

How to sign up for Office 365 and 21TB OneDrive for free from Microsoft

To download the free version of Office 365 within 1 year of use with 21TB OneDrive, readers can refer to how to do it.

Normally Office 365 sets will always cost you to download and use. However, users can still download Office 365 completely free of charge and can also get up to 21TB of free OneDrive storage from Microsoft.

Compared to other versions of Office that charge a year, Office 365 charges a monthly fee. This Office 365 version will continuously update updates for the office toolkit. Previously, Office 365 trial program will only apply to registered businesses. However, when following this article, individuals can also use Office 365 within 1 year and add 21TB of OneDrive storage for free.

You wait for the setup process on the homepage.

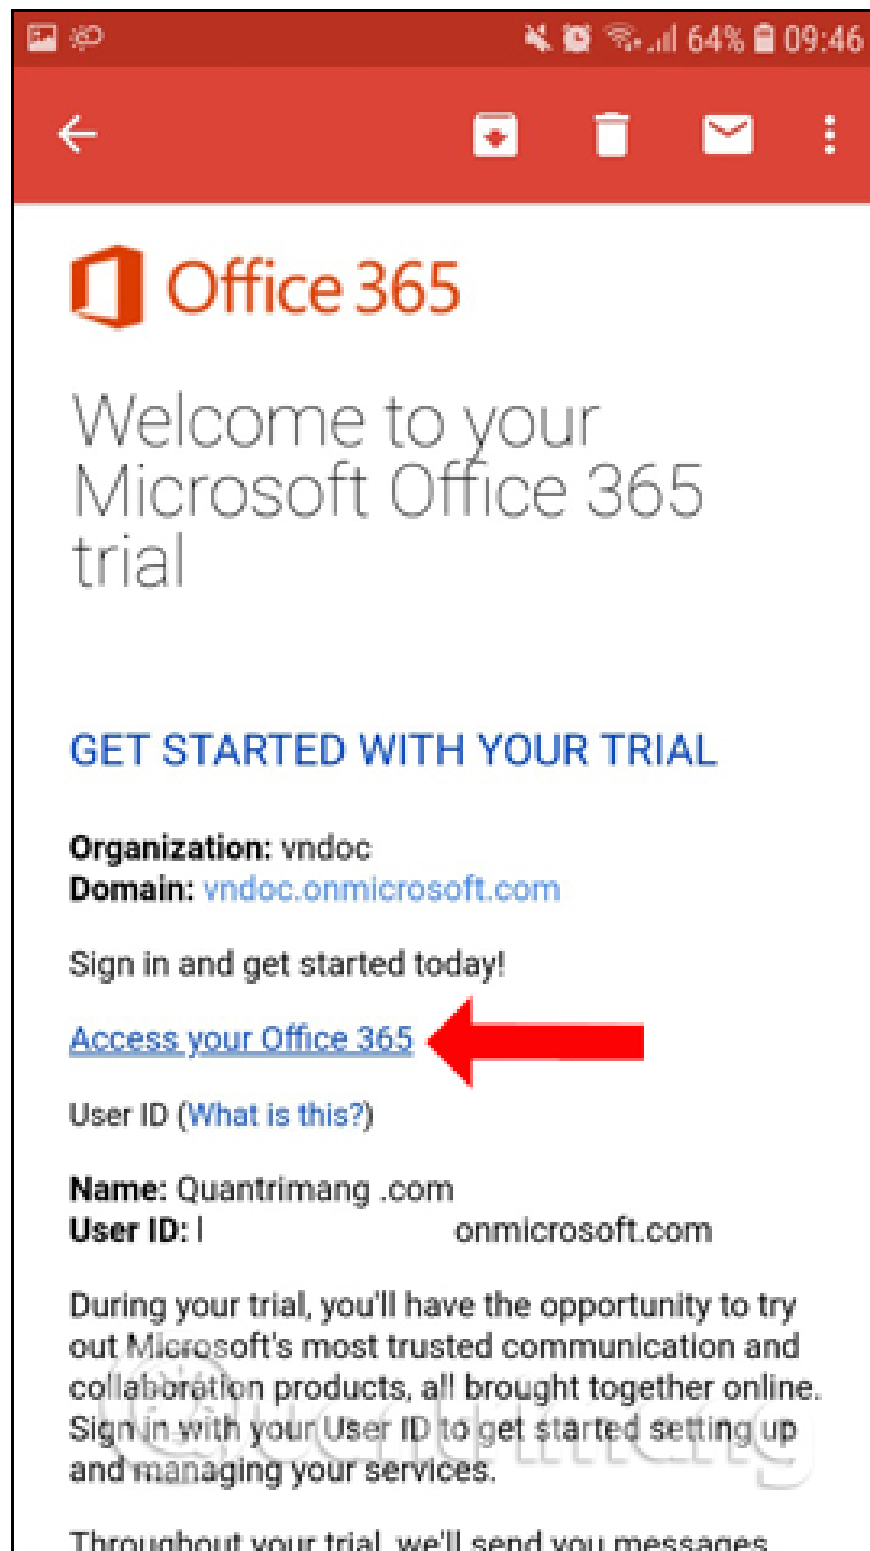

Step 8:

Soon we will get the notification interface about downloading Office 365 for free. You will see the end time for use in 1 year.

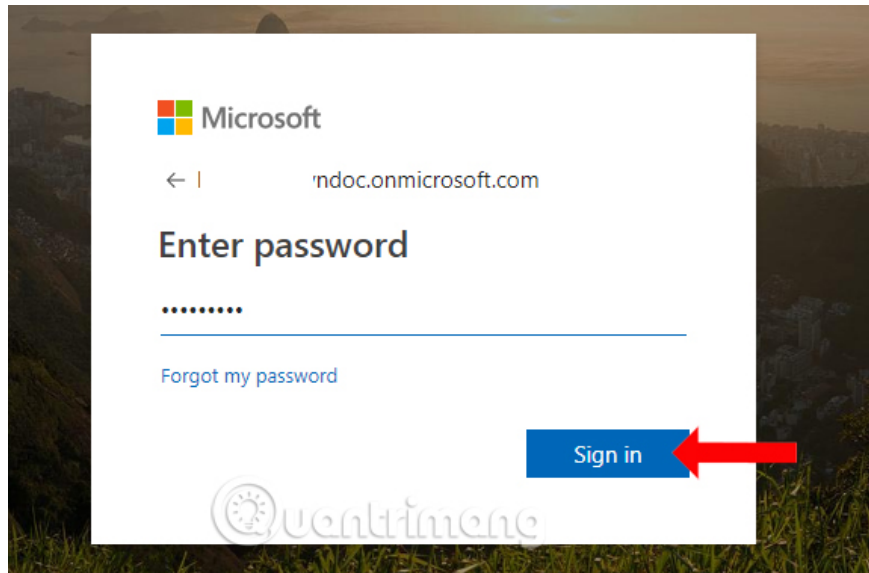

Step 9:

Access **the email address you use to register to** activate your Domain account. Then the user will receive an email with the content shown below, click on **Access your Office 365** .

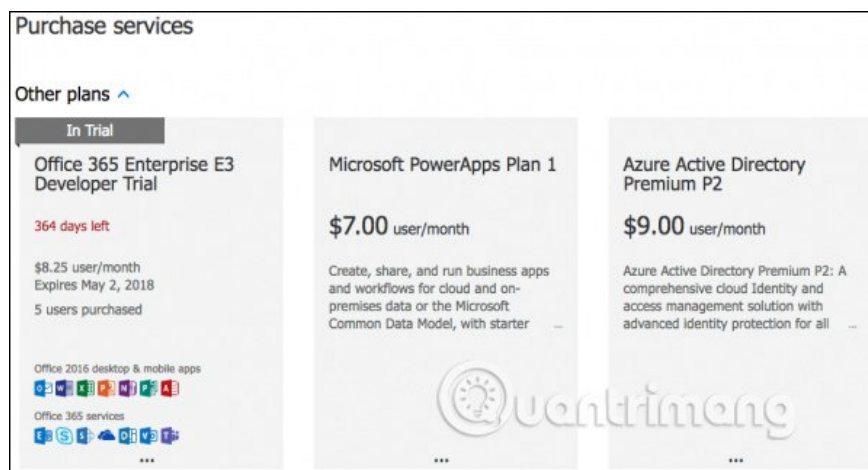

Step 10:

Log in to the previously registered **Domain name account** and click Sign in to access.

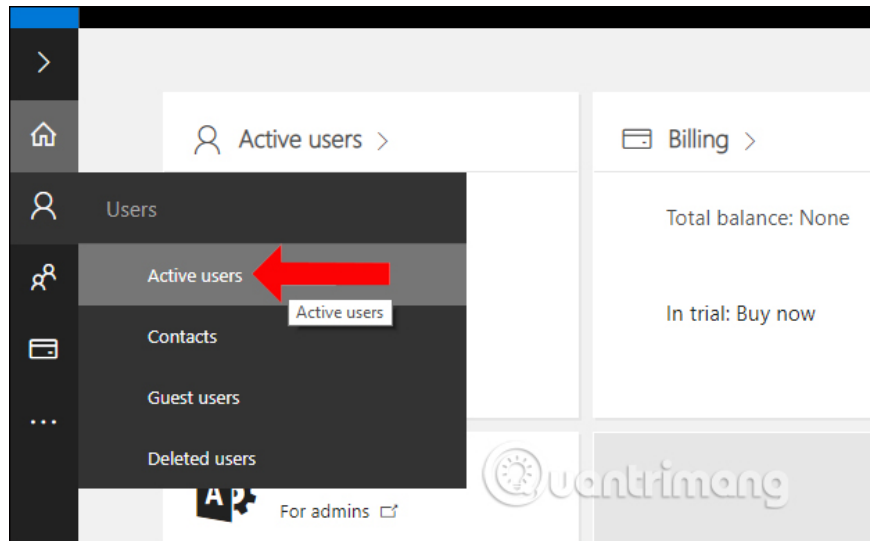

Step 11:

In the new interface when you scroll down to the Office 365 Enterprise E3 Developer Trail, the time you will be using is displayed.

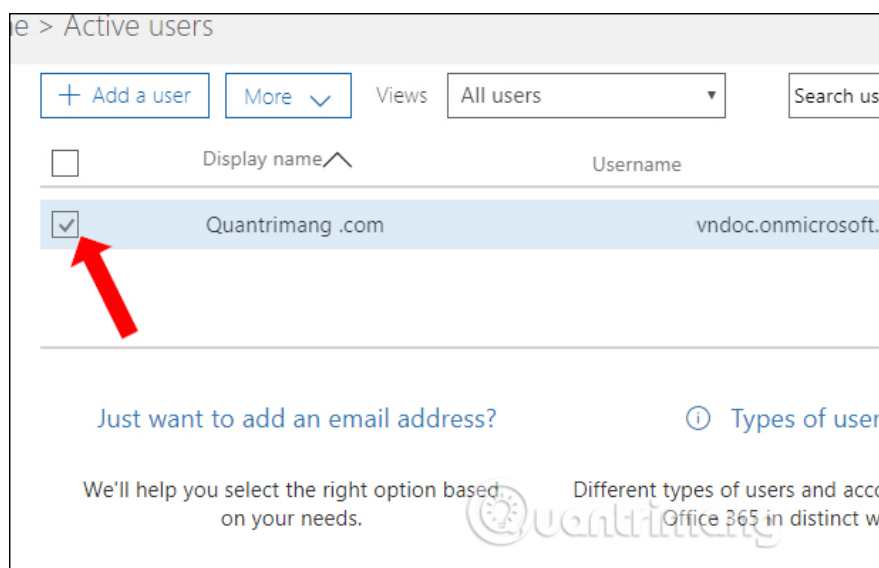

In order for the admin account to download Office 365, you need to add a Product license. At the interface click on the **Users** section in the left corner of the screen and select **Active users** .

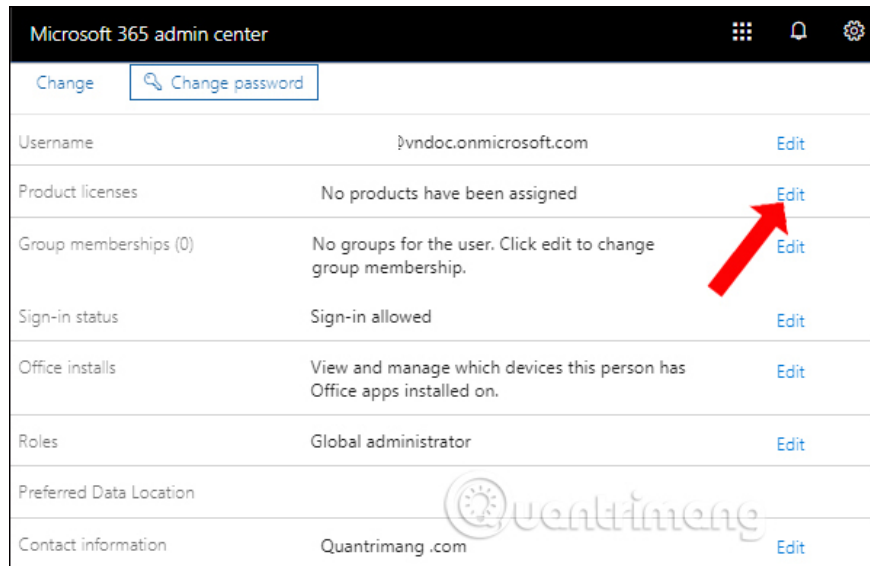

Step 12:

Here you can click Add a user to add another account. To activate **an Admin account** , click the empty box at the account name.

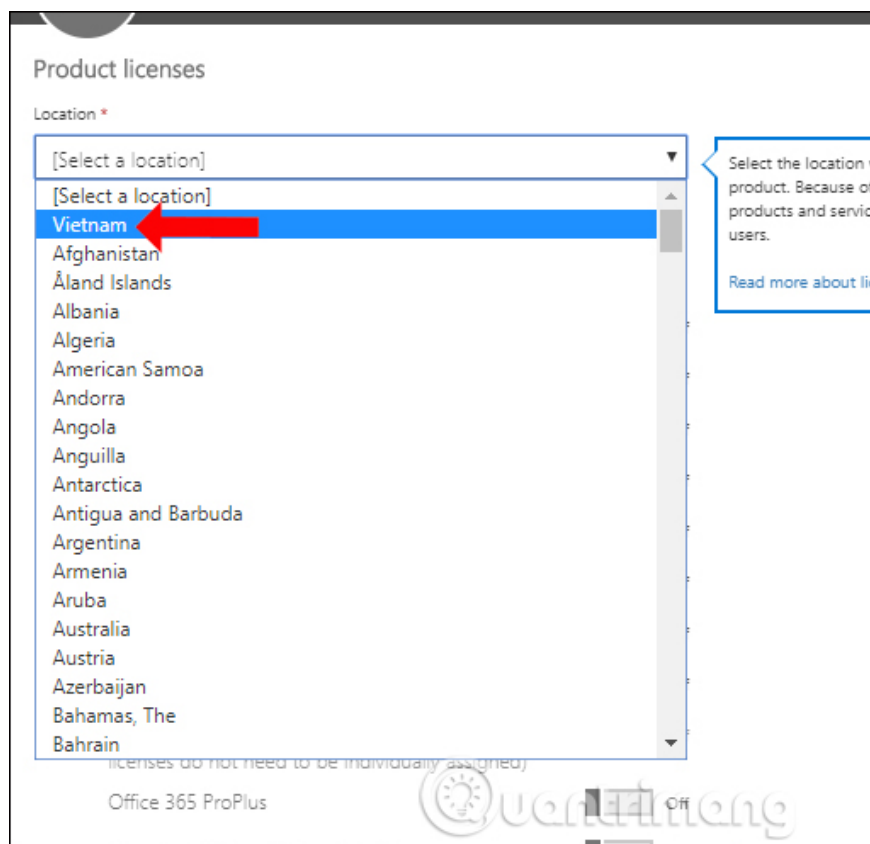

At this time, the interface will be displayed immediately, at the **Product Licenses** section, click **Edit** .

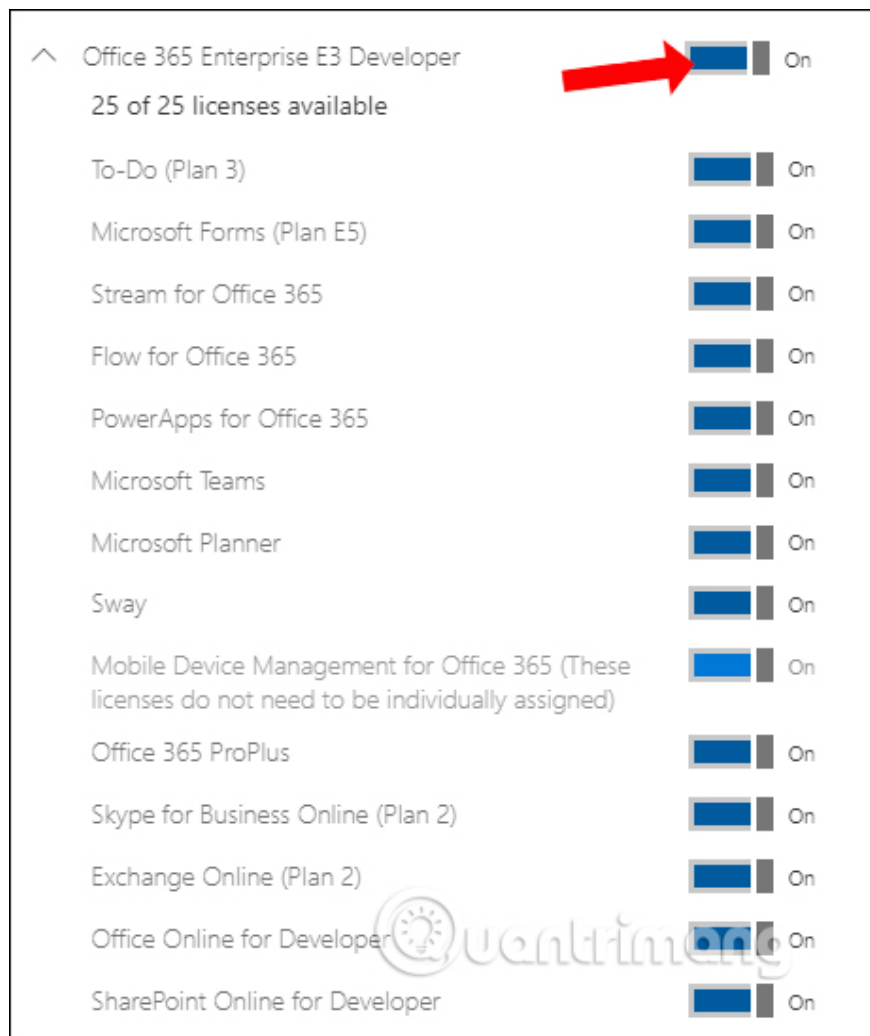

Step 13:

At **Location** bar select Vietnam in the country list.

After **activating** the first option, other options will automatically activate. Finally **click Save** to save.

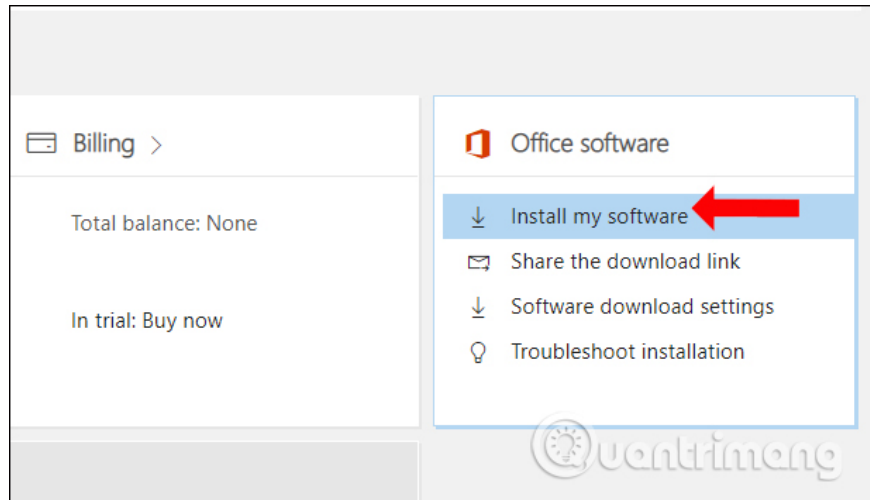

You will then be notified as shown below.

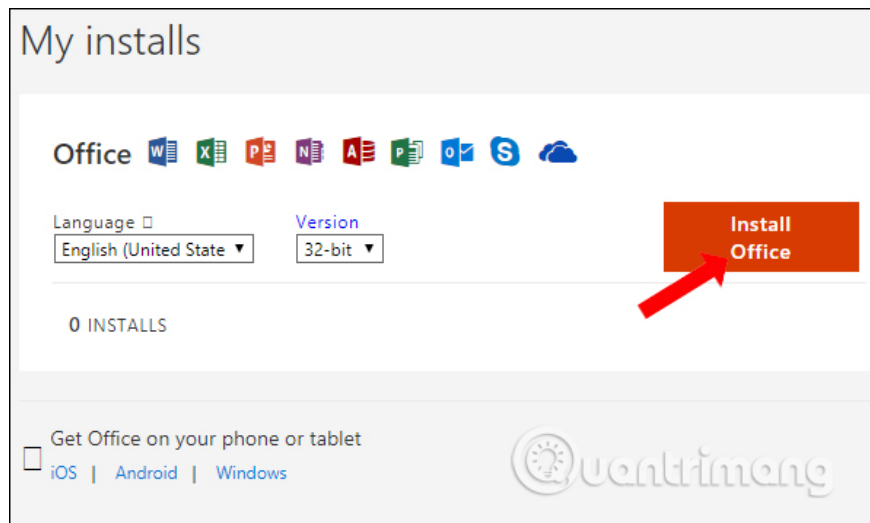

Step 14:

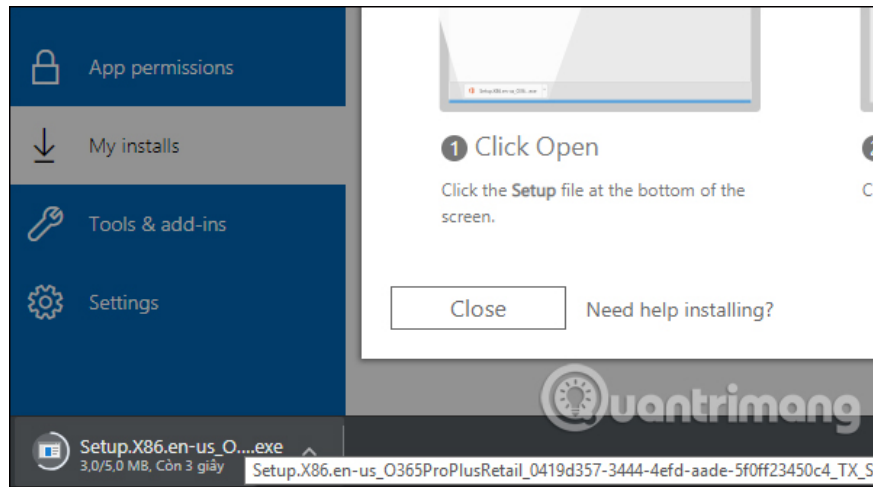

Going back to the main interface, **the Home section** will see the **Office Software** section, click **Install my software** to download the Office 365 suite.

Click on the **Install Office** button to download to the computer.

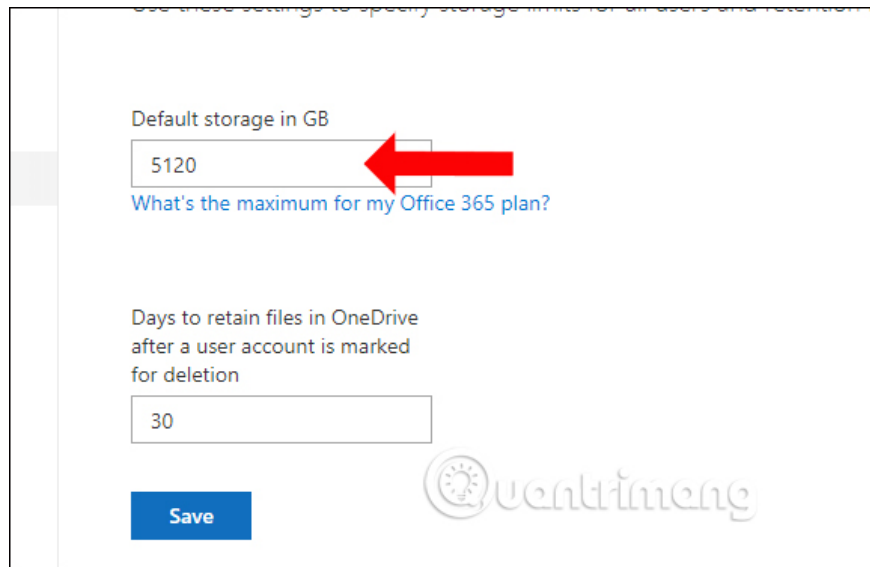

Immediately the Office suite will be downloaded to the computer.

Note in the case of creating more users, users need to adjust the default capacity for OneDrive from 1024GB to a maximum of 5120GB on the Storage Settings page under the link below.

1. <https://admin.onedrive.com/?v=StorageSettings>

So you have a completely free version of Office 365 within 1 year. The default account has 1TB and is allowed to create 5 new accounts to get 21TB OneDrive for free. After 1 year you can choose to renew the package to use.

I wish you all success!
