

# How to switch left to right mouse on Windows 11

Many left-handed users complain that they have difficulty interacting with their computers. I will guide you how to switch left to right mouse on Windows 11...

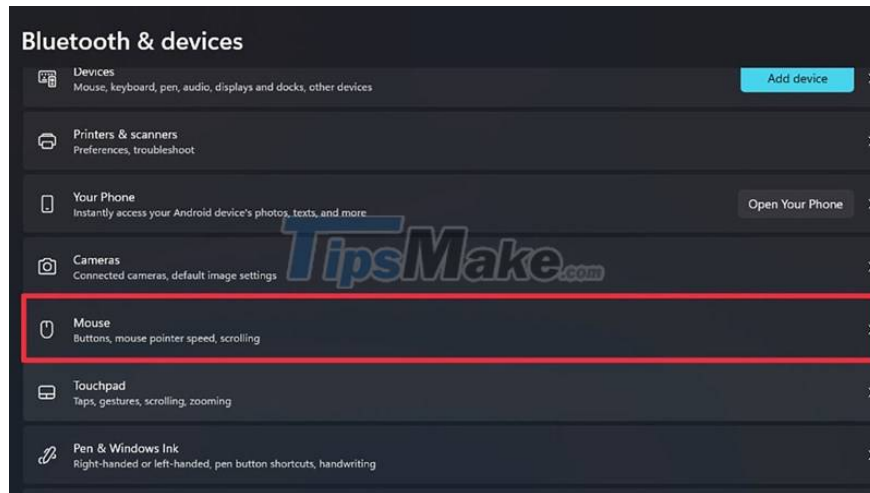

When working with computers, quite a few left-handed users complain that they have a hard time interacting on their computers. That makes them have to gradually practice the operations of right-handed users. In this article, I will show you how to switch the mouse left to right on Windows 11 to be suitable for left-handed people.

## How to switch left to right mouse on Windows 11

Step 1: Press the Windows + I key combination to quickly open the Settings application.

Step 2: Select Bluetooth & devices > Mouse.

Step 3: In the Primary mouse button section, select Right to change the direction of the mouse to the right. And now, you can manipulate the mouse with your left hand without having to worry about being mistaken every time you click.

Good luck.
