

How to turn off feedback inquiry on Windows 10

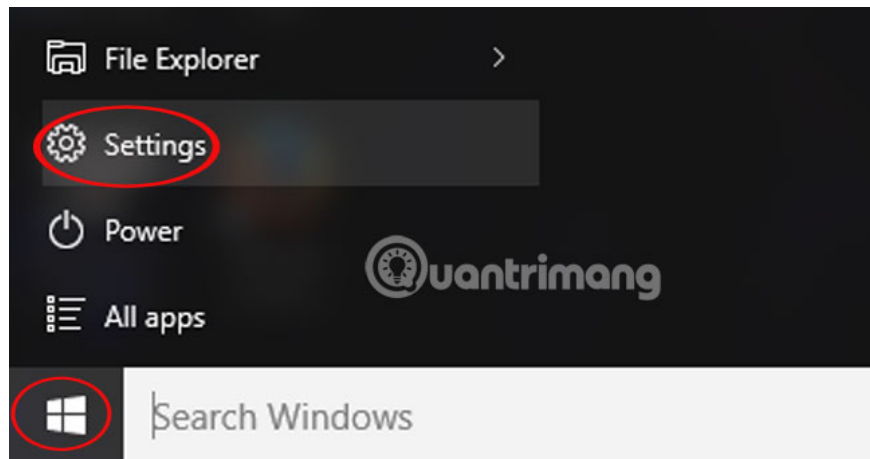

If you use Windows 10, you will often see feedback questions. Although they do not cause too much impact on users, if you want to turn off these questions to be able to focus on work is also relatively simple.

External If you use Windows 10, you will often see Feedback messages. Although they do not damage the machine, it is relatively simple if you want to turn off these questions so you can focus on your work. Network administrators will show you how to turn off response notifications on Windows 10.

1. Refer to how to turn off the Windows 10 automatically update .

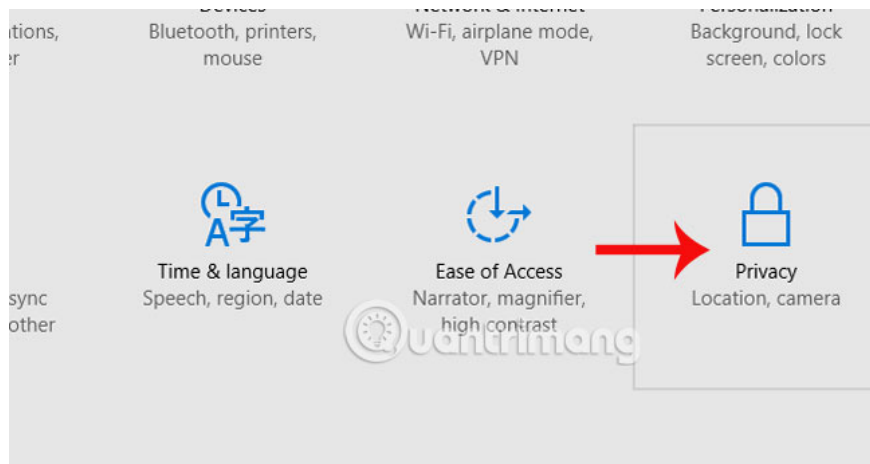

Step 1:

Click on the Start button and select **Settings** .

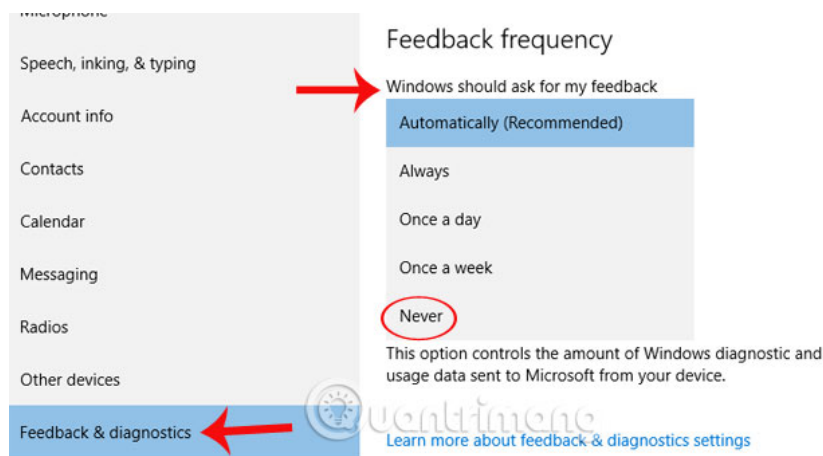

Step 2:

Continue to select **Privacy** .

Step 3:

Find the **Feedback & diagnostics** section in the left menu bar. In the **Feedback frequency** section, click the arrow and select **Never**.

As such, we can turn off the feature to receive feedback notifications on Windows 10.

Refer to the following article:

1. Open, watching photos on Windows 10 too slow? This is how to fix it!
1. Use virtual desktop in Windows 10
1. Start Windows 10 "as fast as the wind" with Fast Startup

Good luck!
