Microsoft Edge browser has been integrated with Microsoft many interesting gadgets to bring users a relatively perfect experience. And most recently, Microsoft Edge has added a new feature that is NOTES when surfing the Web. So how to use this note feature? So let TipsMake.com learn more about the NOTES feature of Microsoft Edge through this article!

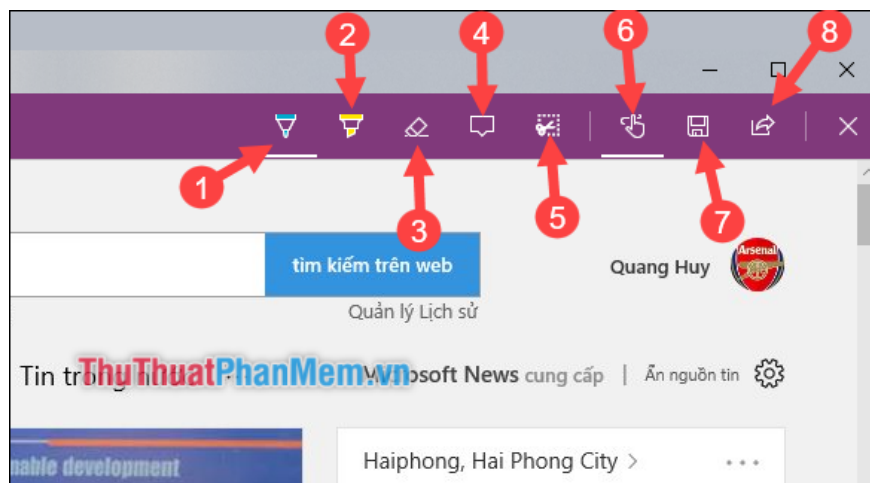

How to create notes in the Microsoft Edge browser

Step 1 : At the interface of Microsoft Edge, select the pen icon on the toolbar.

Step 2 : Then there will appear 8 tools to help you create included notes.

(1) **Ballpoint pen** : Allows you to draw directly onto any web page while using the Edge browser. Help you highlight or emphasize a certain point.

(2) **Highlight pen** : Help highlight or highlight the image.

(3) **Eraser** : Delete bookmarks or notes.

(4) **Add note** : Add a note to the image.

(5) **Clip** : Copy a part of the bookmarked page to the clipboard.

(6) **Write notes by touch** .

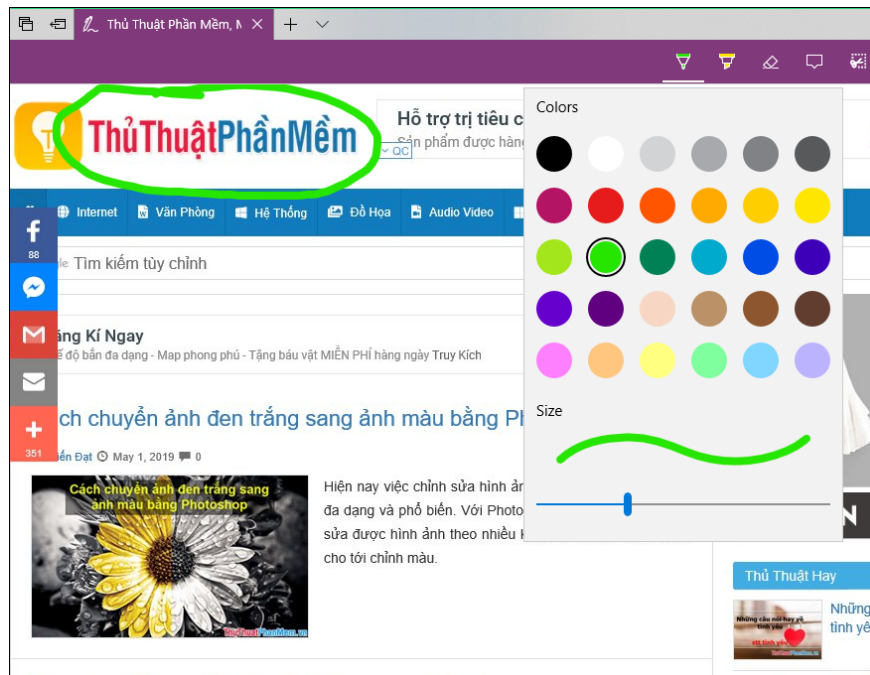

(7) **Save Web notes** : Save notes right on Microsoft.

(8) **Share Web notes** : Share the just saved note in Microsoft Edge.

Tools when making notes in Microsoft Edge

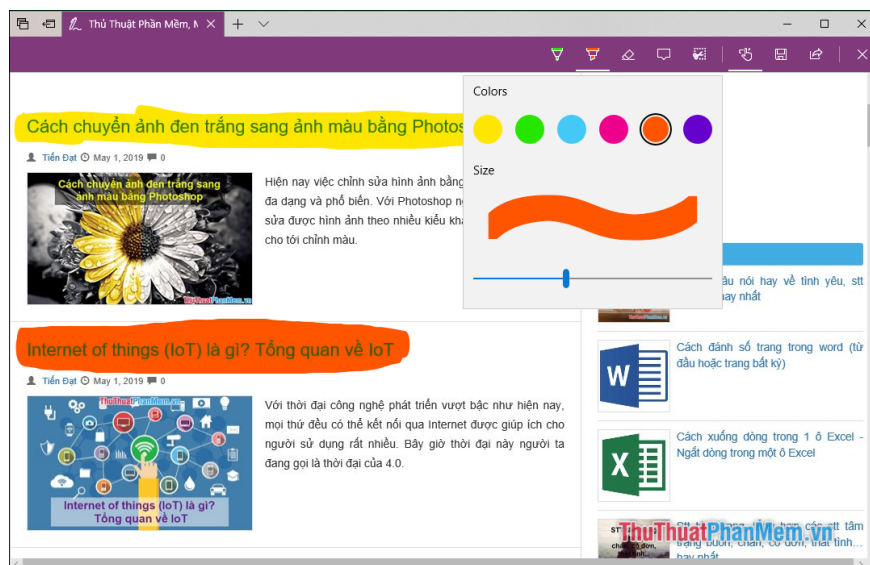

Ballpoint pens

In the ballpoint tool, you can customize the color and thickness of your brush.

Highlighter

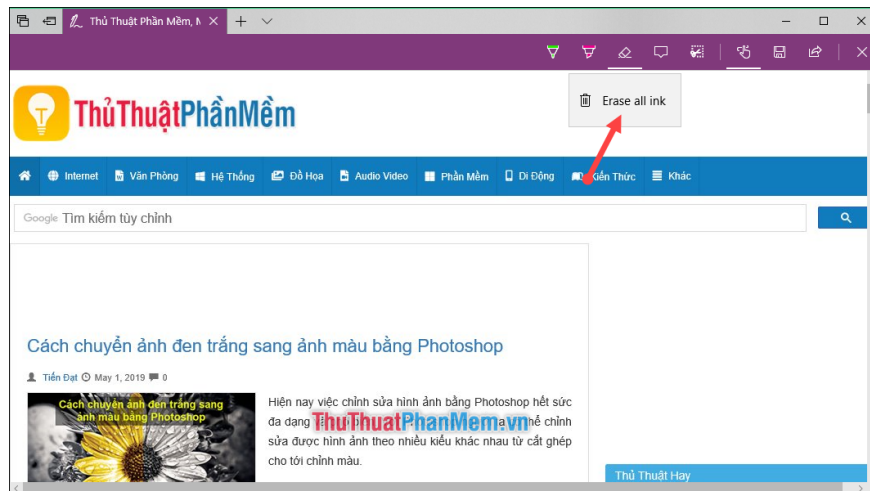

With the highlighter, you can also change the highlighting color and thickness of the highlighter.

Eraser

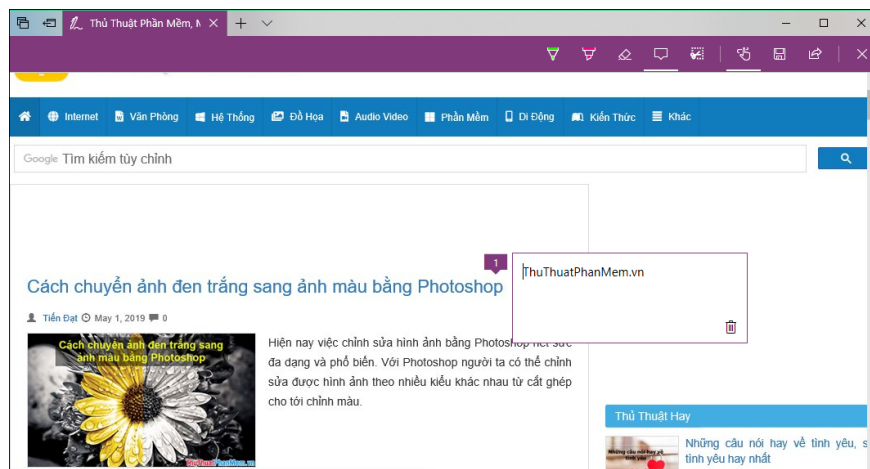

If you accidentally made a mistake and want to delete them, then select the *Eraser* tool .

Or you can choose *Eraser all ink* to erase all the notes.

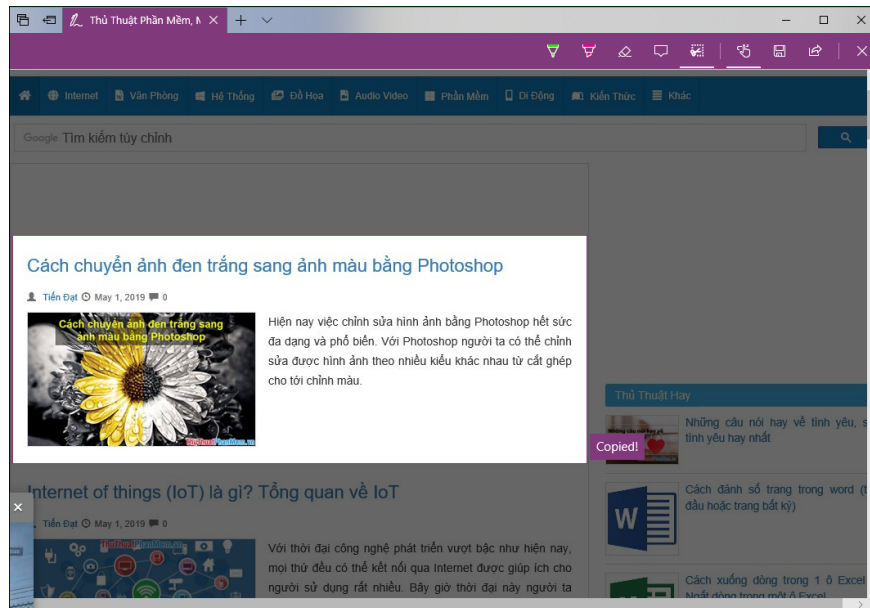

Create a note

Allow users to add notes to images and paragraphs to make it easier to understand.

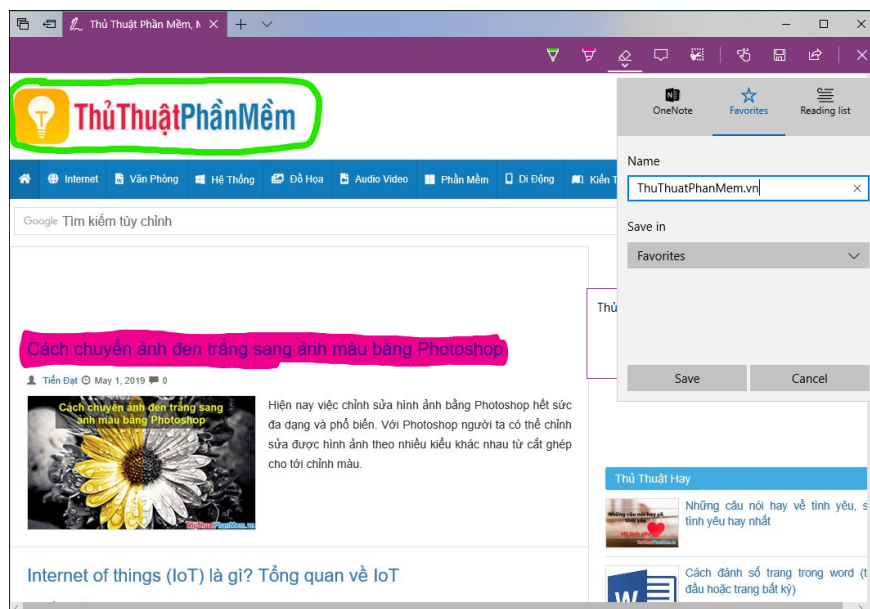

Clip

This tool is almost like taking pictures. When you select this tool, the interface of the Web site will have a layer, you will use the mouse to select the area that you want to note. This time it will be saved temporarily in the clipboard of the device.

Save notes on the Web

After completing the steps to create notes on the page, you can save them on **your Favorites, OneNote or list of Microsoft Edge** .

Share notes

Or you can share this note to your relatives through Mail, Skype, OneNote .

Above are some instructions on how to use the notes feature when using the Microsoft Edge browser that **TipsMake.com** would like to send to you. Hopefully through this article you can easily use and master the skills when using this note-taking utility. Thank you for watching the article !!!
