

# How to turn on the call to grow louder on Android 10

The growing ringtone mode on Android 10 will avoid affecting other people when an incoming call.

Android 10 brings a lot of useful features, among them is Vibrate first then ring intellig. This feature will set the sound mode when an incoming call does not disturb others when you are in public or in the office. When someone calls the device will vibrate to notify you, then the new call sound gradually increases the volume but not at the default volume level as previous Android versions. This feature was previously available on Pixel 2, Pixel 3, Pixel 3a and Pixel 4. phones.

## Instructions to turn on Vibrate first then ring on Android 10

We access the Settings, select **Sound** and then **Vibrate for calls** . In the next interface there will be the option to set the vibration mode when an incoming call, click **Vibrate first then ring gradually** in the list is done.
