

How to turn off yourphone.exe process on Windows 10

The article guides how to turn off the process of yourphone.exe on laptops, Windows 10 computers simply and quickly. Click to see details!

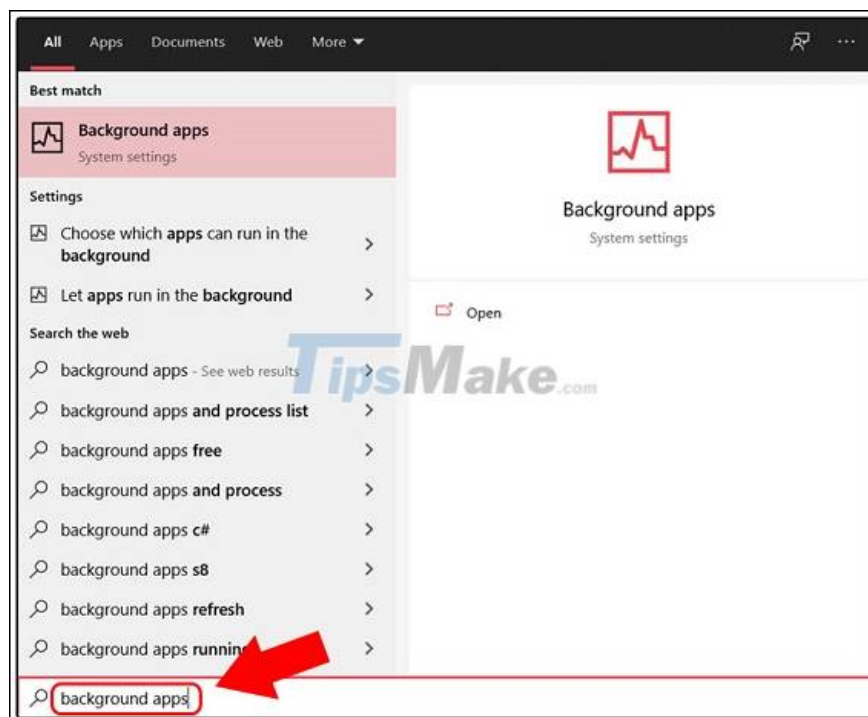

Many Windows 10 laptop and computer users probably do not know the process yourphone.exe as well as its use. In this article, I will briefly introduce this process as well as instructions on how to disable if you do not use it.

- What is the process of yourphone.exe on Windows 10?

Yourphone.exe is an application running in the background so you can synchronize Windows 10 with Android phones and iPhones, iPad. In simple words, you can use your phone to send SMS messages to your laptop or Windows 10 computer.

1. How to turn off yourphone.exe folder

Press the **Start** button in the left corner of the screen or press the **Windows** button above the keyboard > Type "**background apps**" > Press **Enter**.

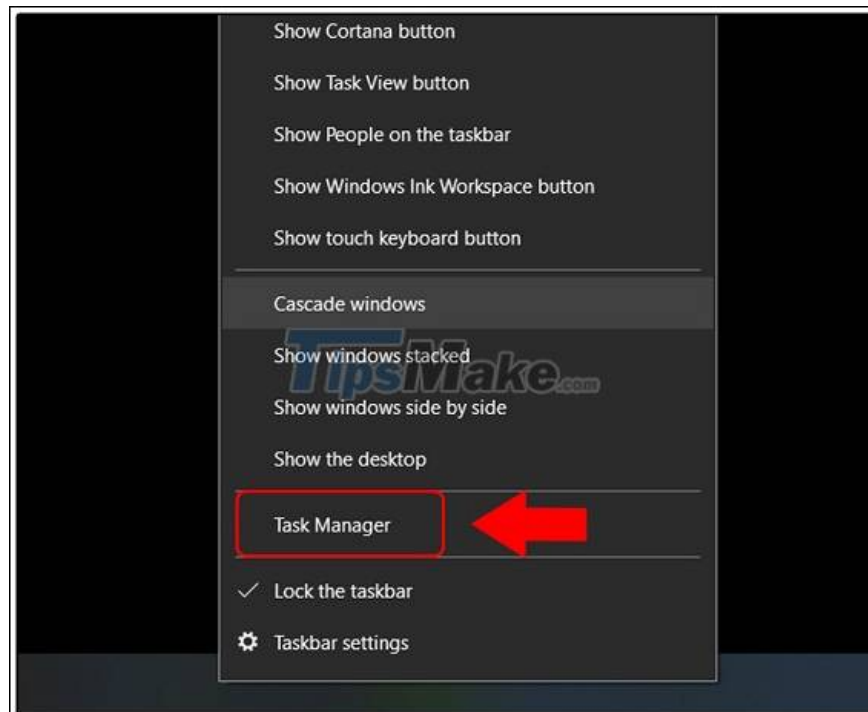

On the Background apps interface, scroll down and navigate to **Your Phone** > Drag the **On** button to the left to turn off.

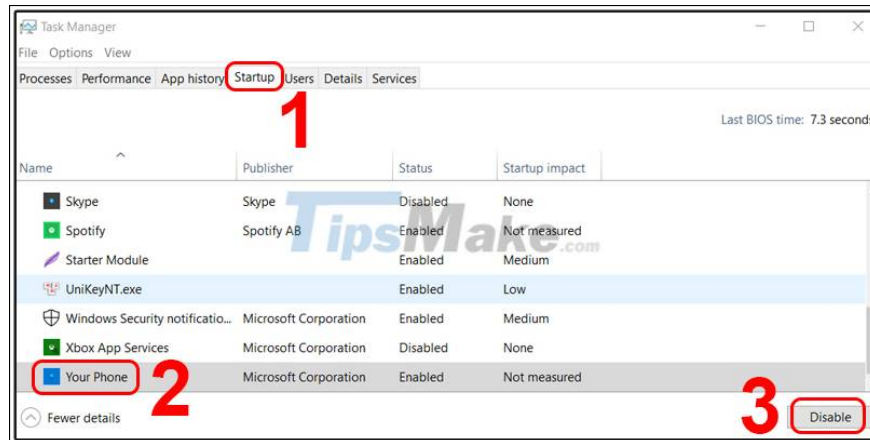

2. How to prevent youphone.exe from opening itself when starting Windows 10

Right-click the Taskbar at the bottom of the screen > Select **Task Manager**.

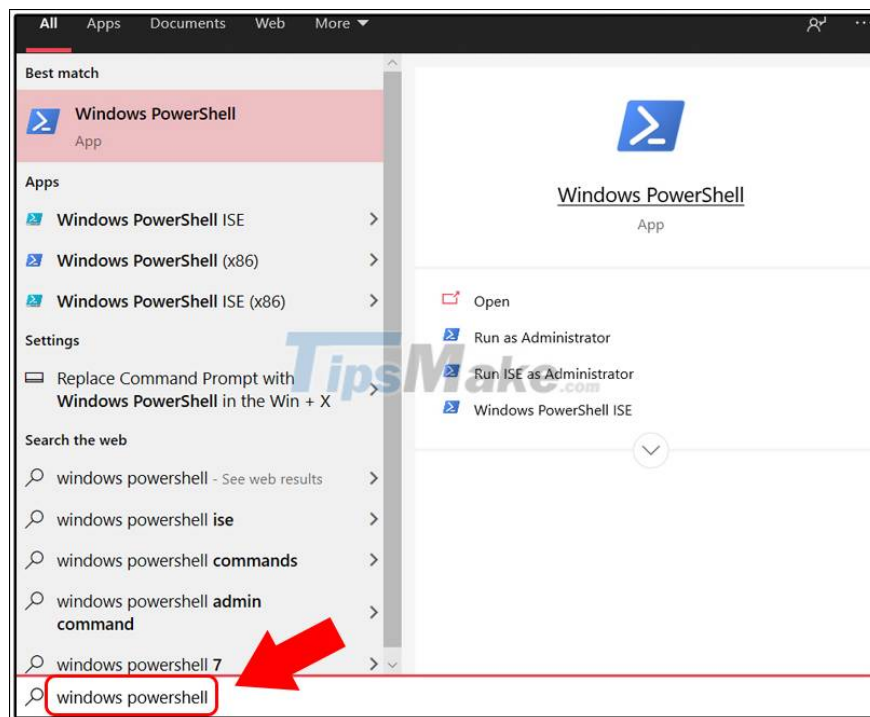

You select **Startup** > Scroll down to find and select **Your Phone** > Click **Disable** to prevent Your Phone from opening automatically when starting Windows 10.

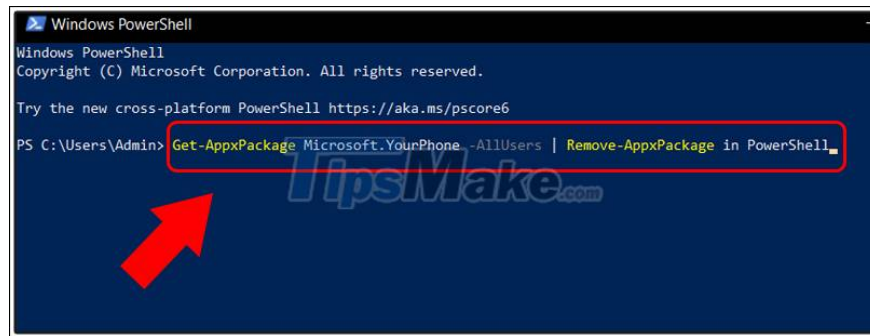

3. Delete the yourphone.exe folder

Press the **Start** button in the left corner of the screen or press the **Windows** button above the keyboard > Type "**windows powershell**" > Press **Enter**.

Enter the following command copy and paste into the Windows PowerShell window.

Get-AppxPackage Microsoft>YourPhone -AllUsers | Remove-AppxPackage in PowerShell

```
Windows PowerShell
Copyright (C) Microsoft Corporation. All rights reserved.

Try the new cross-platform PowerShell https://aka.ms/pscore6

PS C:\Users\Admin> Get-AppxPackage Microsoft.YourPhone -AllUsers | Remove-AppxPackage in PowerShell
```

The screenshot shows a Windows PowerShell terminal window with a dark blue background. The title bar reads "Windows PowerShell". The text inside the terminal includes the copyright notice and a link to the new cross-platform PowerShell. The command prompt shows the user 'Admin' at 'C:\Users\Admin' typing the command: `Get-AppxPackage Microsoft.YourPhone -AllUsers | Remove-AppxPackage in PowerShell`. A red rectangular box highlights the command, and a red arrow points to the prompt area. A watermark "TipsMake.com" is visible in the background.

You press **Enter** > Restart the computer.

Above is information about the process yourphone.exe as well as how to disable it. Thank you for watching and see you in the following articles.
