

How to turn off mail notifications in Windows 10

You find it annoying every time you receive a notification of new mail in Windows 10 Mail application, just follow the simple steps below.

How to turn off mail notifications in Windows 10

To turn off mail notifications in Windows 10, simply follow the simple step-by-step instructions below.

Step 1: Open the **Mail** application on your computer.

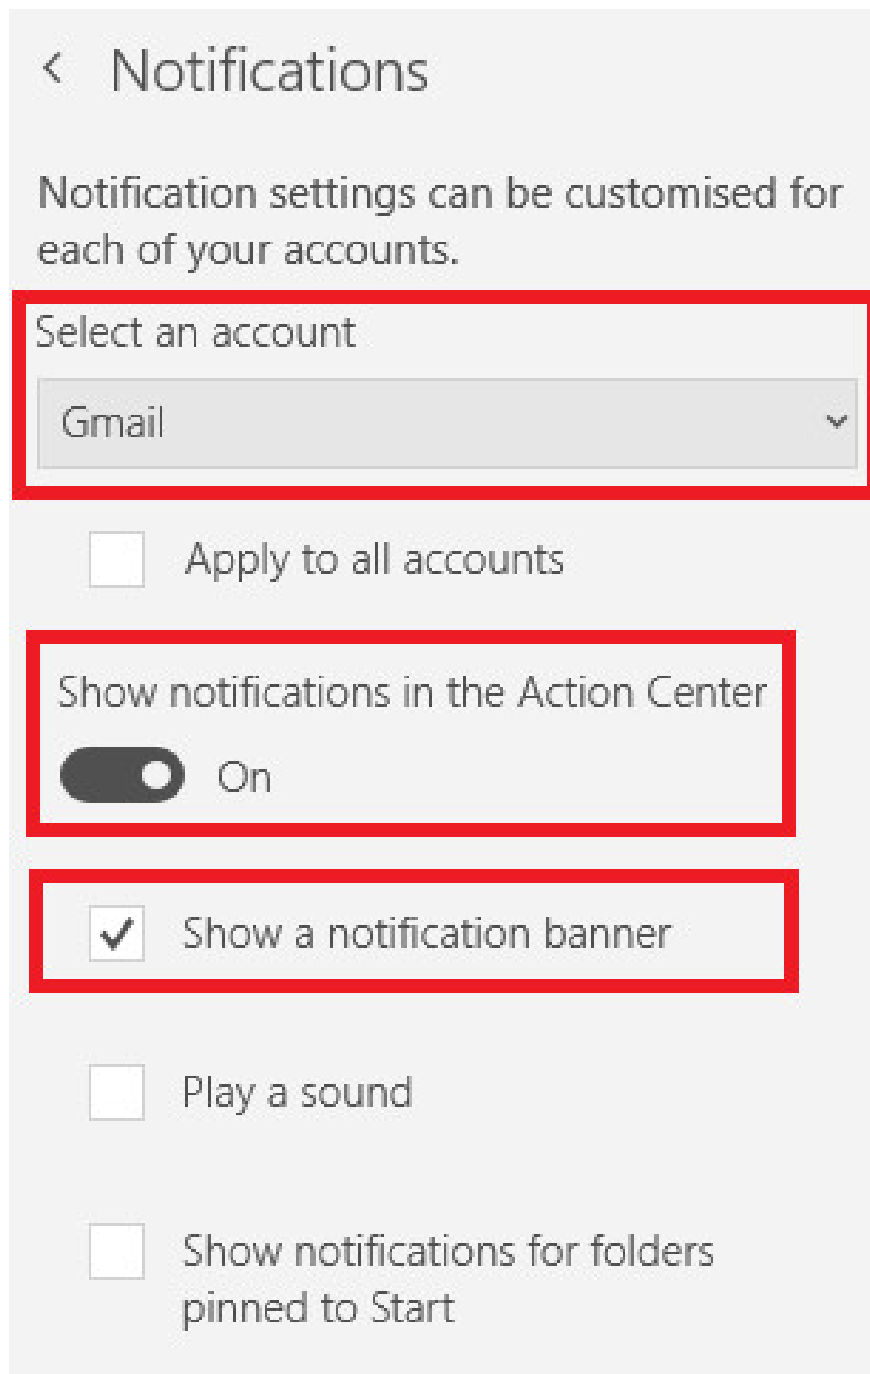

Step 2: In the lower left corner of the window, click the **Settings** icon.

Step 3: Select **Notifications** .

Step 4:

Option 1: Select the account you want to disable notifications on the drop-down menu at the top of the screen, then tick the box next to **Show a notification banner** .

Option 2: Slide the switch button next to **Show notifications in the Action Center** .

Step 5: Now, open the Windows **Settings** app.

Step 6: Go to **System** .

Step 7: In the left panel, click **Notifications and actions** .

Step 8: Scroll down to **Get notifications from these senders** .

Step 9: Slide the switch button next to **Mail** and **Calendar** to the **Off** position.

To receive a notification again, reverse the steps above.

I wish you all success!
