

# How to turn emoji into stickers on iPhone

We don't need to set up any customizations or change settings to send emoji as stickers on iPhone. Here are instructions for sending emoji into stickers on iPhone.

The feature of creating emoji from images on iOS 17 has given users more options to enrich the stickers used when texting. And we can completely use emoji to turn into stickers for use in messages. We don't need to set up any customizations or change settings to send emoji as stickers on iPhone. Here are instructions for sending emoji into stickers on iPhone.

## Instructions to send emoji into stickers on iPhone

### Step 1:

First, go to the Messages app on your iPhone. Then we **click on the icon to create a new message** . In the messaging interface, click **the emoji icon** below to use it.
