

# How to transfer subscribers 11 numbers to 10 numbers in Android phone book

If manually converting all old phone numbers to new ones, it will take a lot of time and effort. Moreover, the time to transfer 11 numbers to 10 numbers is not far away, expected September 15th. So, Network Administrator will guide you how to transfer 11-digit subscriber to 10 numbers in Android phone book in a simple and fast way.

According to the latest information of the Ministry of Information and Communications, 11-digit mobile subscribers of three networks VinaPhone, Viettel and MobiFone will be transferred to the 10-digit number. Accordingly, this transition will be carried out according to the rule of retaining the last 7 digits of the 11-digit subscriber and replacing the first 4 digits with 3 new network code numbers, from the beginning of 03 to 08.

The conversion will help us get a short, easy to remember, easy to exchange digital SIM. However, if manually converting all old phone numbers to new ones, it will take a lot of time and effort. Moreover, the time to transfer 11 numbers to 10 numbers is not far away, expected September 15th. Therefore, from now on, you can prepare and collect mass transducer tools in the directory. Below, Network Administrator will guide you how to transfer 11-digit subscriber to 10 numbers in Android phone book in a simple and quick way.

## 5. C subscription number of 10 numbers in the Android phone book with Edit Prefix Number

With the Android operating system, you can put the 11-digit subscriber on 10 phone book numbers by using the Edit Prefix Number application. The operations are simple as follows:

### **Step 1:**

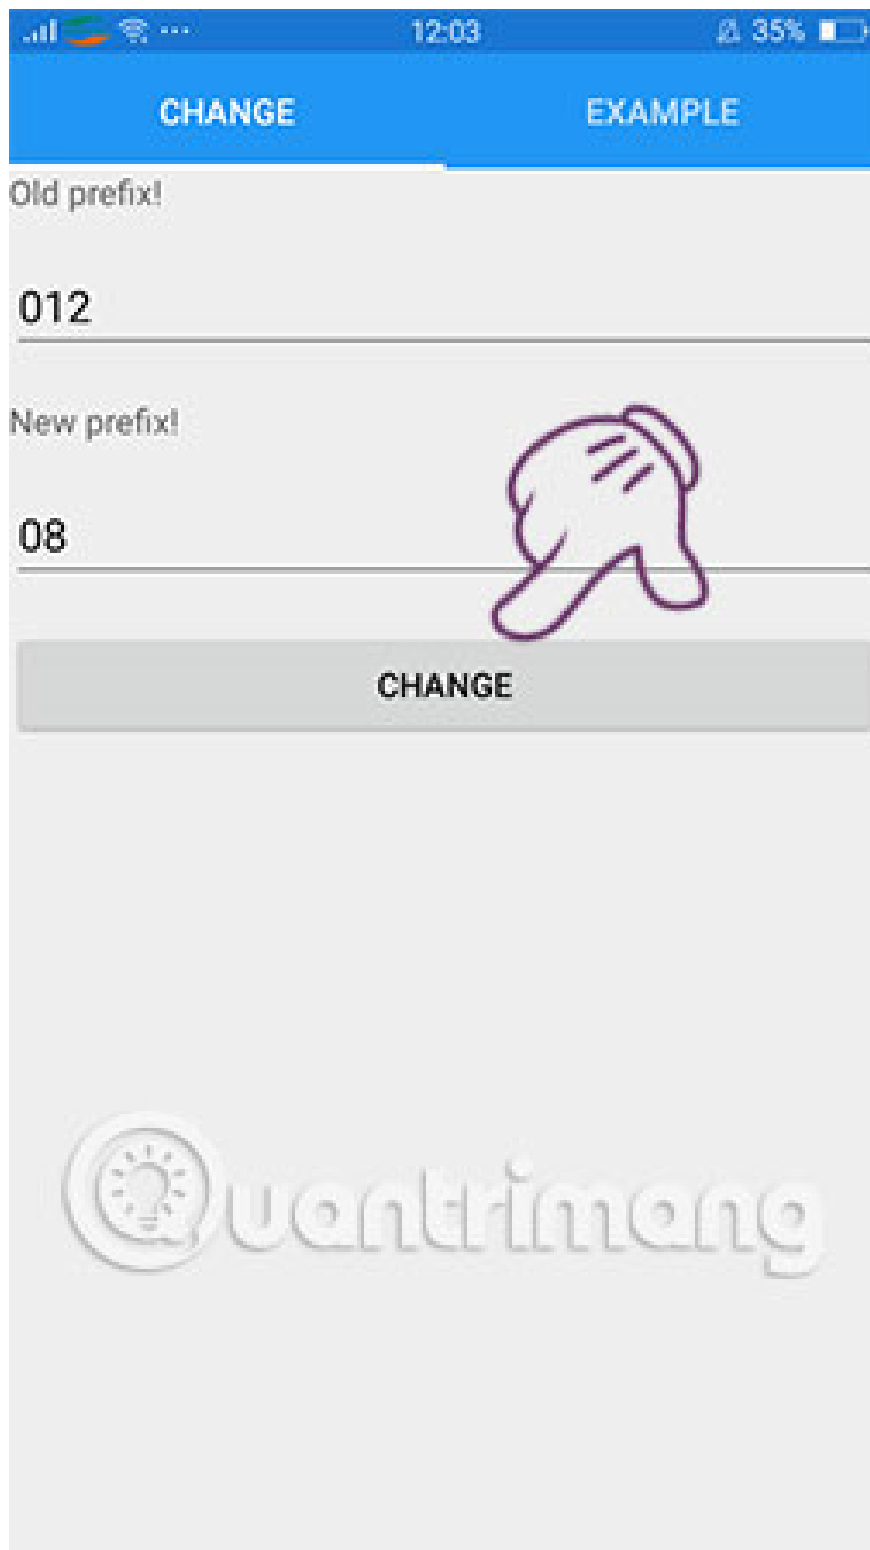

First, download and install the Edit Prefix Phone Number application to your device via the link below.

1. Download Edit Prefix Phone Number for Android

### **Step 2:**

Start the application, at the main interface the application will provide you with 2 input boxes:

1. **Old Prefix** : Where you enter the beginning of the old number, you in turn enter the numbers like 016, 012, 019, .
2. **New Prefix** : Where the input to the first digit has been transferred, for example, the number 012 which changes to 08 then you enter 08.

**Step 3:**

After the import is complete, click on the **CHANGE** item to start the 11-digit subscription conversion process to 10 in the Android phone directory. The system will now display a notice board asking you to confirm the conversion process, click **YES** to proceed with the change.

## 6. Transfer 11-digit subscription to 10 numbers in your Android phone book with Transfer Phone Number

Another very popular batch number conversion application is Transfer Phone Number. This application is similar to the Edit Prefix Number application just introduced above. Specific steps:

**Step 1:**

Download Transfer Phone Number to your phone by clicking on this link.

1. Download Transfer Phone Number for Android

**Step 2:**

Next, open the app. Fill in the old numbers and replace them and click **Find ( Search )** so that the application lists all the phone numbers currently in the phone book using this number.

Đầu số cũ

**TÌM**

Bạn muốn thay đổi tất cả đầu số trong danh bạ của bạn?

Ví dụ:

Nếu bạn muốn đổi tất cả số bắt đầu với +84 (+8411111, +8422222, +8433333, v.v...) thành 03 (0311111, 0322222, 0333333, v.v...)

Bạn chỉ cần nhập +84 tại ô Đầu số cũ -> bấm nút Tìm

Ứng dụng sẽ hiển thị tất cả số bắt đầu với +84 (nếu có) như:

Tên: John  
SĐT: +8411111

Tên: John 2  
SĐT: +8422222

Tên: John 3  
SĐT: +8433333

Sau đó bạn nhập 03 tại ô Đầu số mới -> Bấm nút Đổi
