

# How to translate languages ??right on the camera with Google Translate

With this quick translation, you can translate languages ??right on Google Translate camera without having to take pictures again

Google Translate already has a feature of translating through images for a long time, just capture images from the camera and then place the image into the translation frame. The application will automatically identify the language and you can select the text in the image to translate, or capture directly from Google Translate to translate.

But now you can translate right on your camera without taking photos. Just put the camera into the area where the word needs to be translated, Google Translate will immediately identify the language and translate it right on the camera.

Take a look at the instructions below to quickly translate from the camera without having to put the image into identification.

1. 5 tips should be used when using Google Translate for overseas trips
2. How to use Google Translate directly in Google Sheets
3. Chat with foreigners with the Chat feature on Google Translate

## How to translate languages ??quickly with a camera on Google Translate

**Step 1:** Update your version of Google Translate to the latest, then in the main interface, select the language you want to translate into Vietnamese, then choose **Camera** > choose **Instant Translation** below.

# Google Dịch

Tiếng Anh

Tiếng Việt

Nhập văn bản

Máy ảnh

Viết tay

Cuộc trò chuyện

Giọng nói

Dịch ngay cả khi bạn đang ngoại tuyến bằng cách tải xuống tệp bản dịch ngoại tuyến.

**TIẾNG VIỆT**

Trang chủ

Đã lưu

Cài đặt

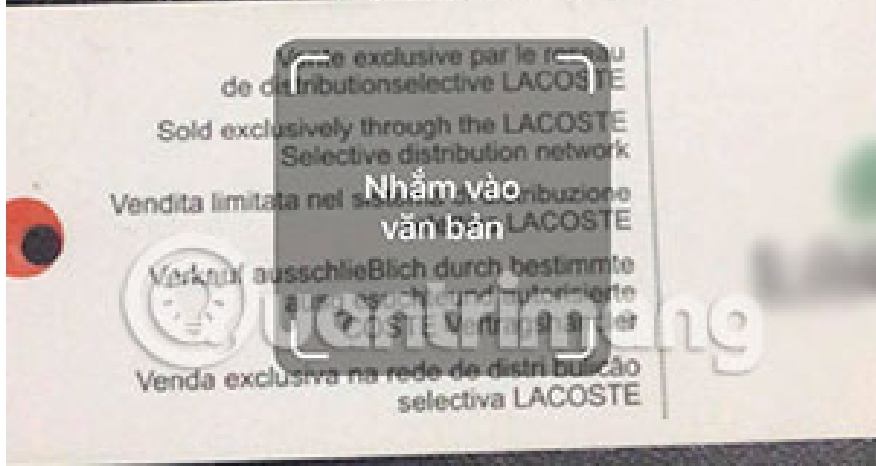

**Step 2:** Then put the camera in the language you want to translate into Vietnamese. Note that you should keep the camera in the language section. **Google Translate** will automatically identify the language and translate it into Vietnamese for you.

Tiếng Anh

Tiếng Việt

Nhắm vào  
văn bản

Dịch tức thì

Quét

Nhập

Because the text is translated to the surface, when you move the camera, the translated word will also deform.

Tiếng Trung

Tiếng Việt

Nhắm vào  
văn bản

uantrimang

Dịch tức thì

Quét

Nhập
