

How to shorten links quickly - Top 5 free link shortening websites are used the most today

How to shorten links quickly - Top 5 free link shortening websites are used the most today. Shortened web pages will make long links much cleaner. You will not be hard to see these short links

As you know the links from websites are often very lengthy, which makes us feel a certain discomfort when sharing those links to others or sharing on social networks. Because of that, link shortening services have been launched, link shortening sites will help make long links much cleaner. You will not find it difficult to see these short links online because it is very popular right now. In this article, TipsMake.com will introduce to you the top 5 shortened links of the most used free websites today, please refer.

1. Pixelfy.me link shortening service

Some custom URL tools can intelligently track links themselves. Pixelfy.me is one of them. It offers multiple features that help you track link analytics. Pixelfy users can create custom links, add unique tracking codes, evaluate the links to see which ones drive more visitors, push relevant ads for campaigns, view all link data in one single space, and do a lot more. And of course, you can name short URLs after your brand.

Here's how you can do it yourself.

Go to the Pixelfy.me website. While it's a paid service, it also offers a free trial so that you can test some of its features. First, you need to open an account. To do that, go to the home page and click on **Get started - it's free**.

You can use the shortened link or customize it as per your requirements.

2. Bit.ly link shortening service

Referring to the shortened link service must definitely mention Bit.ly first. This is a service that has been launched for a long time and is also very popular. With Bit.ly you can create a short link very easily, quickly and of course absolutely free.

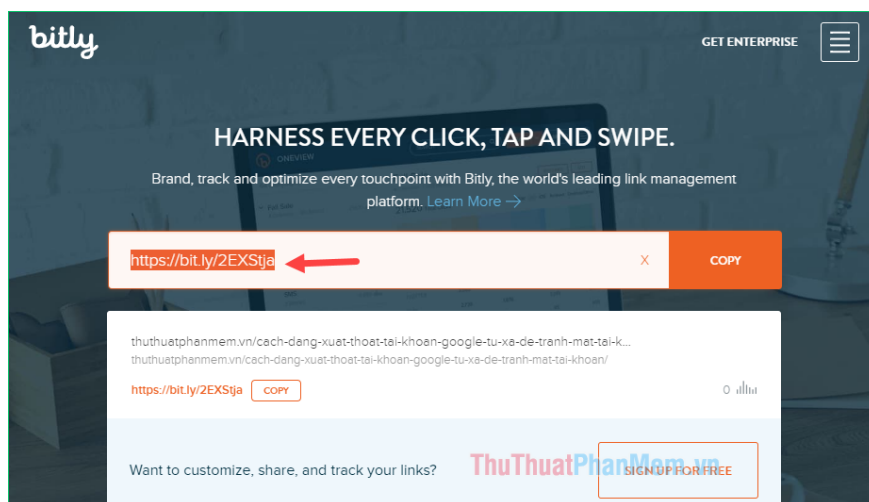

To use this service, please visit the address below:

<https://bitly.com/>

Right at the main interface of the site you will see an empty box, this is where you paste the original link to shorten.

As soon as you paste the original link, a shortened link will immediately be created, now you just need to copy the link and use it. Very fast and simple is not it.

3. TinyURL shortening service

TinyURL is also a free link shortening service and very easy to use, especially you can create custom shortened links for easy remembering.

To use TinyURL you access the link below:

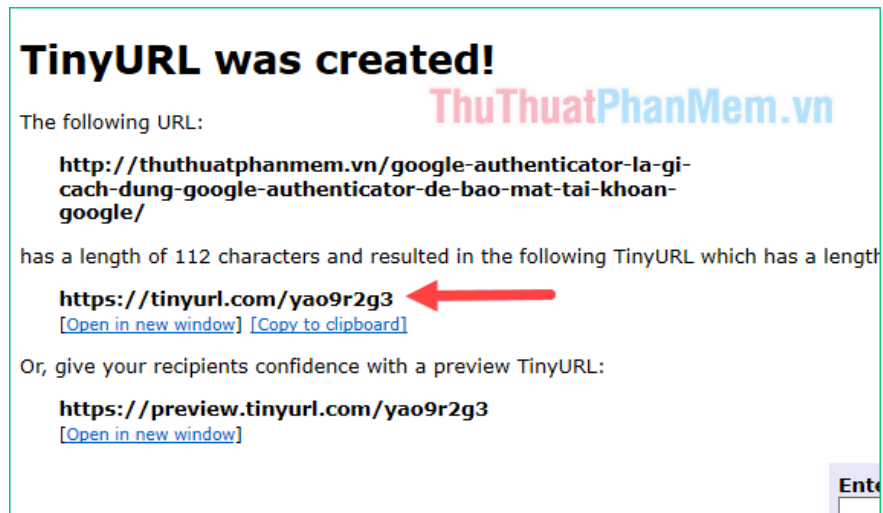

<https://tinyurl.com/>

At the interface of the website you just paste the original link in the box and then click Make TinyURL

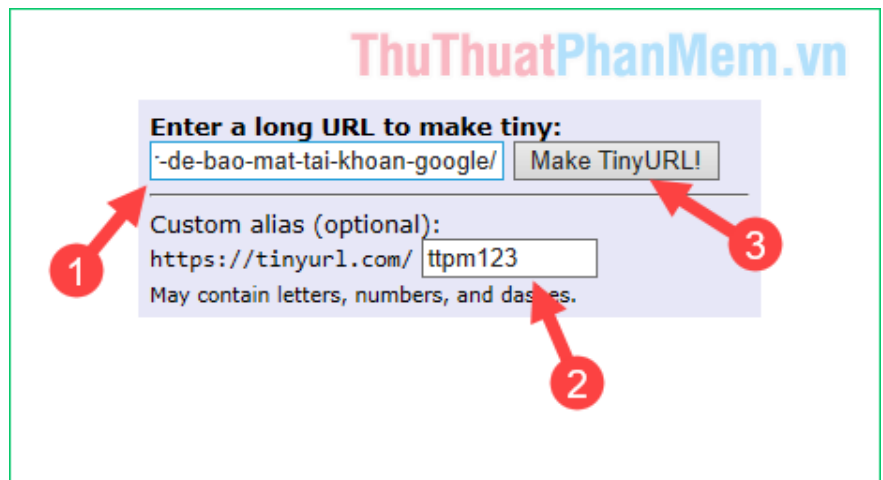

ent causing the recipient to have to cut and paste it back together? Then you've come to the right place. **TinyURLs** are **easy to use**, **easy to remember**, and **never expires**.

Now the shortened link will appear for you to copy and use:

In addition, if you want to create a custom shortened link for easy remembering, after pasting the original link into the blank box, enter the URL of the url into the box below, for example, here we enter ttpm123 and then click Make TinyURL

And we will get an easy-to-remember shortened link of the form <https://tinyurl.com/tpm123>

TinyURL was created!
ThuThuatPhanMem.vn

The following URL:

<http://thuthuatphanmem.vn/google-authenticator-la-gi-cach-dung-google-authenticator-de-bao-mat-tai-khoan-google/>

has a length of 112 characters and resulted in the following TinyURL which has

<https://tinyurl.com/tpm123> ←

[\[Open in new window\]](#) [\[Copy to clipboard\]](#)

Or, give your recipients confidence with a preview TinyURL:

<https://preview.tinyurl.com/tpm123>

[\[Open in new window\]](#)

4. Bit.do link shortening service

Similar to the TinyURL service, Bit.do offers users a quick way to shorten links, you can let the website automatically create shortened links or you can create short links that are easy to remember for yourself.

To use the service, you access the address: <http://bit.do/>

At the interface of the website you enter the original link in the Link to shorten box , if you want to create a link of your own, you enter easy-to-remember characters in the Customize box , finally click Shorten to create a shortened link.

 Share links and track clicks

Shorten and personalize any link.
Get real-time traffic statistics for your links. Free service.

1. Link to shorten: ← **nhập link gốc**
