iCloud

iTunes & App Store

Mail

Contacts

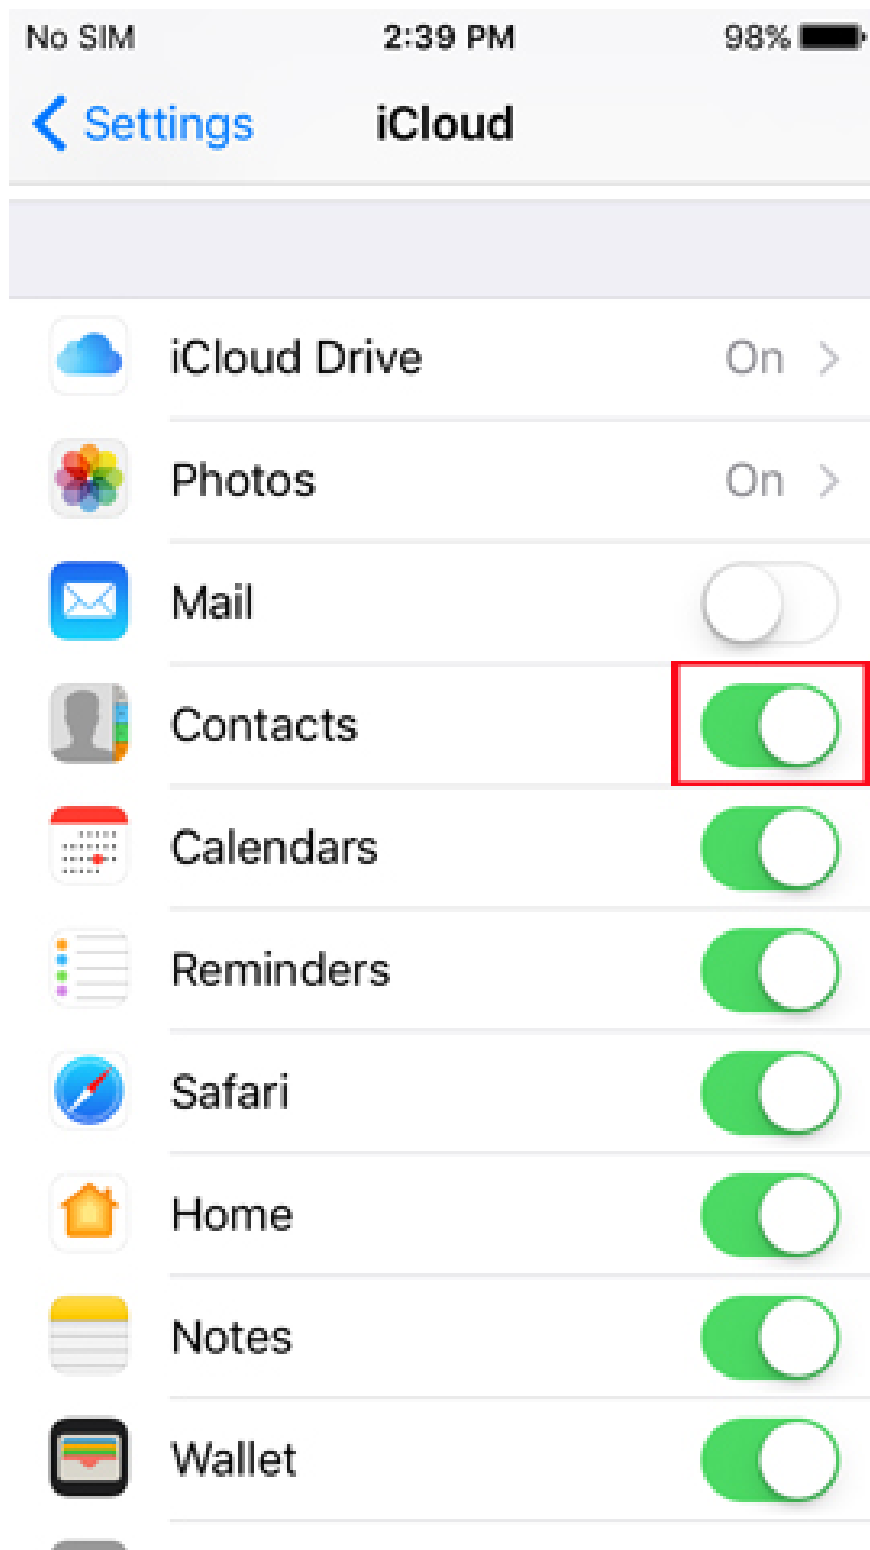

Calendar

Notes

Step 2:

Next, we access the **iCloud homepage** on the computer following the link below. Then **login your iCloud** account.

1. iCloud homepage

After that, you need to **enter the 2-layer verification code** to proceed.

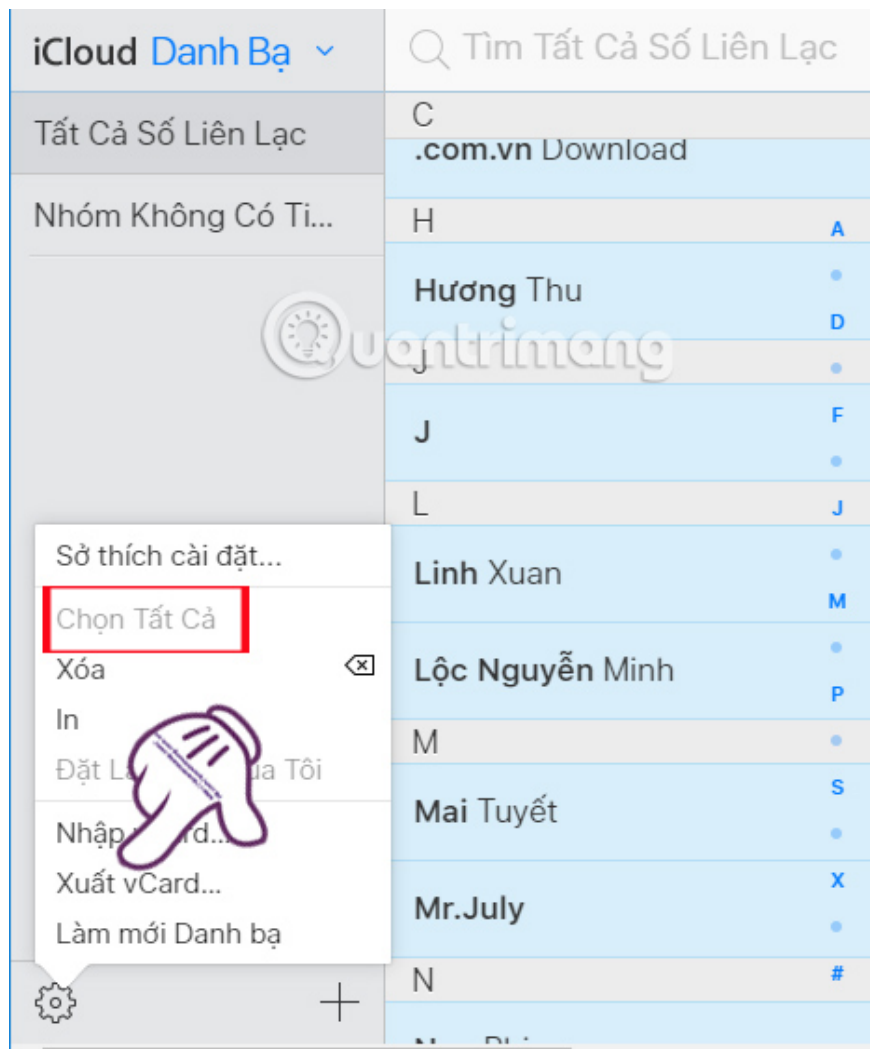

Step 3:

Go to the new interface, we select **Contacts** .

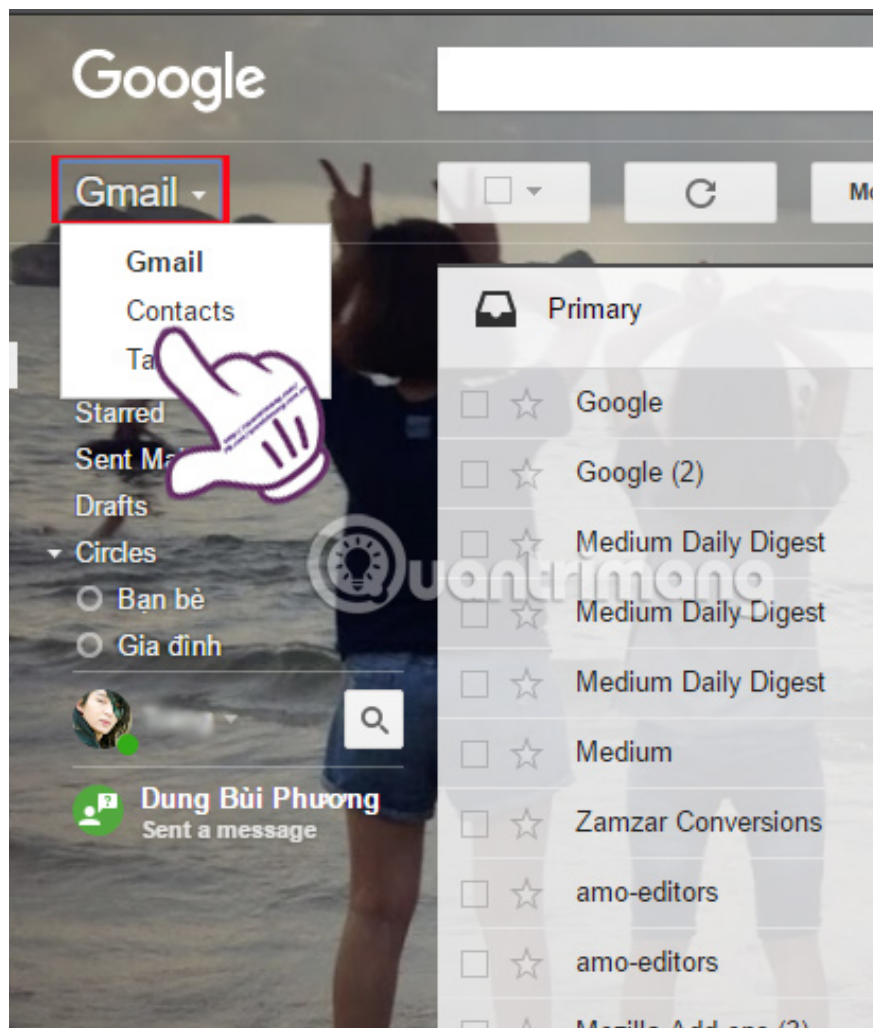

Step 4:

Soon we will see **the entire directory interface available on the device** . You click on the contacts you want to transfer to Gmail, or click on **the gear icon** and select **Select all contacts** and then select **Export vCard** . **ICloud vCard contacts file. vcf** will be downloaded to the computer.

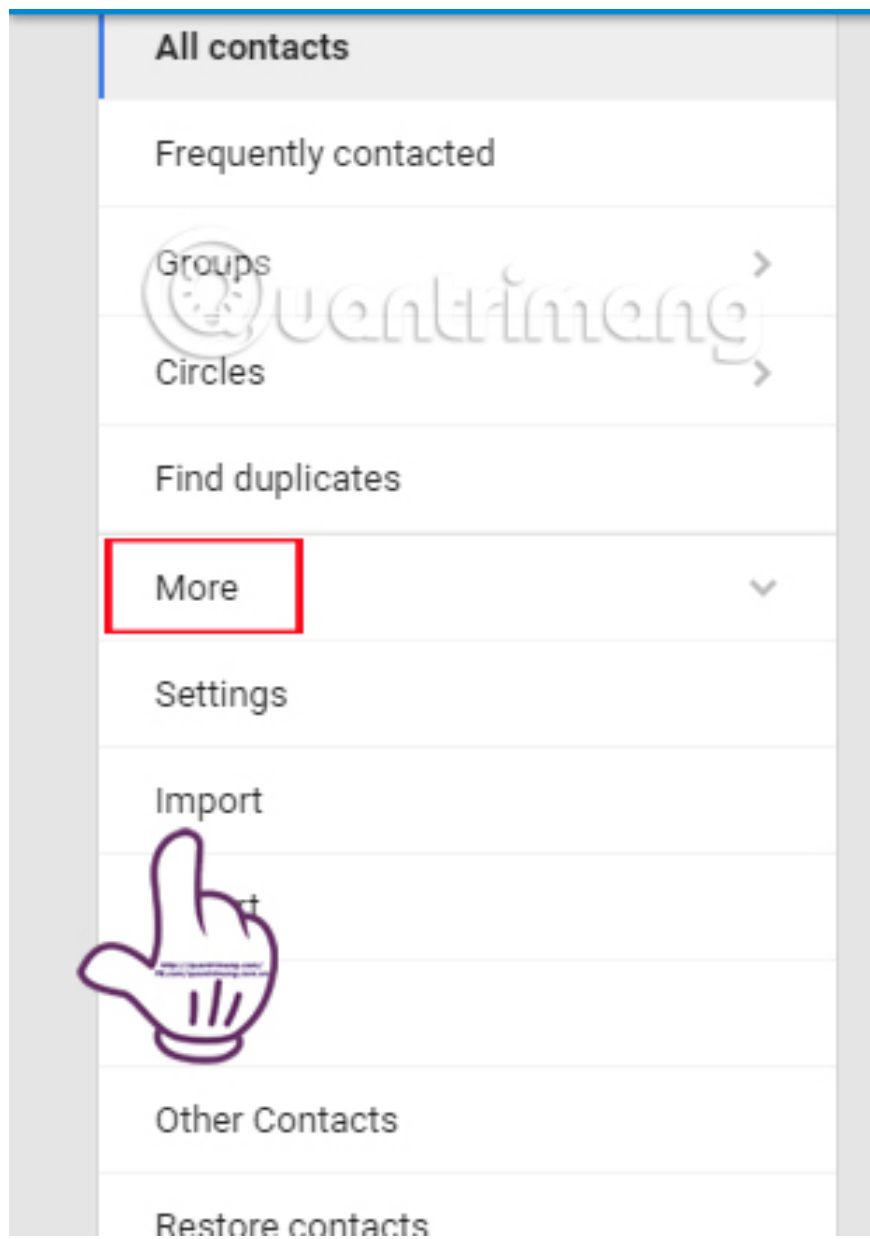

Step 5:

Next, **log in to your personal Gmail account** . At the main interface, **click the arrow next to Gmail** and select **Contacts** .

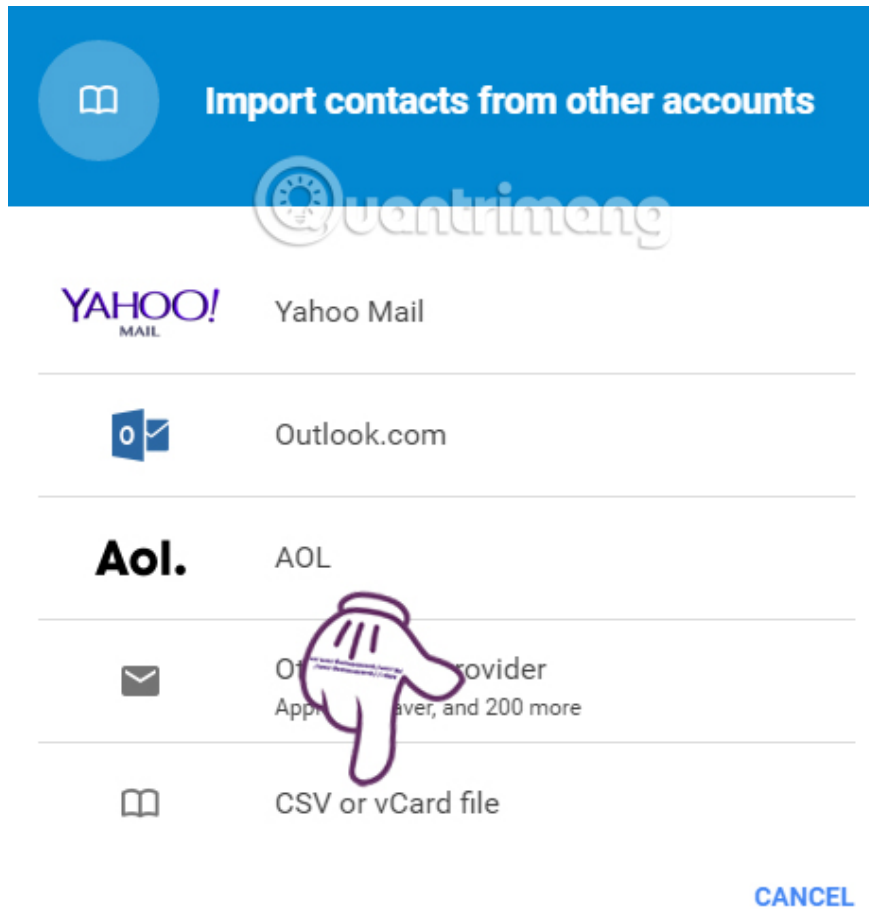

Step 6:

At the new interface, click on **More** and select Next **Import** .

Step 7:

We will be selected to import contacts from other accounts, choose **CSV or vCard file** at the bottom of the list.

Click on **Go to old Contacts** .

Import from old Google Contacts?

This preview version of Google Contacts doesn't support importing from a contacts file yet. To import from a contacts file now:

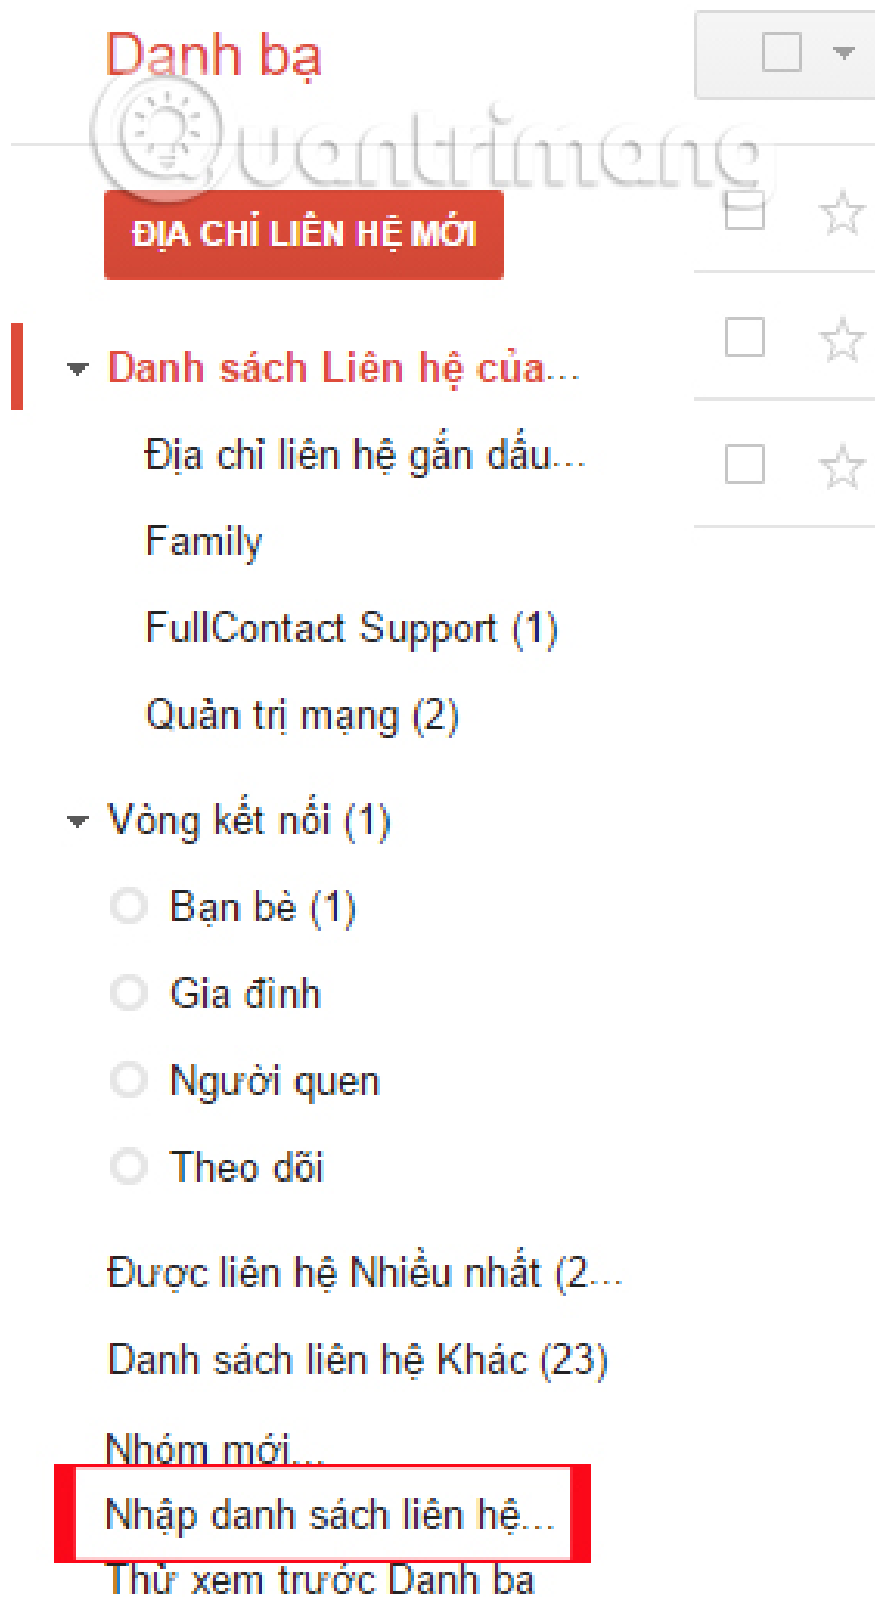

1. Go to the old Google Contacts
2. From the **More** menu, click **Import** and upload your file.
3. Come back to this window and refresh your browser

CANCEL

GO TO OLD CONTACTS

Step 8:

After that, we will be redirected to the **Contacts** interface. In the left menu column, the reader will click the **Import contact list** item.

New interface appears, click **Select file** to export the file Contacts VCard in the computer.
