5.

Click **Sign In** after entering your details.<sup>[1]</sup>

Part 2 of 2:

## Downloading Your iCloud Apps

1.

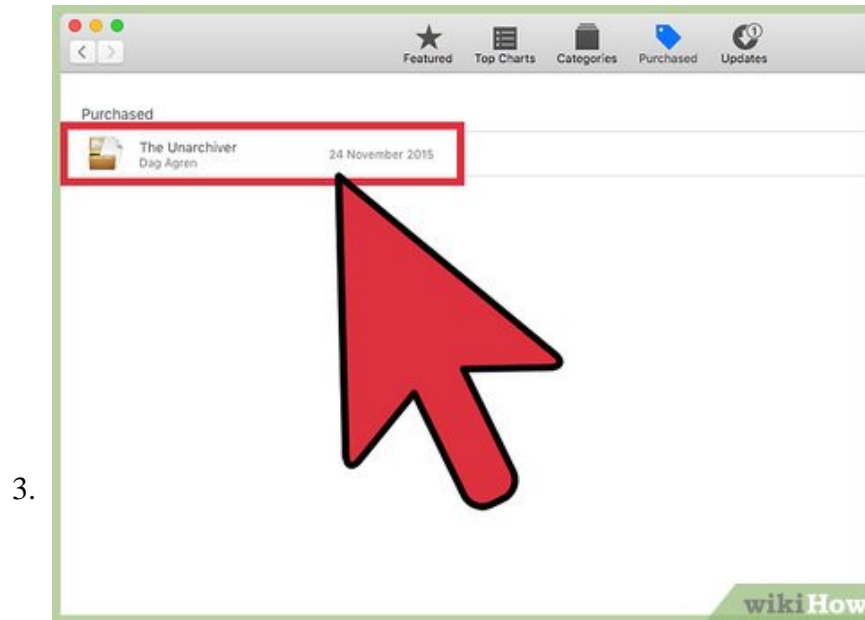

Click the **App Store** icon in your Dock. If you don't see it, you can click the Apple menu and select App Store.

2.

Click the **Purchased** tab. This can be found at the top of the App Store window.

**Scroll to find the app you want to download.** You'll see all of the apps that you've purchased as well as any apps that were free.

Click the **Install** button to download an app. The app will begin downloading and installing to your Mac.

5.

Click the **Launchpad** button in your Dock after installing. The Launchpad icon will will bounce when the installation is complete.

6.

Click your new app to launch it. You'll find your newly installed apps at the bottom of the list.
