

How to turn off test mode on windows 10

WHAT IS TEST MODE? HOW TO TURN OFF TEST MODE ON WINDOWS 7, 8, 8.1, WINDOWS 10, 11

Windows 10 is a revolutionary operating system from Microsoft, because of that, Windows 10 is supplemented and integrated with many different features to give users more variety. One of the unique features on Windows 10 is Test mode. But this is also an annoying thing for some people. In this article, TDC will guide you how to turn off and remove the Test Mode line in Windows 10.

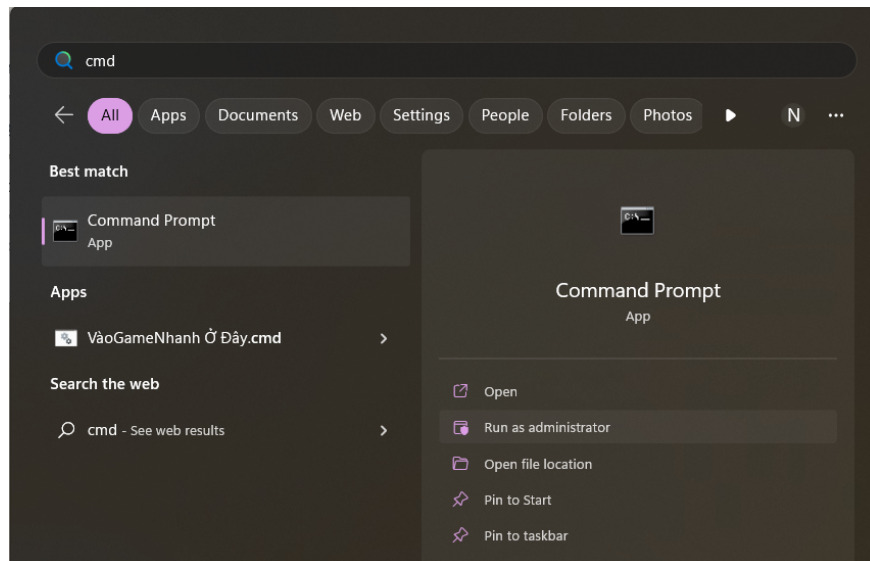

First, you need to know what TEST MODE is

Test Mode is a quite useful feature that helps users have a testing space. In Test Mode, users can install and customize files of third-party software (software not available on Windows). Test mode is mainly for those who like to interfere with software, fix errors, crack copyrights,.

Watermark with the word TEST MODE usually appears in the lower left corner of the computer screen. You can do the following to turn off TEST MODE on windows 7, 8, 8.1, 10, 11.

Turn off TEST MODE directly through CMD

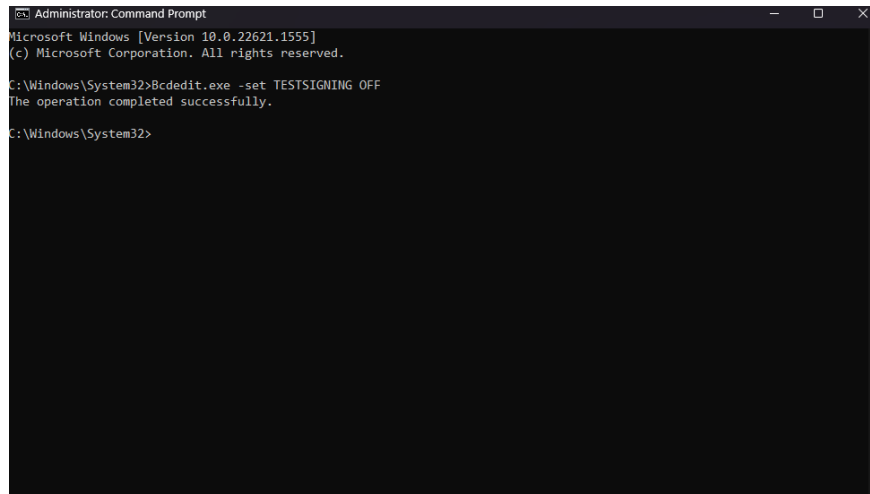

Click the Windows Button (flag shape), type "CMD" in the search box and select run as administrator

At the Command Prompt interface

Type the command:

Bcdedit.exe -set TESTSIGNING OFF

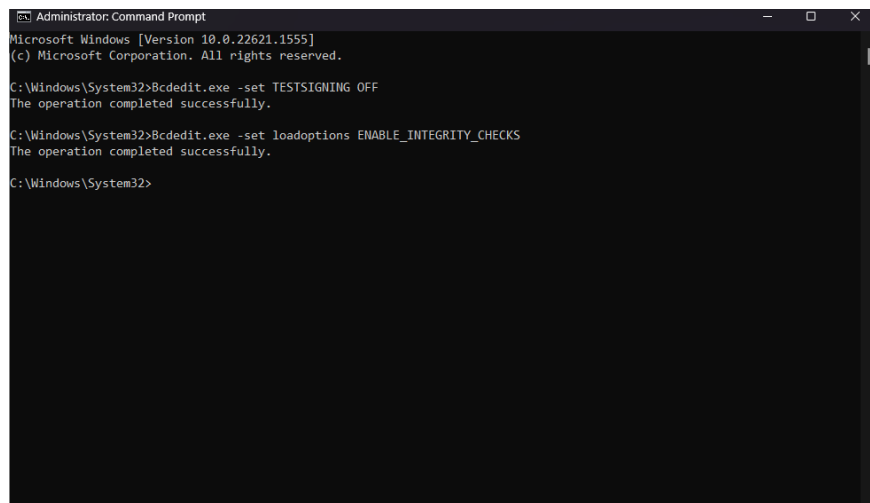

```
Administrator: Command Prompt
Microsoft Windows [Version 10.0.22621.1555]
(c) Microsoft Corporation. All rights reserved.

C:\Windows\System32>bcdedit.exe -set TESTSIGNING OFF
The operation completed successfully.

C:\Windows\System32>
```

Next type the command:

Bcdedit.exe -set loadoptions ENABLE_INTEGRITY_CHECKS

```
Administrator: Command Prompt
Microsoft Windows [Version 10.0.22621.1555]
(c) Microsoft Corporation. All rights reserved.

C:\Windows\System32>bcdedit.exe -set TESTSIGNING OFF
The operation completed successfully.

C:\Windows\System32>bcdedit.exe -set loadoptions ENABLE_INTEGRITY_CHECKS
The operation completed successfully.

C:\Windows\System32>
```

Then you restart the computer to completely turn off Test Mode. Good luck
