

How to turn off online status on WhatsApp

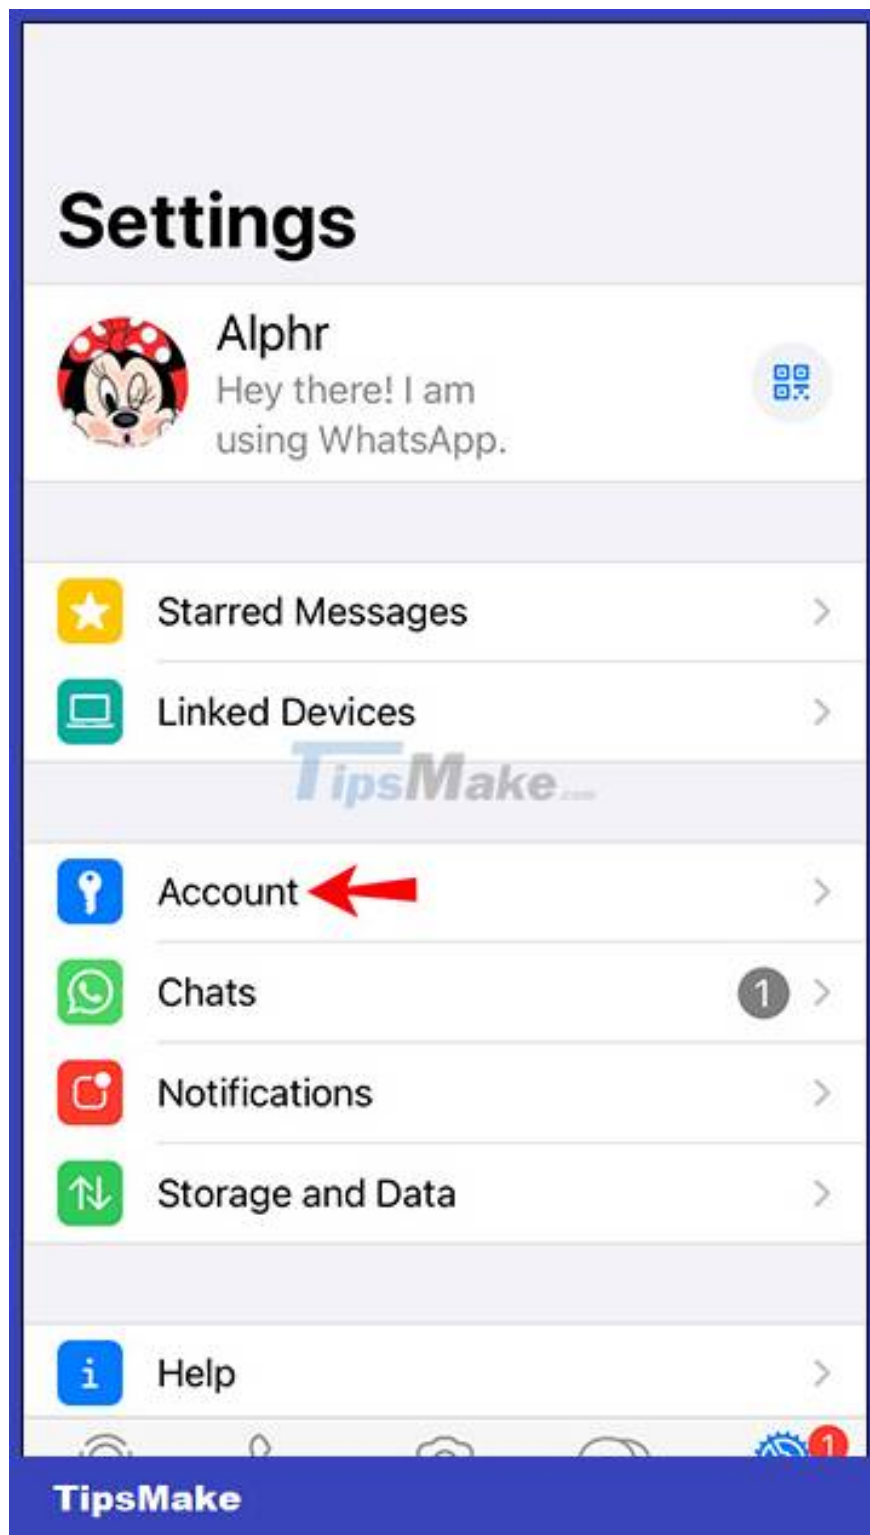

When you are online WhatsApp will display a notification, letting others know if you have access to WhatsApp or not. The following article will guide you to turn off online status on WhatsApp.

When you are online WhatsApp will display a notification, letting others know if you have access to WhatsApp or not. However, many people do not like to display this online status because it affects their privacy or does not want others to disturb you when using WhatsApp. The application has the option for you to turn off the online status like when you want to turn off the online status on Zalo. The following article will guide you to turn off online status on WhatsApp.

Instructions to turn off online status on WhatsApp iPhone

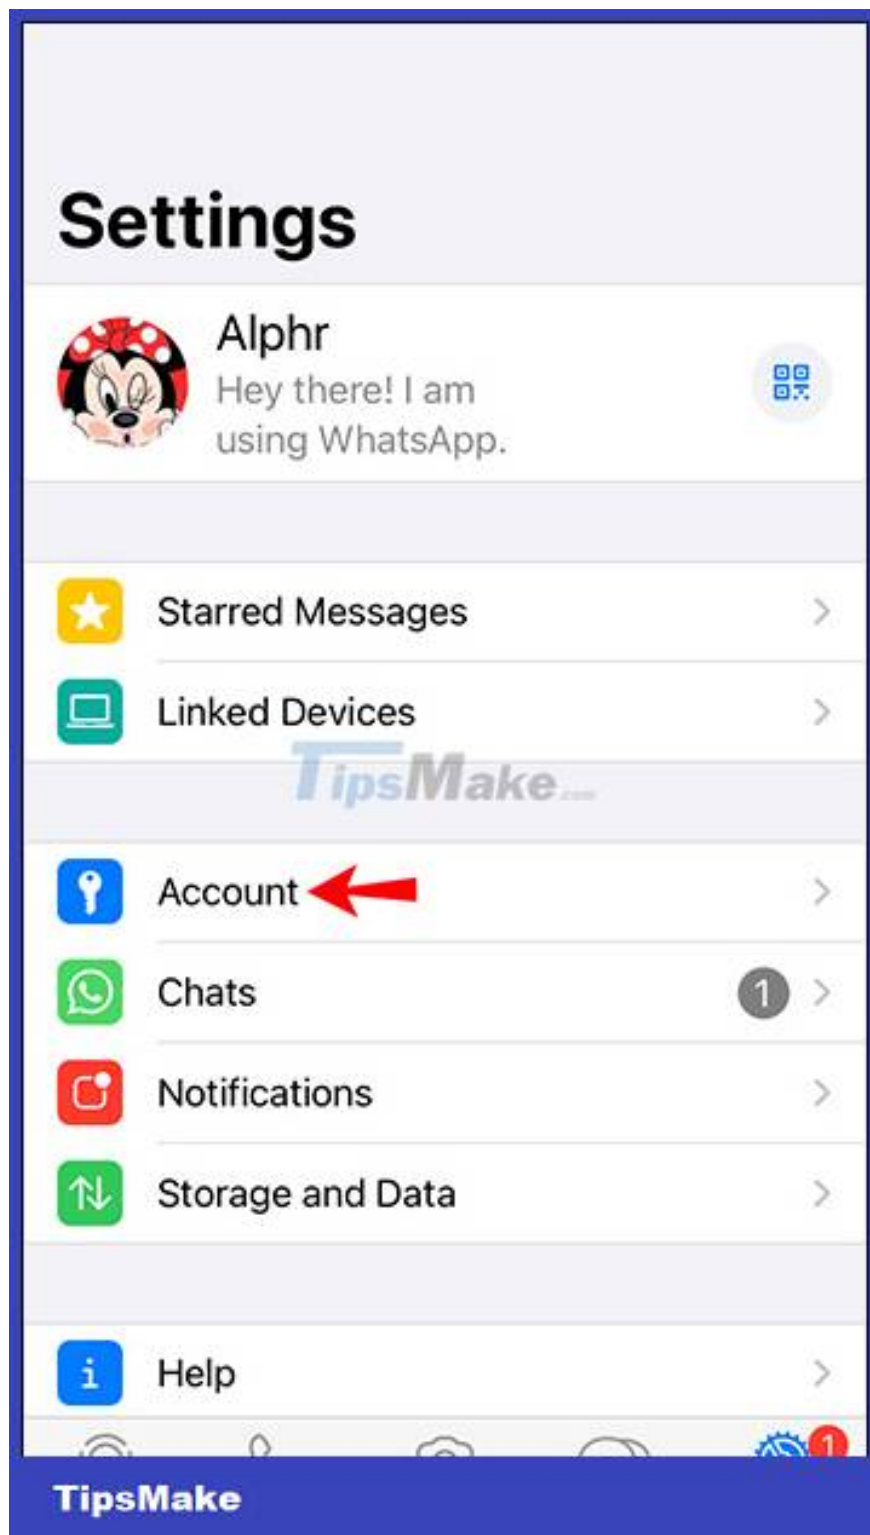

Step 1:

At the interface on the WhatsApp application, click on **the Settings item** below to enter the settings interface on the application. Next, click on **Account** .

Step 2:

Switch to the account management interface, users click on the **Privacy item** to adjust the privacy for the account.

Step 3:

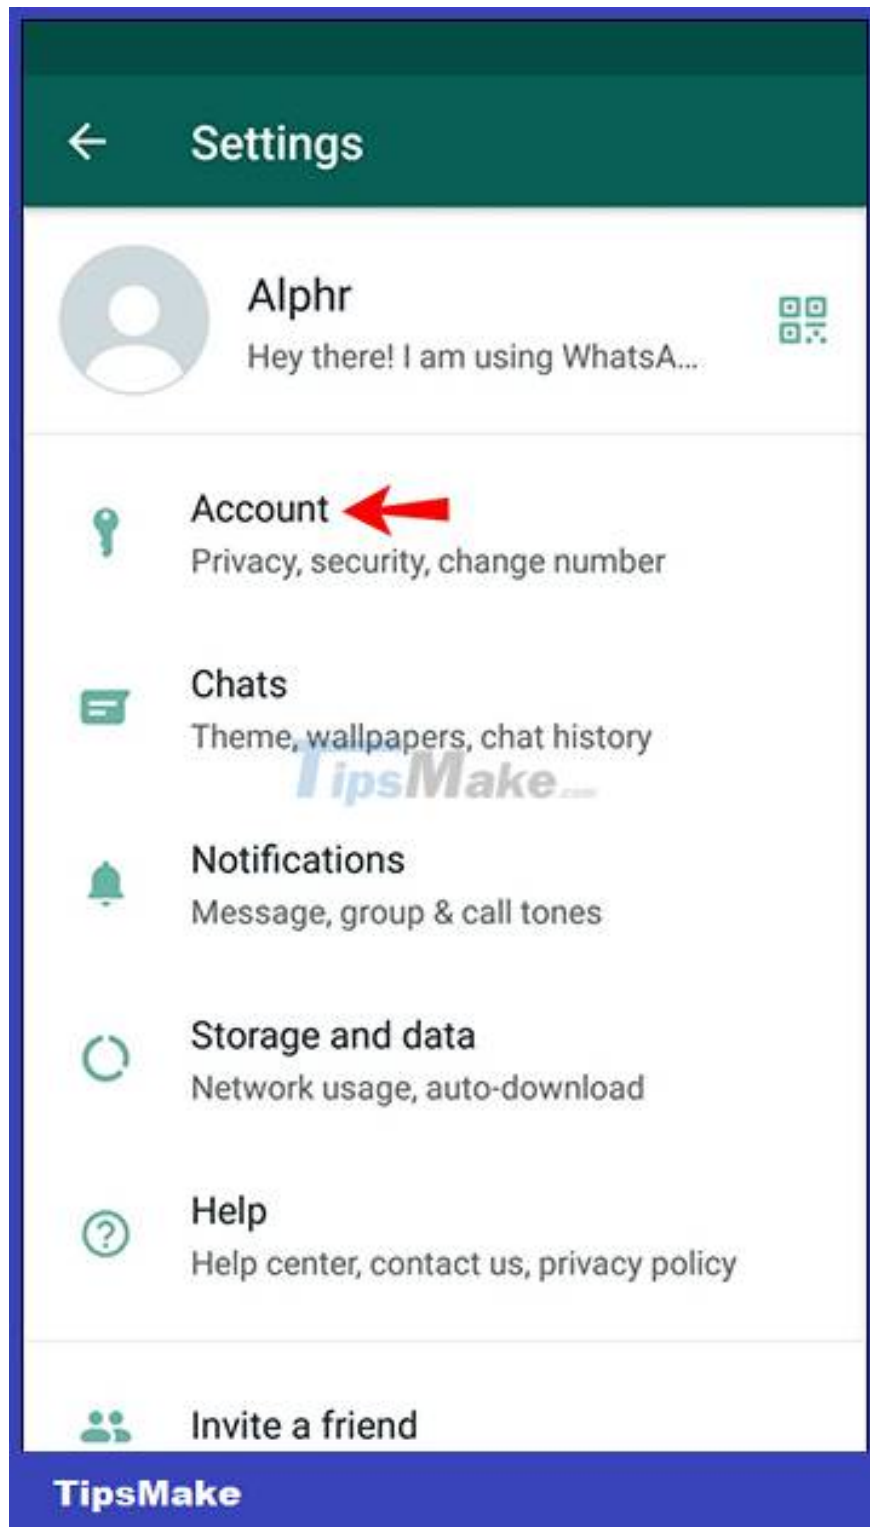

In the personal privacy adjustment interface, **click on the Last Seen notification** . At this point we will **switch from Everybody to Nobody mode** so that no one will see your online notifications. We can also choose My Contacts if we want people in your contacts to see the online status.

How to turn off online status on WhatsApp Android

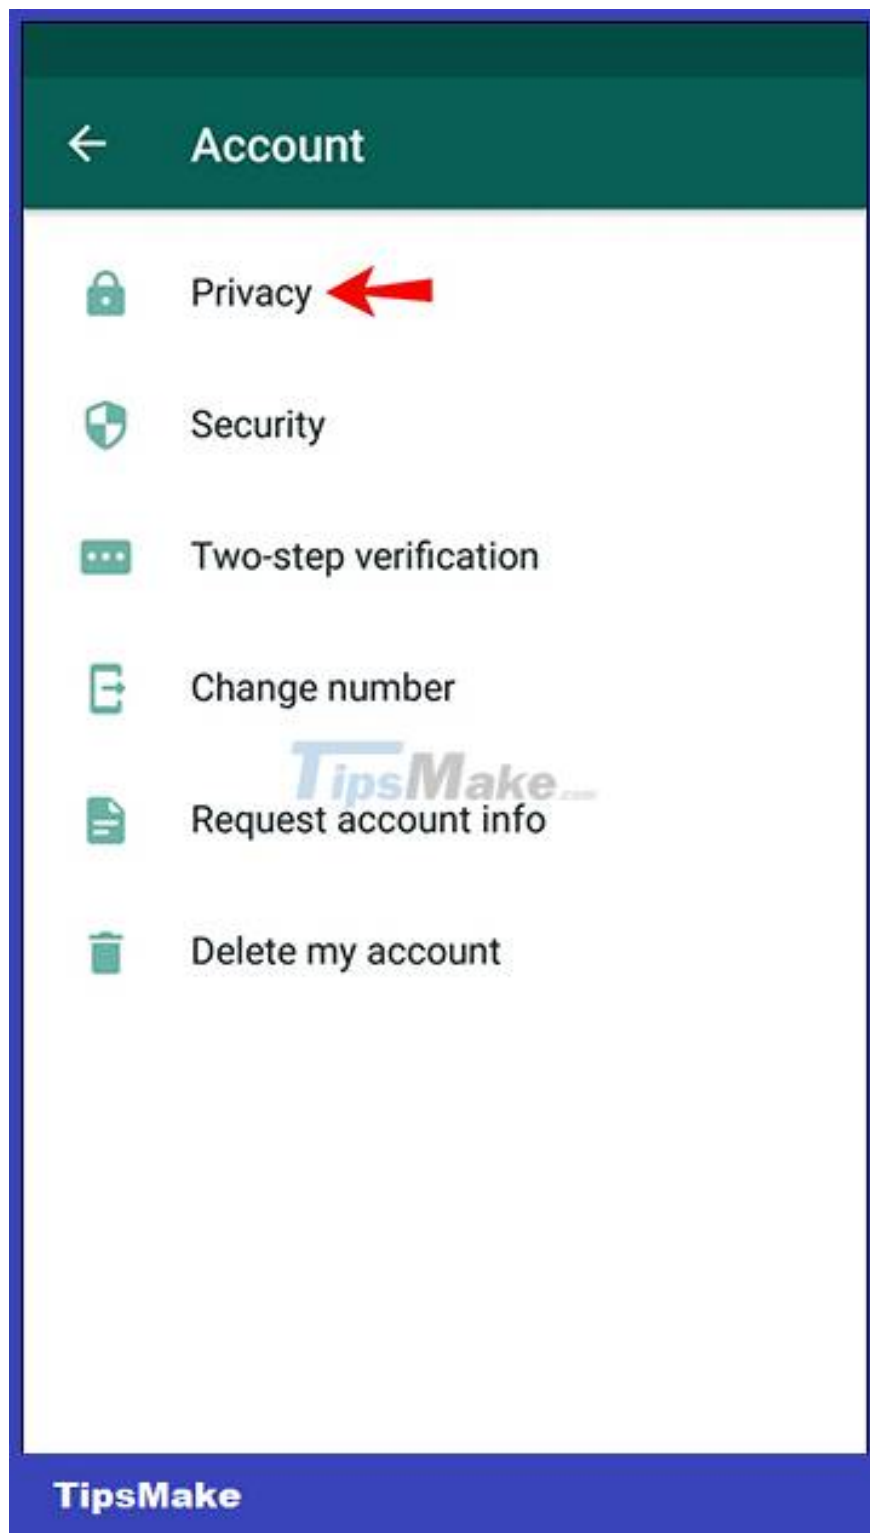

Step 1:

At the interface on the WhatsApp application, we click on **the 3 vertical dots icon** to access the Settings interface. Next, the user clicks on **the Account item** to change the settings for the account.

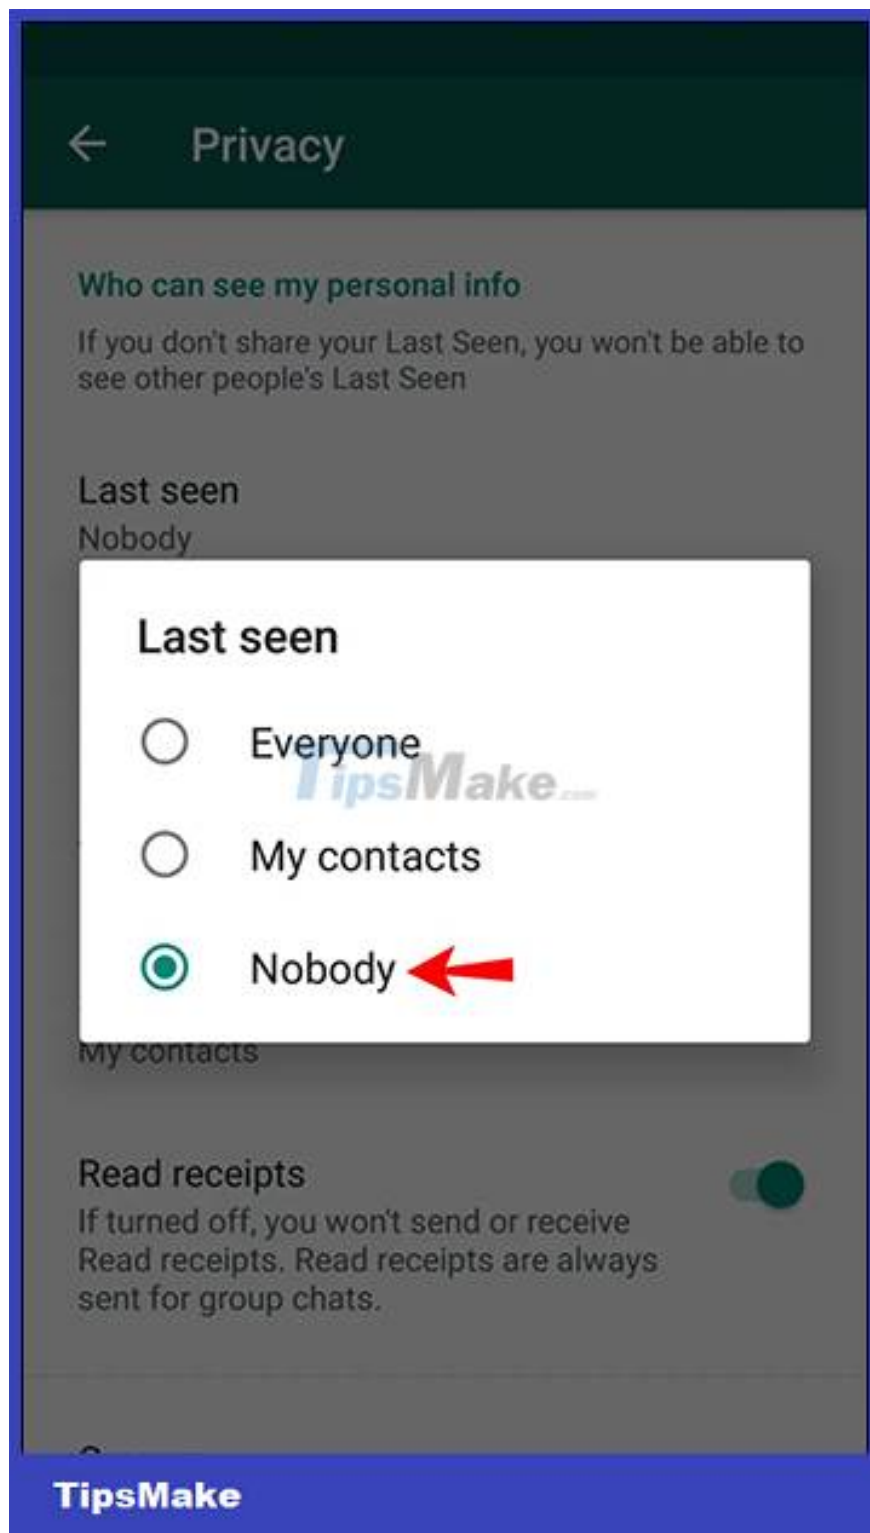

Step 2:

Continue to click on **the Privacy section** to adjust the privacy mode for the account.

Step 3:

Users also click on **the Last seen item** and then **switch to the Nobody display mode** so that no one knows you are online.
