How to statistics messages on Facebook. Have you ever wondered who is texting with me the most? Certainly all of us have questioned this, but most of us don't know how to know it.

Have you ever wondered who is texting with me the most? Certainly all of us have questioned this, but most of us don't know how to know it. So, the following article TipsMake.com will guide you a trick of listing messages on facebook to know who message you the most, even know the number of messages with that person. Invite you to follow!

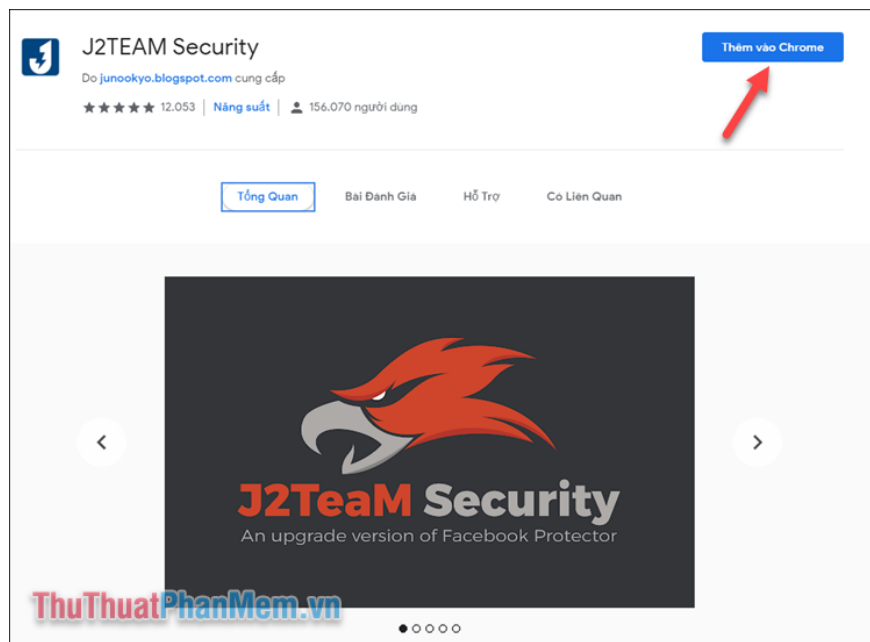

To list messages on Facebook we will use a Chrome browser extension called J2TEAM Security. This is a Facebook security tool developed by Vietnamese programmers so you can safely use it.

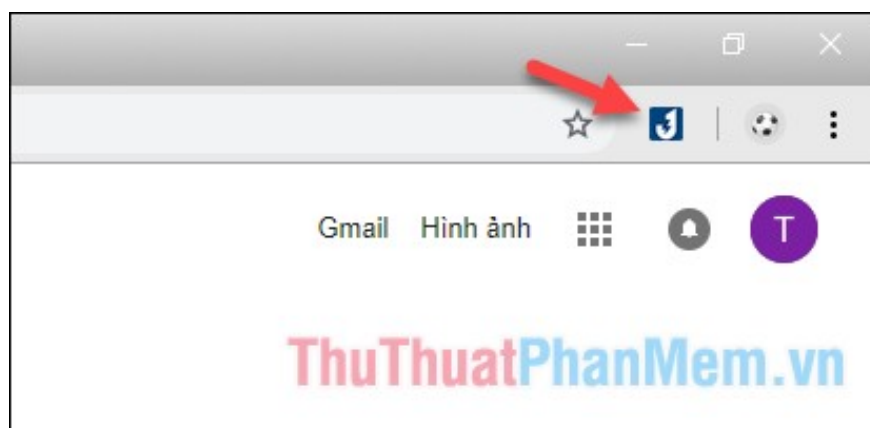

To install you go to the following link:

https://chrome.google.com/webstore/detail/j2team-security/hmlcjjclebjnfohgmikjfnbmfgkigocc/related?utm_source=browser_action

Then you press the **Add to Chrome** button to install offline.

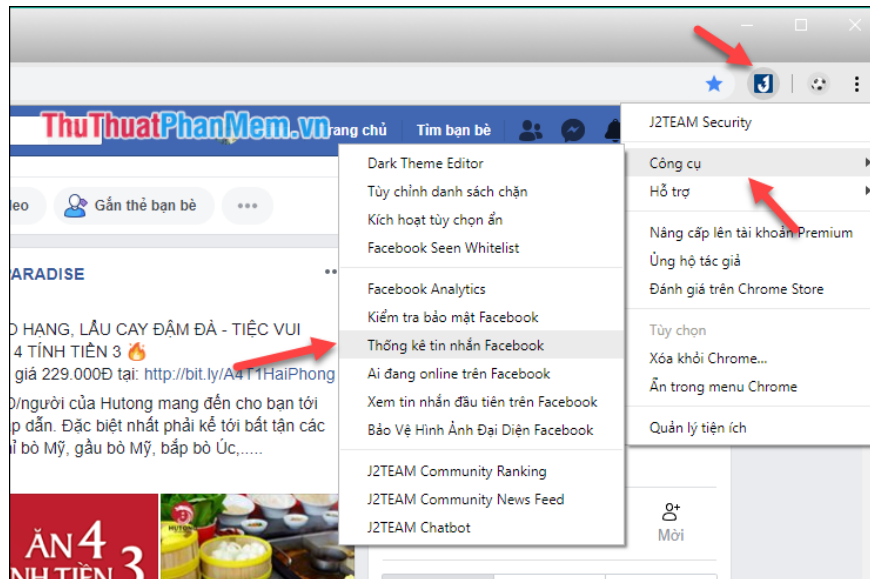

After installation, you will see the icon of the add-on on the corner of the browser:

To statistic messages, make sure you have logged into your Facebook account on Chrome browser.

Then right-click on the icon of the utility, select **Tools -> Facebook message statistics**.

When the new window pops up, you will see a table of 10 people texting you the most ever. You can view the total number of messages with that person, plus if you click on the **History** button you can see the first message that you and they text each other. Very interesting right.
