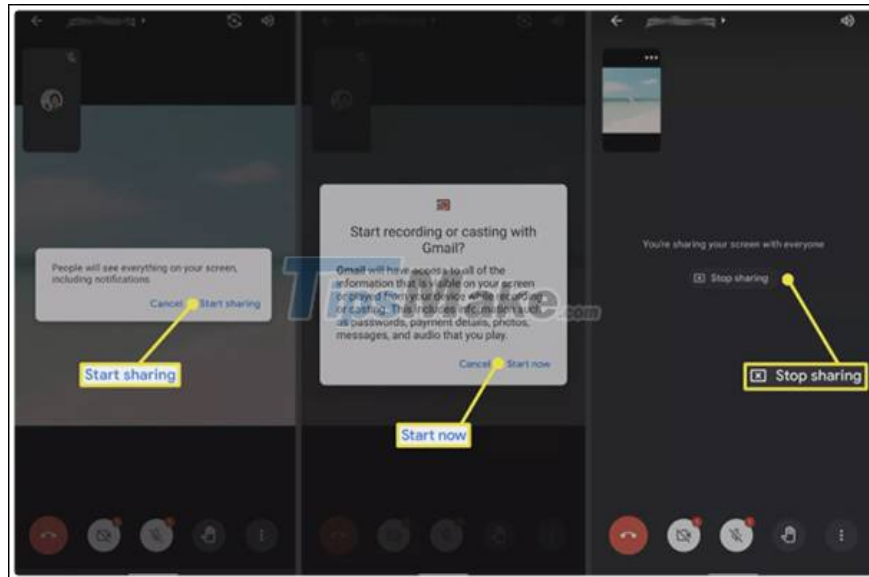

Step 2. Tap the screen and choose the **horizontal three dot icon** menu .

Step 3. Select **Share screen** .

Step 4. Click **Start Sharing**> **Start now** (or **Start Broadcast** on iOS).

Step 5. To stop sharing, click **Stop Sharing** .
