

How to turn on Reading View on Microsoft Edge Chromium

Reading View mode on Microsoft Edge Chromium is not available and users must activate it manually.

Currently most web browsers have Reading View mode so that we can easily focus more on web content. When the content is not related to the article such as advertising, navigation tools, menu bar does not appear on the page.

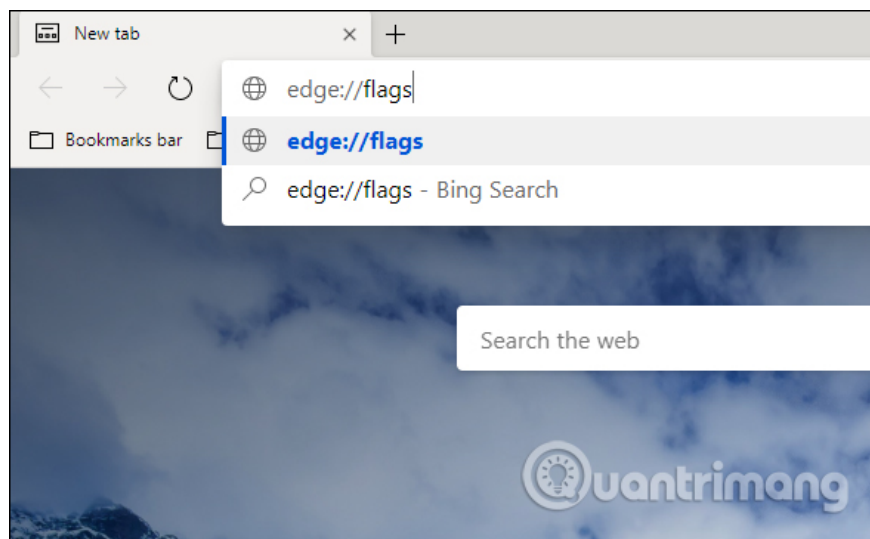

Reading View mode on Microsoft Edge is displayed in the browser address bar, via the book icon for quick activation. If you are using a new Microsoft Edge Chromium, you cannot see this Reading View icon in the address bar, but you must activate it manually. The following article will show you how to enable Reading View reading mode on Microsoft Edge Chromium.

1. How to turn on Reading Mode on Google Chrome
2. How to turn on Google Chrome's newspaper reading mode on Android
3. Experience Microsoft Edge of Chromium
4. How to turn on full screen mode when reading PDF files using Foxit Reader

Instructions for turning on reading mode on Edge Chromium

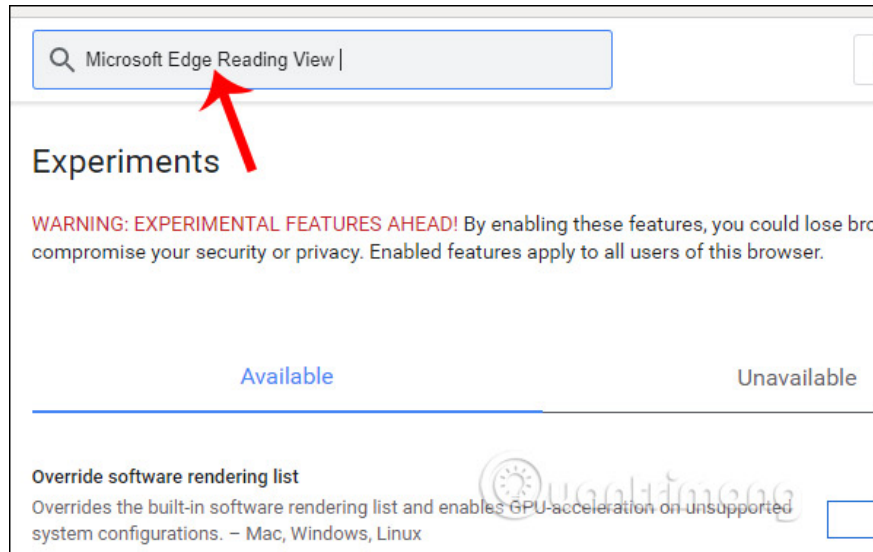

Step 1:

In the address bar, browse Microsoft Edge Chromium, user **enter edge: // flags** and press Enter to access.

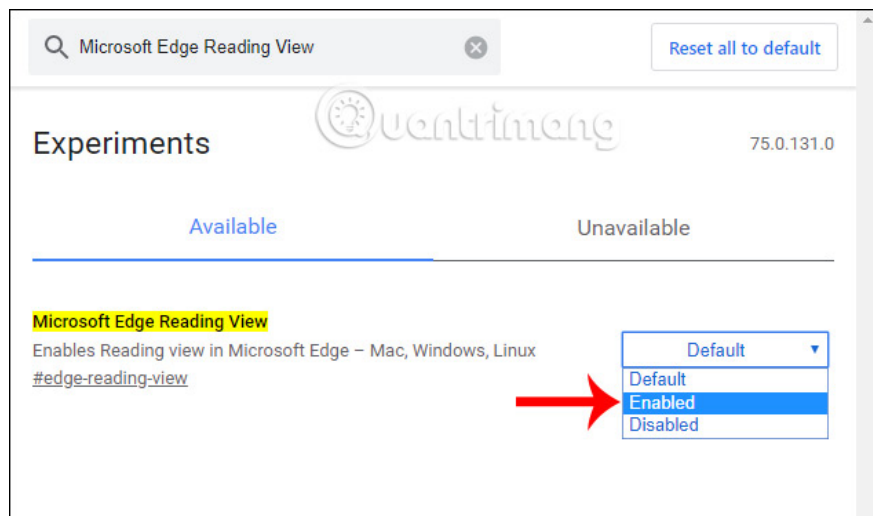

Step 2:

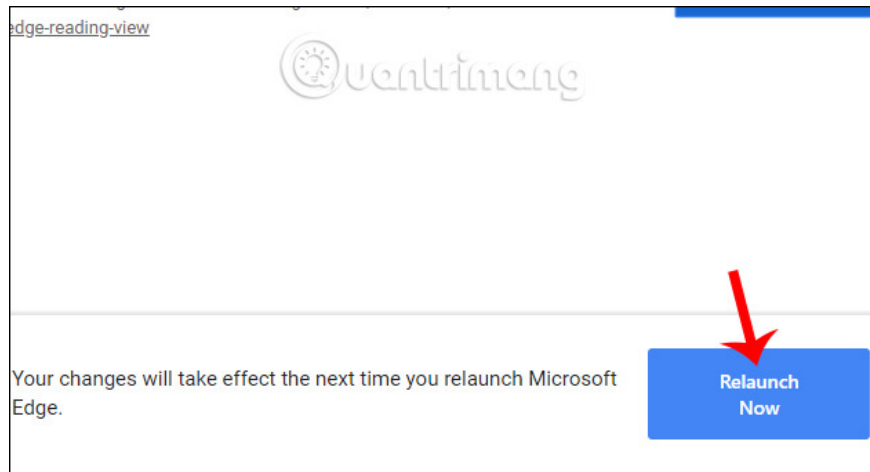

Switch to the new interface, enter the **Microsoft Edge Reading View** keyword into the search box and press Enter.

As a result, you will see the Microsoft Edge Reading View shown below. Here we change the **Default** to **Enabled mode** to enable reading mode on the browser.

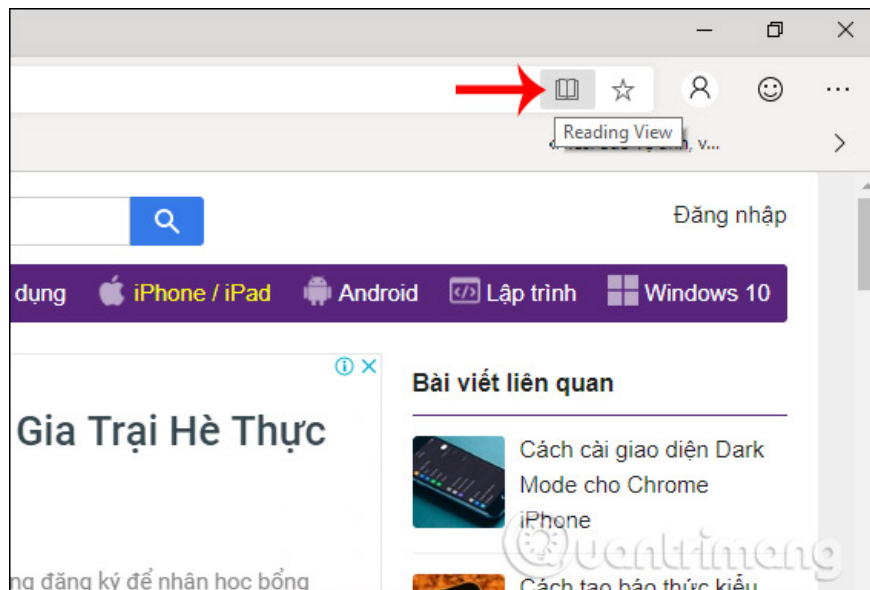

When the user is asked to restart the Edge Chromium browser for the change to be applied, press **Relaunch Now**.

Step 3:

Users reopen Edge Chromium browser and access any website and open the article content. You will immediately see **the Reading View icon** in the browser address bar as shown below.

Click on the icon to switch to reading mode. The web page interface will now disappear from other content but only display images and text content on the page. So we are not bothered to focus on reading the content, especially the ads on the website.

Tiếp đến bên dưới sẽ có thêm một số tùy chỉnh khác.

- Distance from the edge: điều chỉnh khoảng cách của thanh âm lượng với cạnh màn hình.
- Gradient: chỉnh màu gradient.
- Background: chỉnh màu nền background.
