## Guide to turn on Dark theme on Office 2019

**Note that** when **you** activate the dark background Dark theme on an office tool such as Word, the other tools of Office will automatically apply that dark background without editing.

### Method 1: Activate the dark background in Options

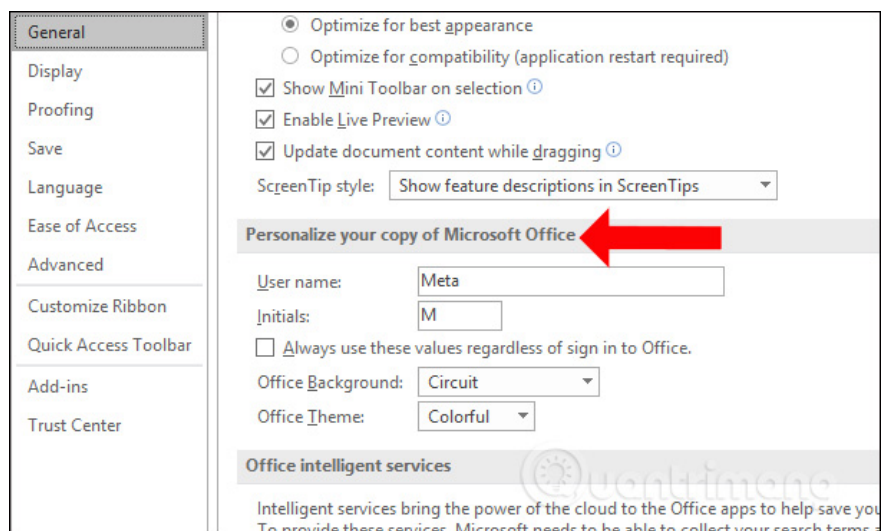

#### Step 1:

First, click on **the File item** on the Word interface. Click **the Options item** in the list on the left side of the screen.

### Step 2:

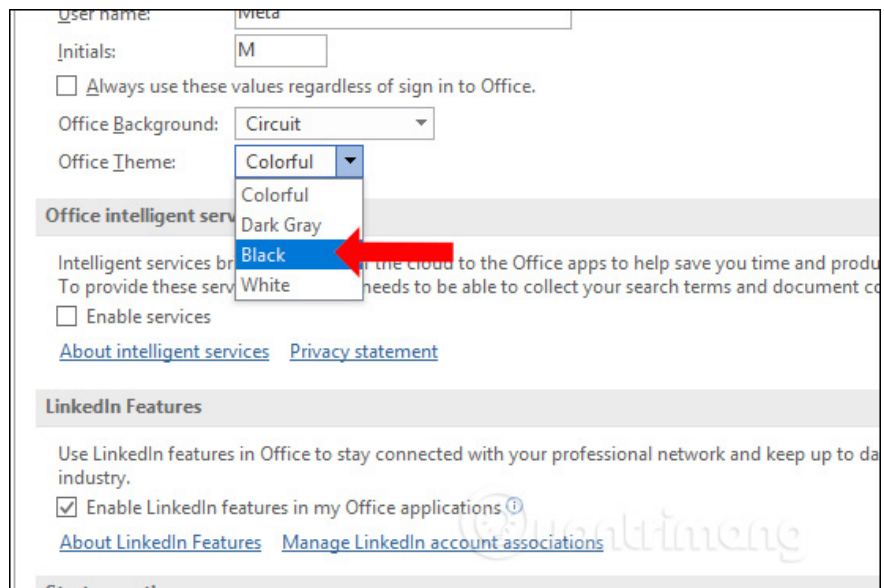

Display custom interface on Word. Here the user finds **the General group** and then looks to the right to find **Personalize your copy of Microsoft Office** .

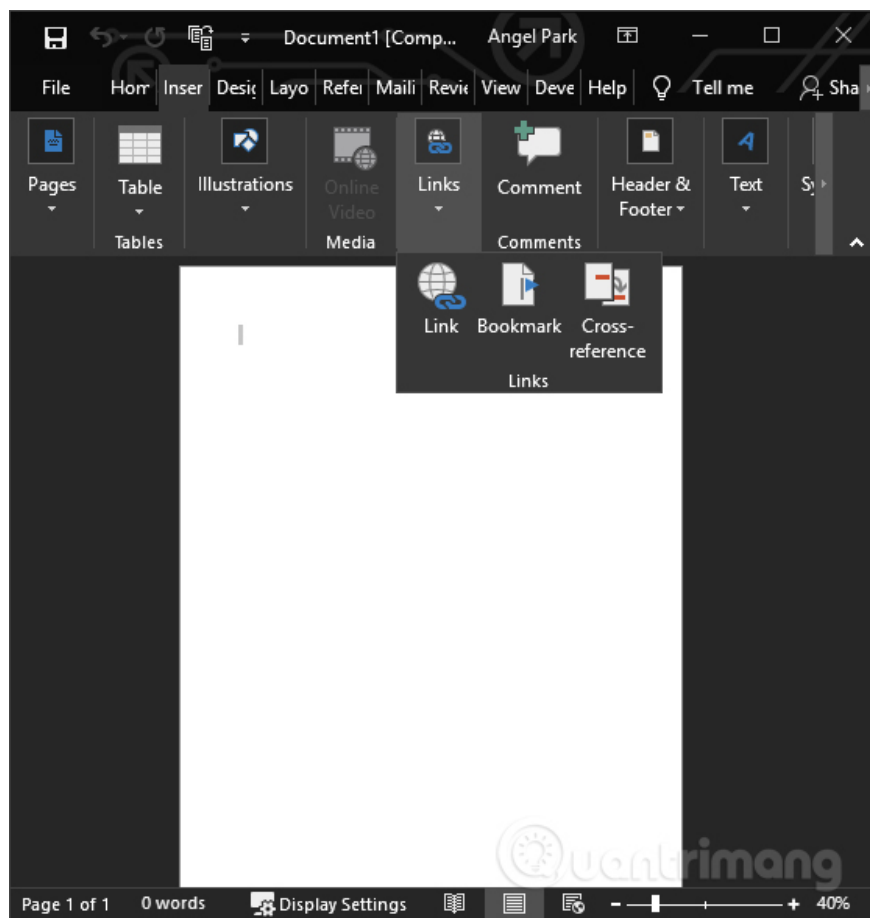

### Step 3:

In the Office Theme section by default, there is a Colorful color interface. To change to dark background theme Dark user, click on triangle icon and **select Black** .

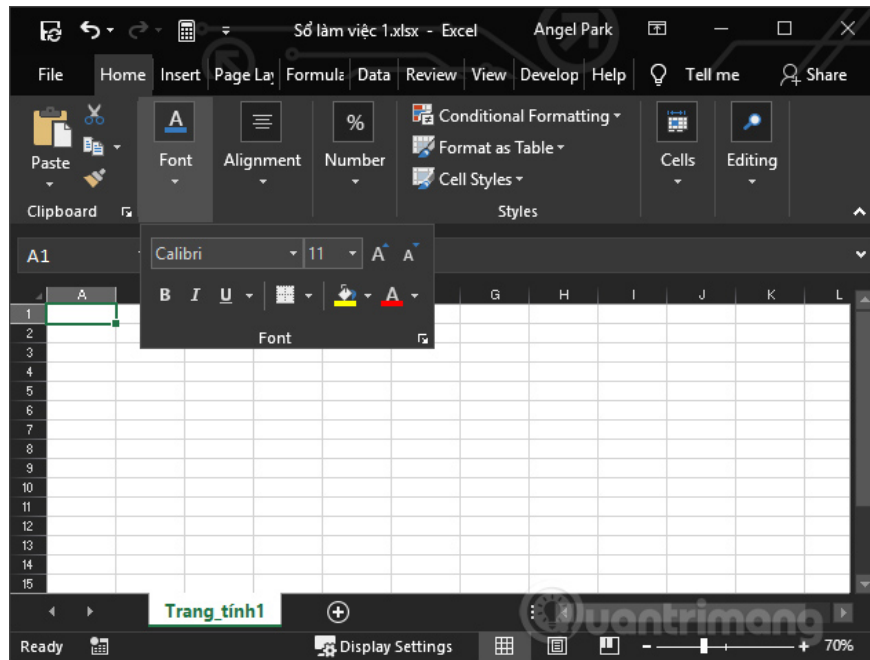

Finally click **OK** to save.

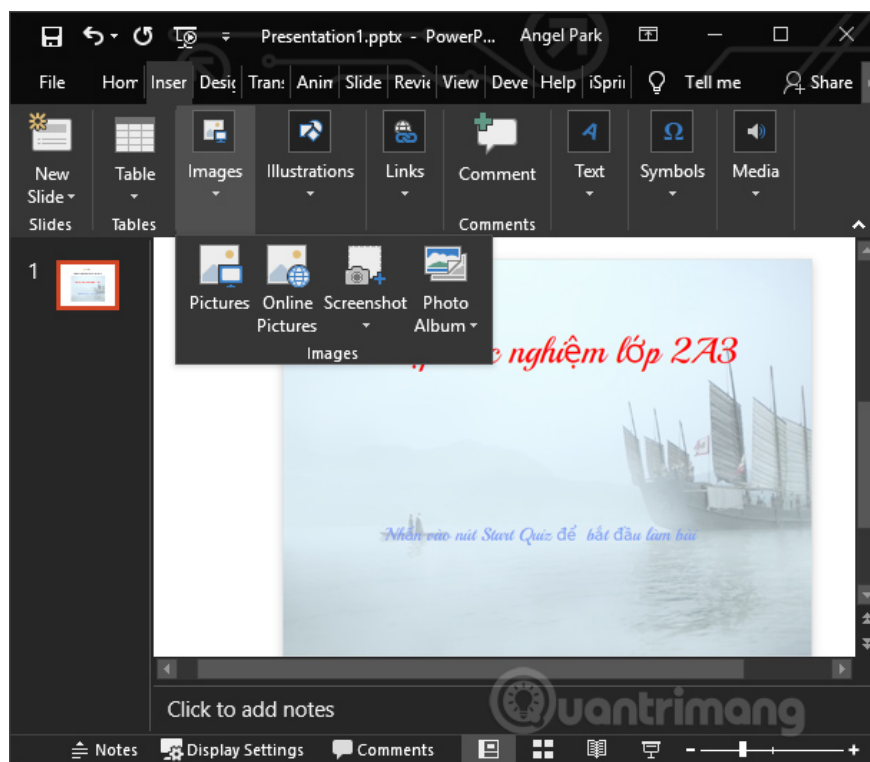

The interface results on Word will turn to black as shown below. Optional items will still be written with white text to make it easier to use.

Excel interface is also converted to black background as shown.

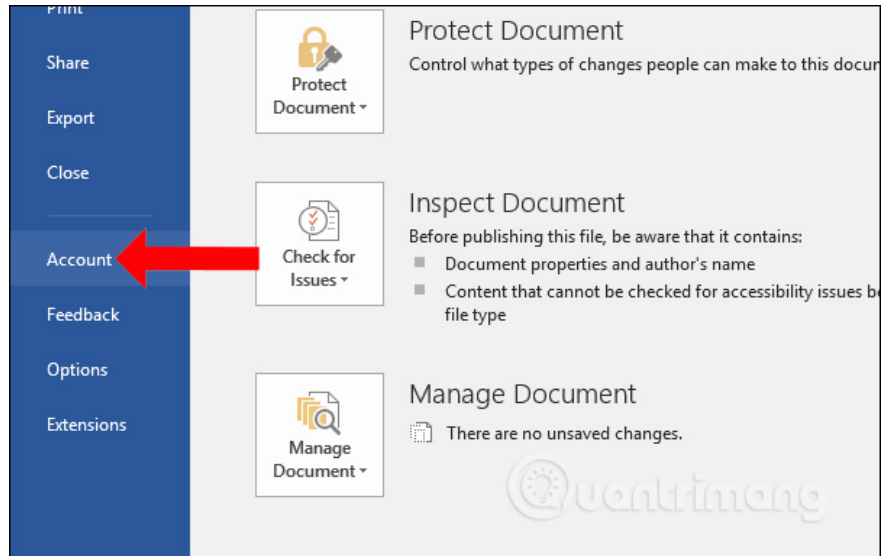

PowerPoint interface is also more fancy with a black background interface.

## Method 2: Turn on Office 2019 black background in Account

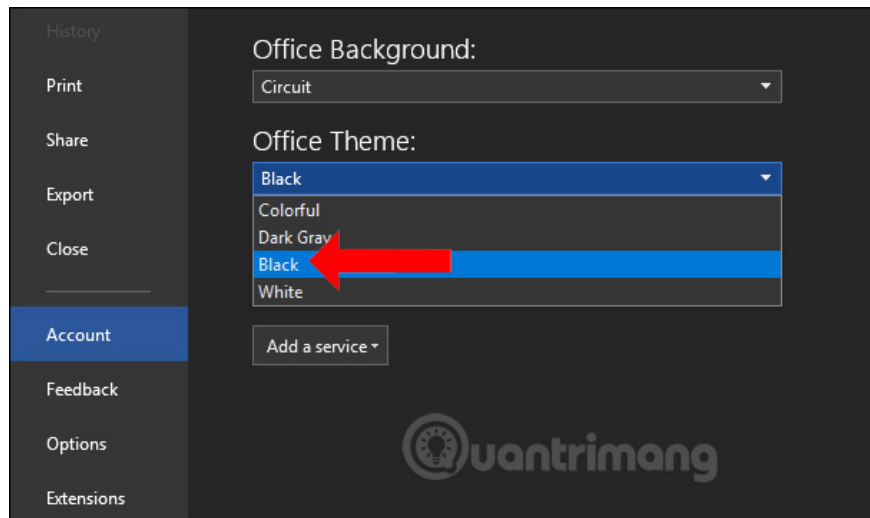

### Step 1:

In the Office 2019 interface, also click **the File item** to display the options list. Here click **Account** .

## Step 2:

Look at the interface next to the Office Theme section also click on the Black interface to switch to the dark background.

With 2 different ways of doing it, they have enabled the black and dark interface mode on Office 2019. This is one of the new features provided for Office 2019. You just need to change the black background with 1 tools in the office suite, other tools will automatically be applied.
