In the past 2019, a series of social networking applications, operating systems, . in the world have been updated with the Dark Mode feature. The Dark Mode feature has become a trend and forced manufacturers to change accordingly to the needs of the user. Facebook is also one of the big guys being followed, Facebook founder has updated DarkMode for Messenger and WhatsApp, and the main product is Facebook is designing DarkMode. During the F8 - 2019 event, Facebook launched a Beta with DarkMode extremely beautiful and can be used by anyone.

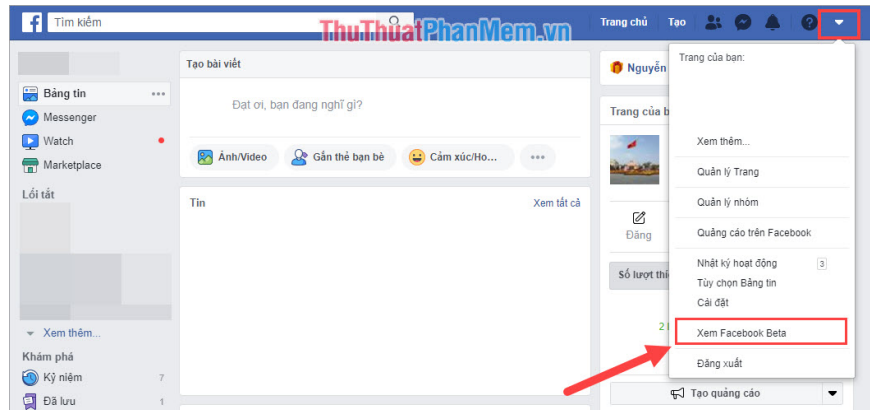

During the F8 - 2019 event, the Facebook founder announced the new interface of Facebook and the features they have improved to complete on the new interface platform. Not only has the interface been changed, the system also comes with the current (DarkMode) feature. However, currently the Beta version (experimental) is only for the lucky ones to experience, those who are not in the experience list, you will have to wait a while longer for Facebook to update for all people. use.

An invitation to try BETA version: ' *The new interface has been designed and refined with a new font of a larger size, helping users to quickly search for the necessary content.* '

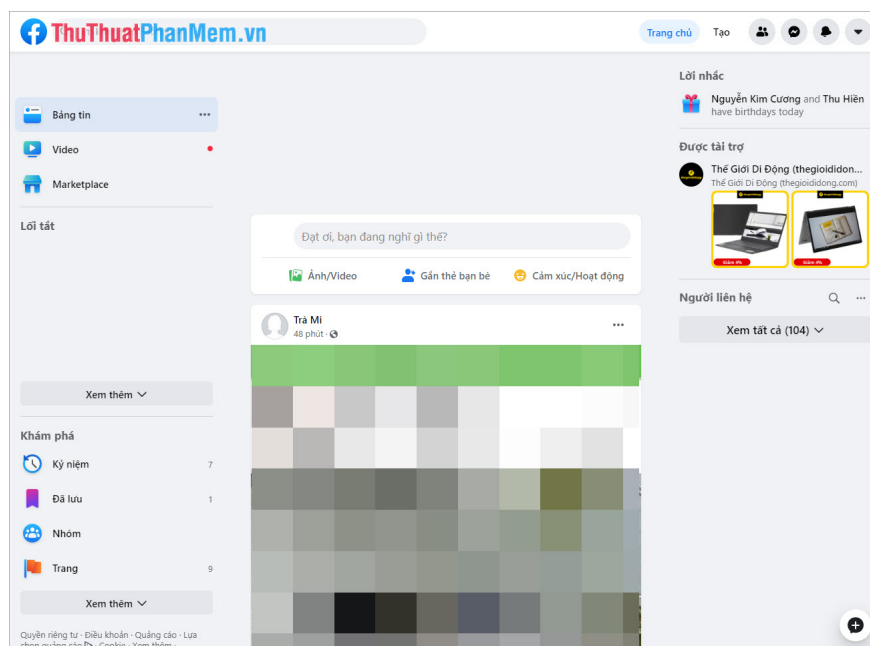

It is not clear in Vietnam how many accounts can use the BETA version, but let's try and enable the Dark Mode feature!

Step 1: You proceed to open Facebook in Web browsers. Then, click on the **Expand** icon (down arrow).

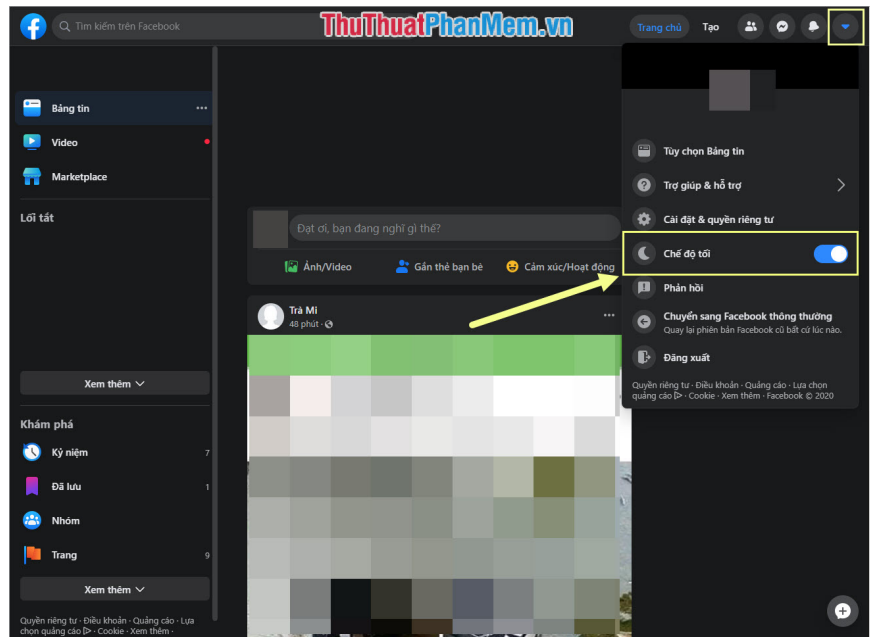

If in the **Extensions** section see **Facebook Beta** , you are on the list of new interface experiences of Facebook. Click on **View Facebook Beta** to change the new interface with Dark Mode feature. If you are not lucky enough to be on the list, don't worry, just a short time and **Facebook** will update for everyone.

After selecting View Facebook Beta finished, you will have a new interface like on mobile devices. They are much nicer and show more content.

Step 2: Next, click on the **Expand** icon (**down arrow**) and select **Dark Mode**. Immediately, your Facebook interface will be transferred to Dark Mode, so you experience the new features of Facebook!
