

# How to sketch Chibi-style avatars on iOS?

If you are too bored with the usual representative photos on iOS, try sketching for yourself a Chibi-style picture that we will guide below. With the iMadeFace application, you can easily portray anyone's liking in a cute, funny way. Let's refer to offline.

If you are too "boring" with the usual representative photos on iOS, try sketching for yourself a Chibi style picture that we will guide below. With the **iMadeFace** application, you can easily "portray" portraits of any person in a lovely, funny way. Let's refer to offline.

## Step 1:

From the main interface of the application, select the male or female sketch character

## Step 2:

You will have different tools at the top to sketch from the hair, face, . Select each part you want to sketch, then swipe from left to right to choose a style and swipe from top to bottom to choose colors

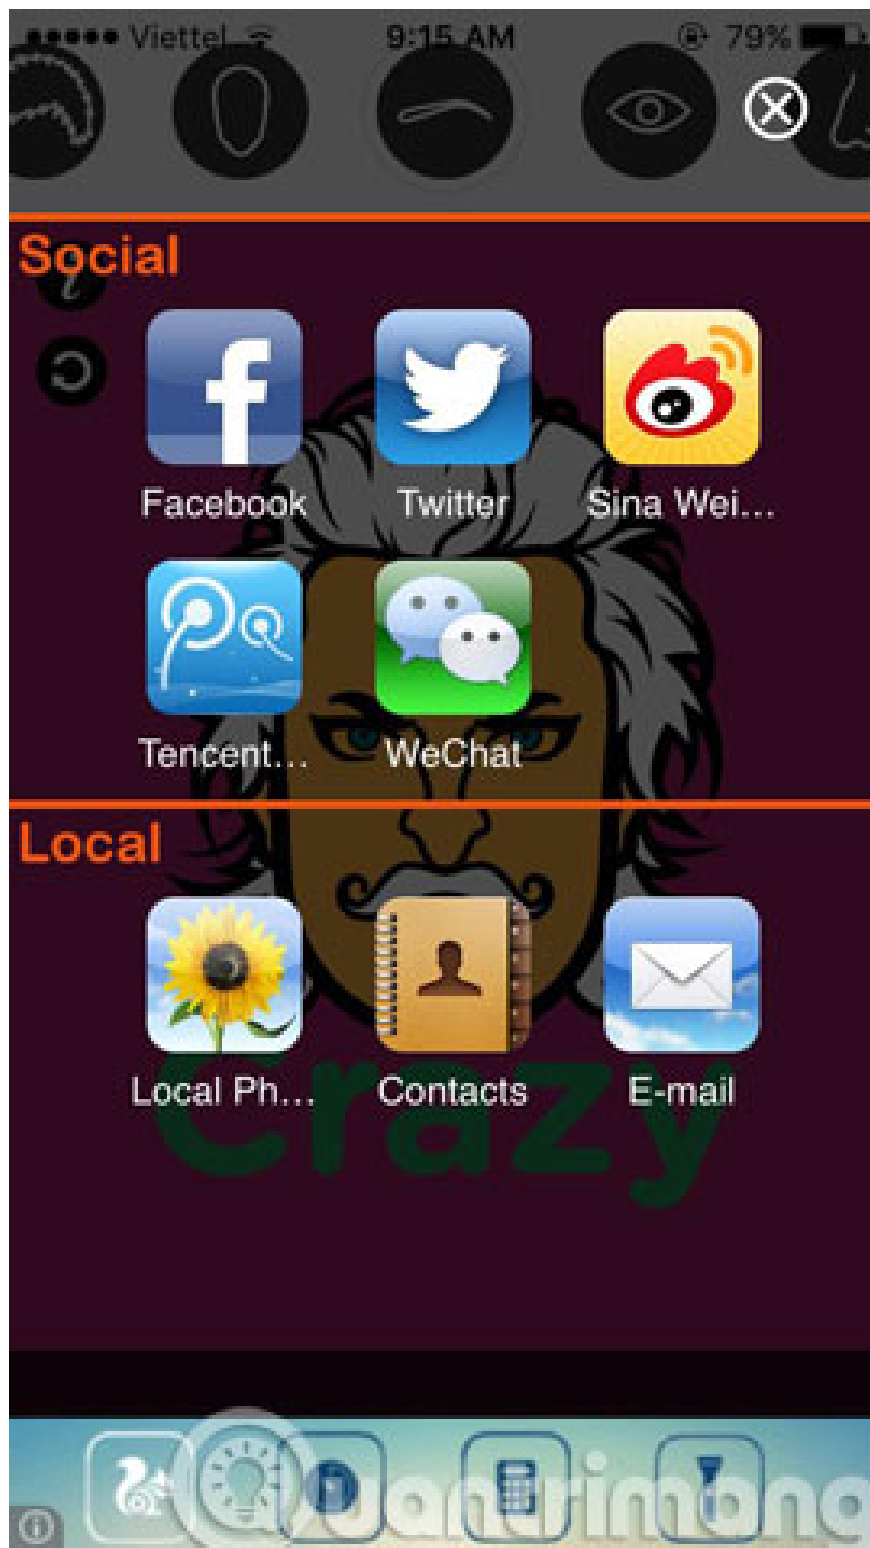

### Step 3:

This is the character we sketched very quickly

#### Step 4:

After sketching, you can save it to memory or share it on social networks

1. Simulate face transformation on iPhone with Face Story
2. 5 steps to set the vibration mode characteristic for callers on iPhone
3. 3 ways to turn off annoying notifications from Game Center on iOS
