

# How to turn off saving WhatsApp photos to your phone

Users should turn off WhatsApp photo saving to the phone, to limit the use of a lot of space on the phone, similar to turning off automatic downloading of photos and videos on WhatsApp.

When you view photos and videos on WhatsApp, the photos are automatically downloaded to your phone's library. This will definitely increase the capacity on the phone quite a bit, especially when videos on WhatsApp are saved to albums on the phone. Therefore, users should turn off the mode of saving WhatsApp photos to the phone, to limit the use of a lot of space on the phone, similar to turning off automatic downloading of photos and videos on WhatsApp. The article below will guide you not to save WhatsApp photos to your phone.

## Instructions not to save WhatsApp photos to your phone

### Step 1:

At the interface on the WhatsApp application, users click on **Settings** to adjust.
