**Step 1:** Open the image you need to stamp and select the **Stamp** icon , then click **Organize Stamps** . in the options menu on the right.

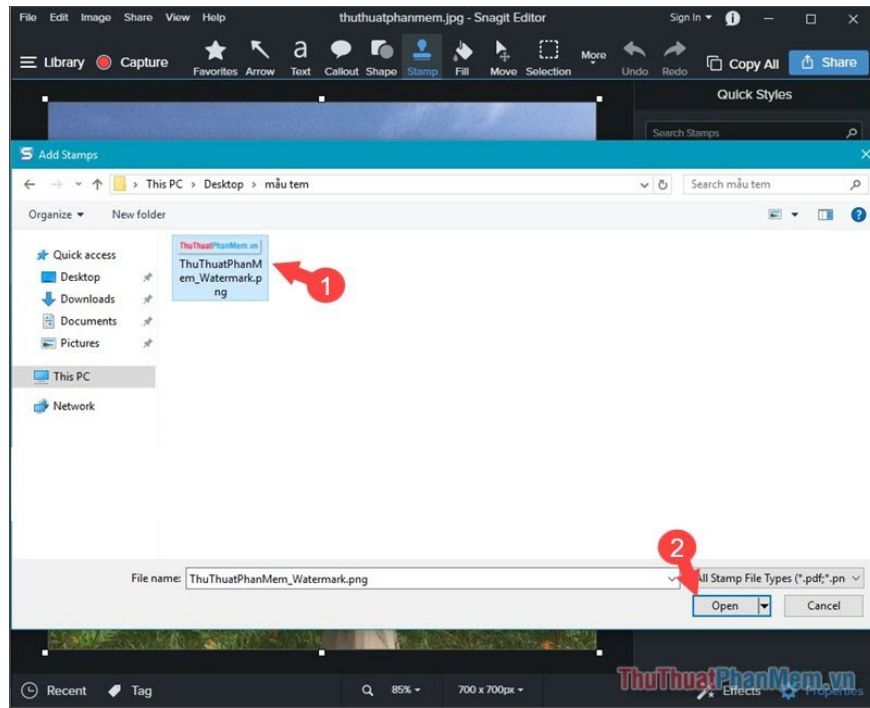

**Step 2:** Choose **Add Stamp .** to add the copyright mark.

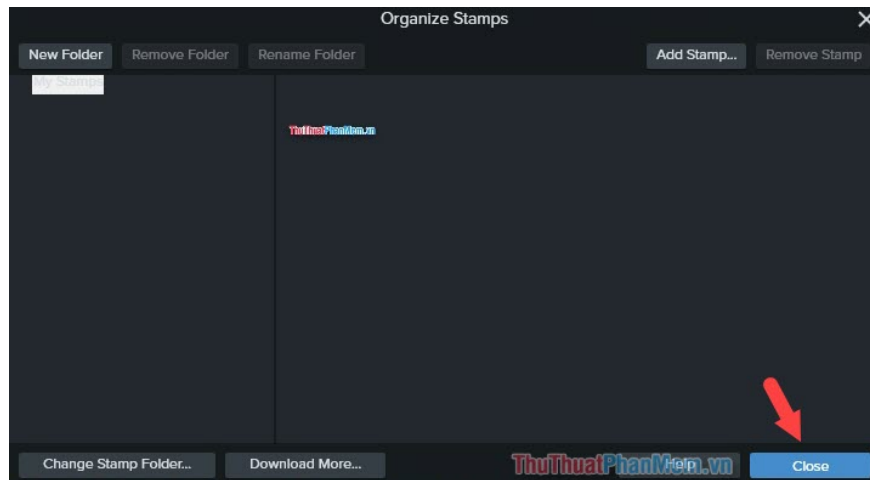

**Step 3:** You choose the folder to add diacritics.

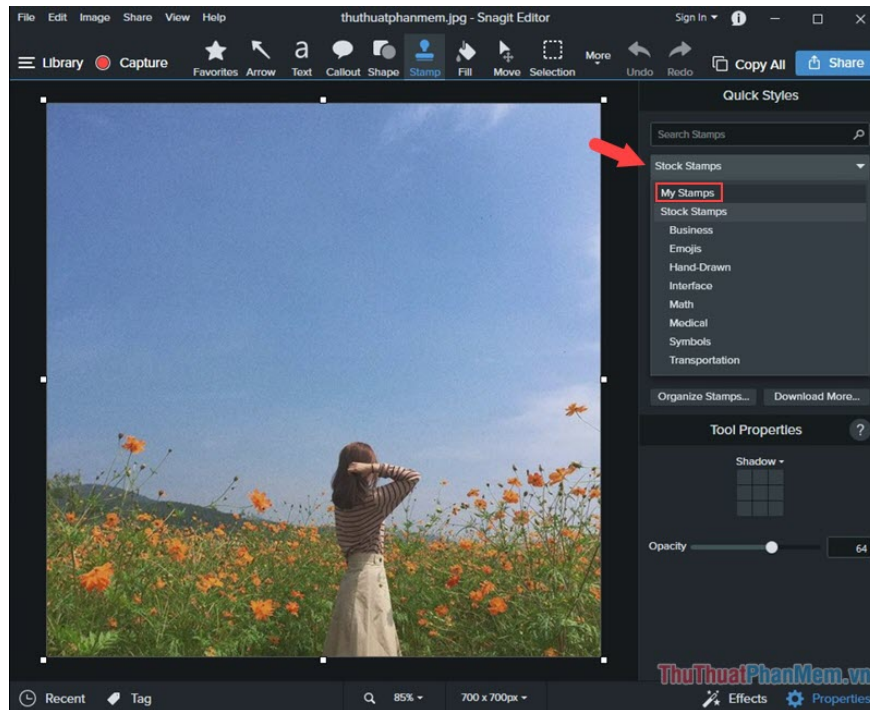

**Note:** Standard seals are seals in **.PNG** format. Then select **Open** to open that seal up.

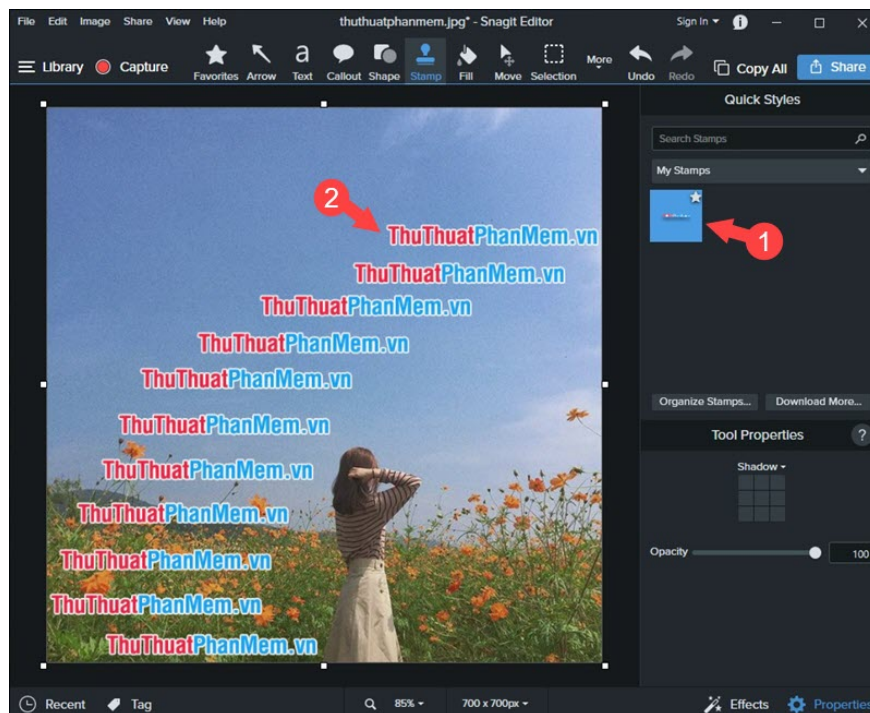

**Step 4:** Click **Close** to close the dialog box if you do not want to add another copyright mark.

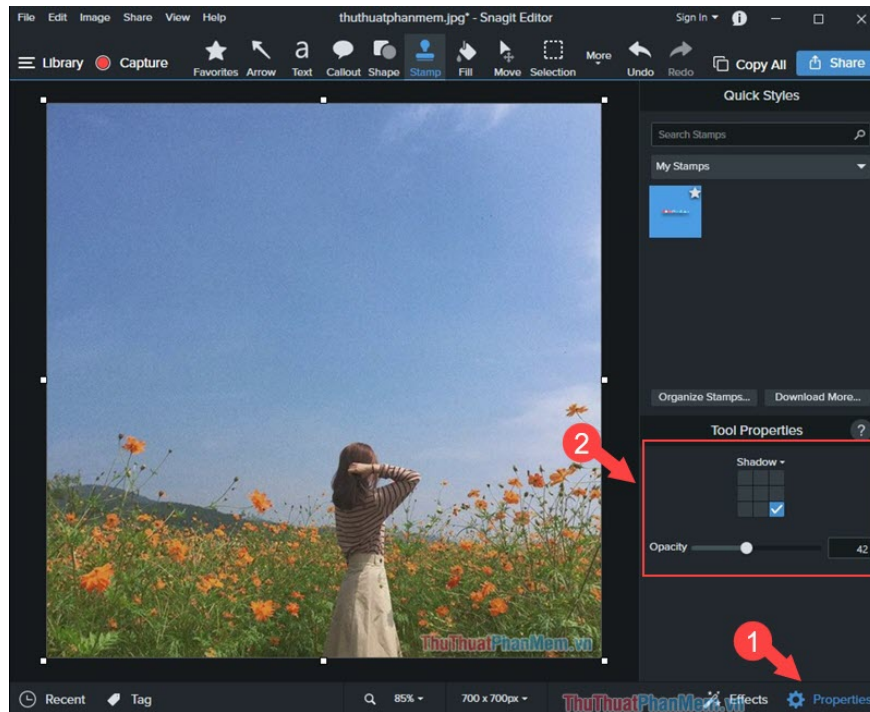

**Step 5:** Open the **My Stamps** section in **Quick Styles** to open the copyright stamp that you have added.

**Step 6:** You choose the stamp to close and then close to any position and the number of stamps on the image you like.

**Step 7:** To make the seal more aesthetic, click the **Properties** tab . Here, you can fade the seal by scrolling the slider at **Opacity** . If you want to shadow, the shadow area in the location selected item **Shadow** .

With a quick and beautiful way to stamp photos with Snagit, you can create your own beautiful images but still retain your personal 'imprint'. Good luck!
