

# How to turn off automatic video playback on App Store iOS 11

On App Store iOS 11 has video playback mode automatically when users access, causing loss of battery capacity. So how to turn off automatic video playback on App Store iOS 11.

It can be seen that iOS 11 brings a completely new interface on the system from the setup interface to the App Store interface. The interface on the App Store is changed, along with a number of new features to make it more convenient for users.

However, there is 1 feature on App Store iOS 11 that is not really suitable for users, it is automatically playing video advertising products for developers. When the user opens the details of any application or game, the ad area will appear. This also causes battery capacity to be lost, affecting user experience. So how to turn off auto-play mode on App Store iOS 11?

## Step 1:

The interface for playing videos on App Store iOS 11 will be as shown below. To proceed to disable automatic video playback, go to **Settings** then select **the iTunes & App Store item** in the list.
