

# How to turn off shortcuts on Google Chrome

Keyboard shortcuts on Chrome will help you perform quick operations. So what if I want to turn off the shortcut on Chrome?

Keyboard shortcuts on Windows or browser shortcuts always support users quickly, instead of using the mouse manually. With Chrome browser you often use the shortcut Ctrl + J to quickly open the Downloads interface, Ctrl + H to open the History interface on the browser, .

However, many utilities or background apps have several key combinations that overlap with shortcuts on Chrome, making it difficult for users to not perform the correct operation. If so, we can install Shortkeys (Custom Keyboard Shortcuts) to customize the browser shortcuts. The following article will guide you how to turn off shortcuts on Chrome.

## Instructions for adjusting shortcuts on Chrome

### Step 1:

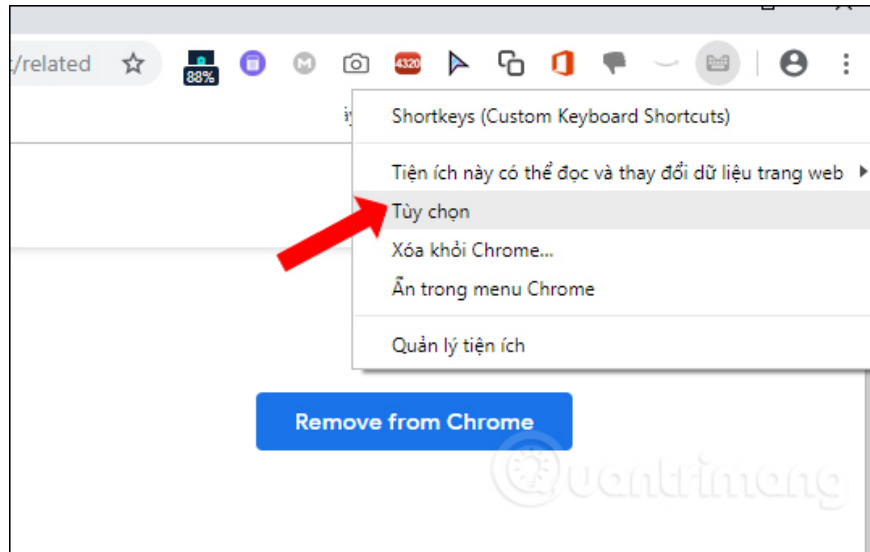

Users click on the link below to install Shortkeys utility on Chrome browser.

1. Download Chrome Shortkeys utility

## Step 2:

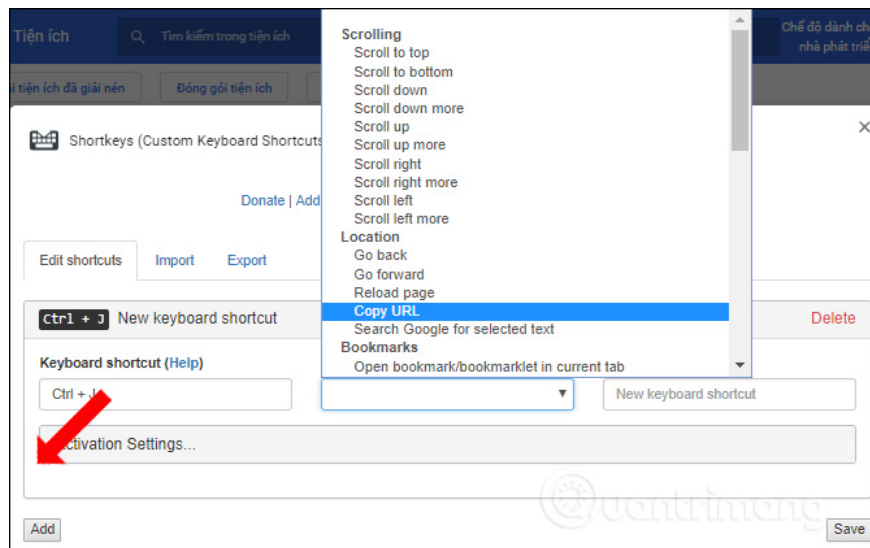

After installation is complete, users click on the utility icon at the end of the address bar and **select Options** . Show custom gadget interface on Chrome.

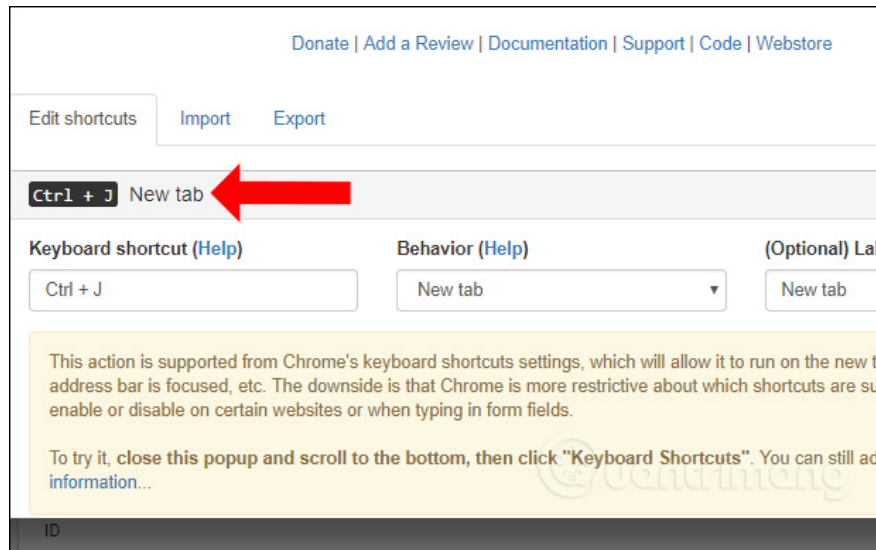

## Step 3:

At this interface to add a new shortcut, enter the new shortcut key in the **Keyboard shortcut** section, enter the function in **Behavior** and name the shortcut in the **Label** section, and then **click Add** to add it.

It can be based on the list of functions that the utility provides so that users can easily choose the changes.

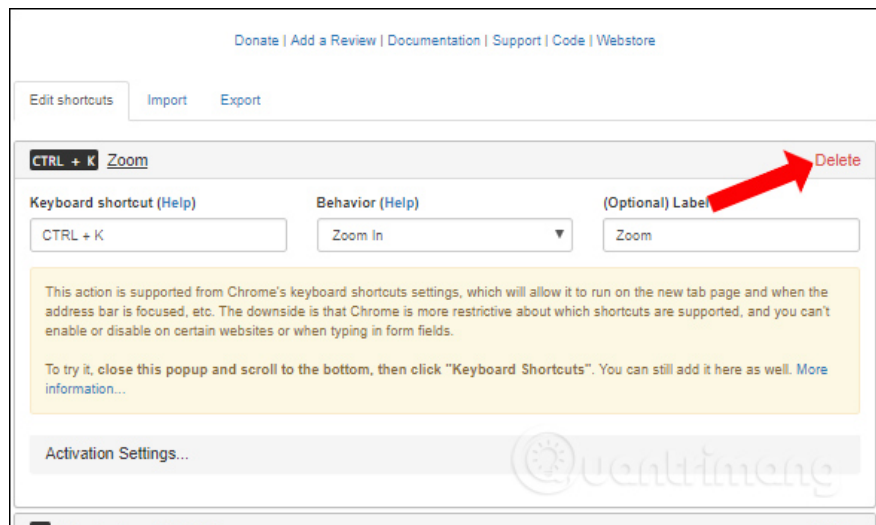

As a result we will see the newly added key combination displayed on the top of the interface. We continue with other keyboard shortcuts. Each Keyboard shortcut entry will be a different shortcut combination.

### Step 5:

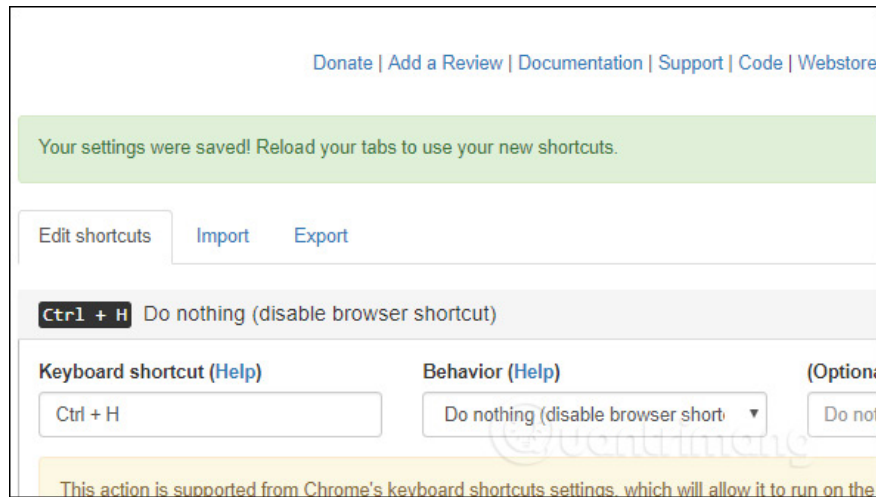

If you want to delete the set shortcut, click **the Delete button** as shown below.

### Step 6:

To delete a shortcut key on Chrome browser, enter the key combination at the Keyboard shortcut section. At the Behavior user section, select **Do nothing (disable browser shortcut)**.

Finally click **the Save button** to save the changes. Users will receive a saved notification of changes in the browser.

Shortkeys (Custom Keyboard Shortcuts) on Chrome browser support users to add shortcuts with functions to the browser, avoid confusion with other shortcuts when using utilities or background applications. List of functions assigned to shortcuts that are itemized at Behavior for easy selection.
