

How to turn off spell checking on Coc Coc

The spell check feature on Coc Coc is sometimes not necessary because it can affect the content of editing, or write status on Facebook for example.

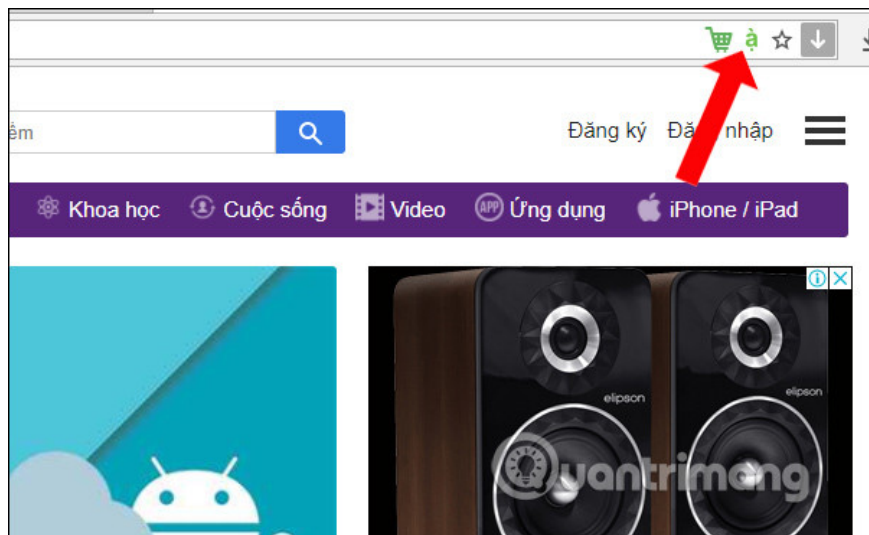

Most web browsers, or editing tools, have spell-checking capabilities. This will help users to control the wording during the input process. And Coc Coc browser also has this feature, when automatically checking spelling on all websites.

However, this spell check feature is not really necessary, because sometimes it affects the content of the text editor. For example, if you want to write Facebook status without unsigned text, then Coc Coc will continue to show you the correct word suggestion. If so, we can completely turn off the spell check feature on Coc Coc.

Instructions to turn off spell checking on Coc Coc

When you visit any web page, you will see a blue letter icon appear in the address bar, which means that the spell check feature is turned on.

Step 1:

Click on **Coc Coc** in the top left corner of the web interface and select **the Settings section** in the drop down list.

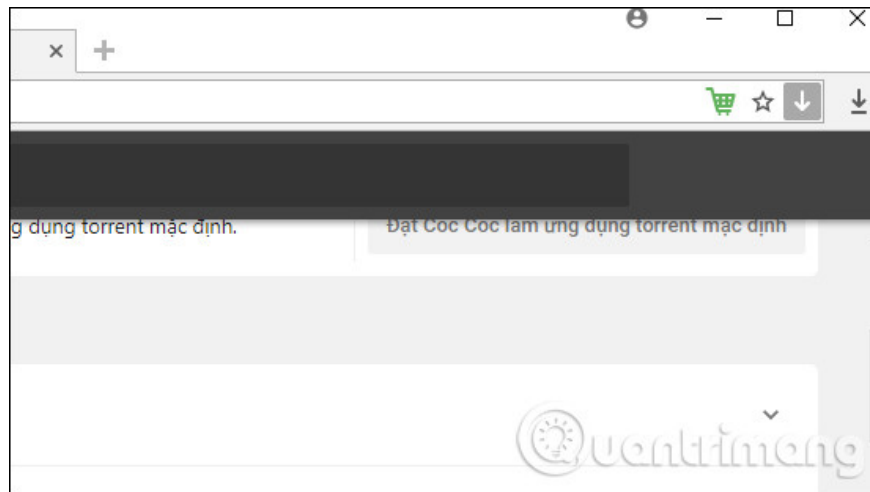

Step 2:

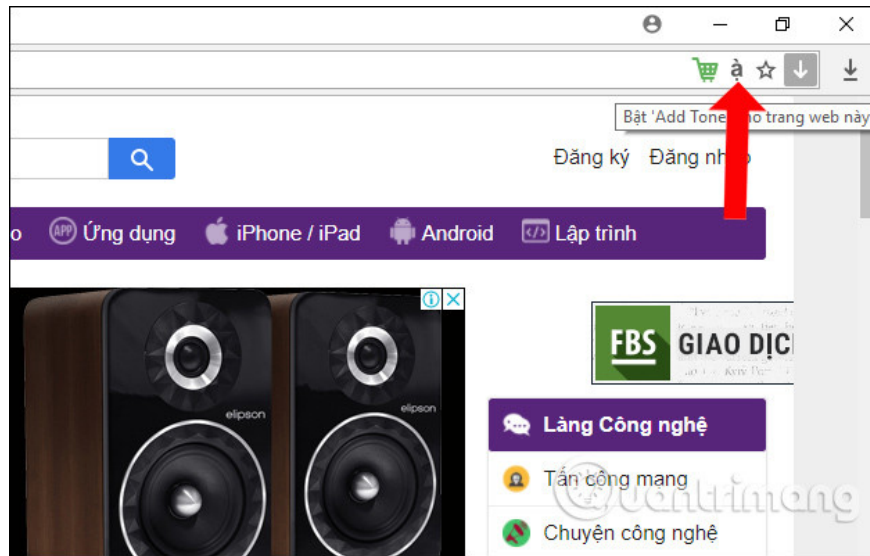

Switch to the new interface, click **the General tab** and navigate to the **Language settings** section on the browser. Here, **leave the tick at Turn on 'Add Tone'** .

Immediately the letter icon of the spell check feature in the address bar of Coc Coc browser is known. So you have completely disabled the spell check feature on Coc Coc.

In addition, if users do not want to completely disable the spell check feature, but just want to **turn off the temporary check** on a Coc Coc website, users just need to click on the text icon. The icon will now turn gray and stop working. If you want to use the spell check feature on this page again, just press the letter icon again.

Depending on the needs of each user, we can completely disable the spell check feature on Coc Coc, or just turn off the pages you need. So Coc Coc will not display the correct word suggestion box when you enter content in the browser.
