

# How to sign out for Messenger on Android, iPhone and Windows Phone

How to log out Messenger completely, exit Messenger on Android phones, iPhone, Windows Phone for anyone who doesn't know how to log out of Facebook Messenger account!

How to log out Messenger completely, exit Messenger on Android phones, iPhone, Windows Phone for anyone who doesn't know how to log out of Facebook Messenger account!

Facebook Messenger is now a familiar app for anyone who uses Facebook on their phones, when you can contact your friends or call for free without having to log into Facebook. Users can sync your contacts quickly with Messenger. However, in the process of re-using quite few people know how to logout Facebook Messenger on the device.

In this article, Network Administrator will guide you step by step to log out Messenger account on mobile devices including iOS, Android, Windows Phone and log off remotely on your computer. **Note, when you stop the session or delete the application data, the message is still intact, we only log out the account.**

You can choose the device and quickly follow the corresponding list on iPhone, Android, Windows Phone and on PC, PC:

## How to exit Messenger completely on your phone

1. The fastest way to log out of Messenger, on all devices
2. How to log out Facebook Messenger on iPhone
3. Sign out of Facebook Messenger on Android
4. Log out of Messenger on Windows Phone
5. Log out of Messenger on your computer

## 1. The fastest way to log out of Messenger, on all devices

Make sure this is the fastest way to get rid of Messenger in use on all devices. The steps are as follows:

1. Open the Messenger application
2. Copy the link: <http://on.fb.me/1hGY3il>
3. Send it to any friend, then click on the link itself

The link above is safe, I have tested it, it only does one task to log out of Facebook and Messenger in the current session.

If you are not assured, you can use these methods to check the link above to see where it leads: Quick link test of shortlink links quickly

## 2. How to log out Facebook Messenger on iPhone

1. Download Facebook Messenger for iOS

**Step 1:** Central access Facebook on iPhone, in the main interface you click **More** (3 dashes) below the screen, then select **Settings** .

So when you return to the Messenger application, you will be asked to log in to your new account again.

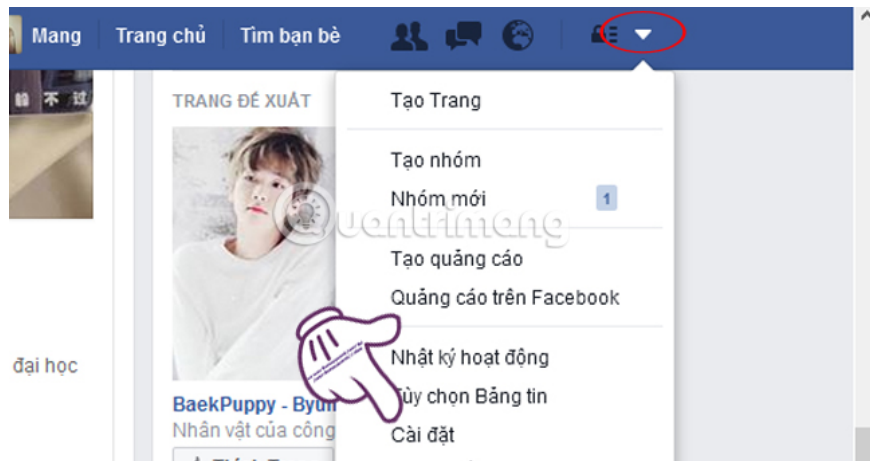

## 5. Log out of Messenger on your computer

### 1. Download Messenger for PC

This way will help you log out the entire Facebook application and Messenger on your phone right on your computer. Before taking back your hacked Facebook account, you can also use this method to log out, avoiding

bad guys taking advantage of the account.

**Step 1:** Log in to your Facebook account. At the main interface, click **the arrow icon** and select **Settings** .

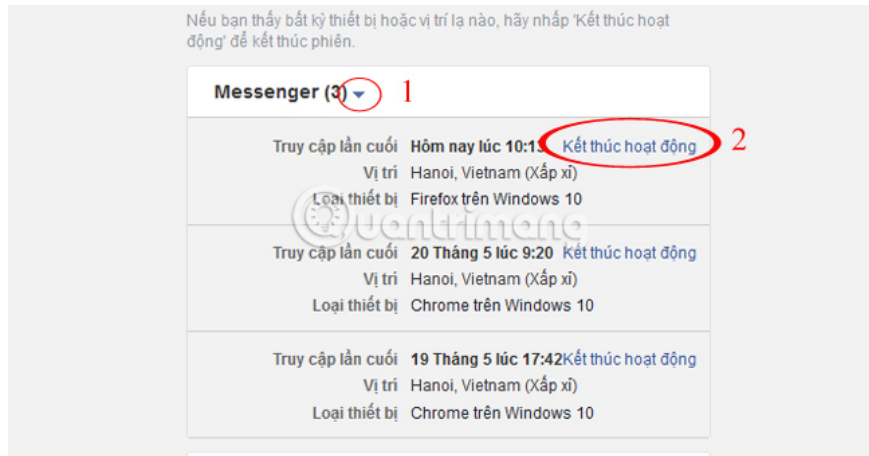

**Step 2:** At the **General account settings** interface, click on the **Security** section in the menu on the left. Then, on the right side you will select the **Location you have logged in** to log out of your Facebook Messenger account.

The image shows the Facebook security settings interface. On the left is a navigation menu with categories: Chung, **Bảo mật** (highlighted with a red circle and a '1'), Quyền riêng tư, Dòng thời gian và gắn thẻ, Chặn, Ngôn ngữ, Thông báo, Di động, Người theo dõi, Ứng dụng, Quảng cáo, Các khoản thanh toán, Hộp thư hỗ trợ, and Video. The main area is titled 'Cài đặt bảo mật' and contains several options: Cảnh báo đăng nhập, Xét duyệt đăng nhập, Trình tạo mã, Mật khẩu Ứng dụng, Khóa công cộng, Đăng tin cậy, Kiểm tra và ứng dụng của bạn, **Địa điểm bạn đã đăng nhập** (highlighted with a red circle and a '2', with a hand icon pointing to it), and Liên hệ thừa kế.

**Step 3:** In the **Location** window you have logged in , Facebook or Messenger activity sessions on all devices from iOS, Android, Windows Phone and computers are listed by each item. To end all logins to Facebook Messenger, select **End all activity** .

The image shows the 'Địa điểm bạn đã đăng nhập' (Locations you've logged in) window. At the top right, the text 'Kết thúc toàn bộ hoạt động' (End all activity) is circled in red. Below this, the location is listed as 'Hanoi, Vietnam (Xấp xỉ)' and the device as 'Firefox trên Windows 10'. A message states: 'Nếu bạn thấy bất kỳ thiết bị hoặc vị trí lạ nào, hãy nhấp "Kết thúc hoạt động" để kết thúc phiên.' Below the message are two expandable sections: 'Messenger (2)' and 'Máy tính (2)'. At the bottom left is a 'Đóng' (Close) button. At the bottom right, there is a link 'Liên hệ thừa kế' and a note: 'Hãy chọn một thành viên gia đình hoặc một người bạn thân để quản lý tài khoản'.

If we only want to finish one of the active sessions, select the **arrow next to each Computer, Messenger, Facebook for iPhone, Facebook section for Anroid if available** , click **End operation** to log out of Facebook Messenger.

These are temporary measures to stop your current session on Facebook Messenger so you can log in with another account. Hopefully, in the future, Facebook will update the logout option on the application so that users do not have to tinkle with manual methods through many steps to be able to log into other accounts on the same device.
