

How to unblock Messenger on phone, computer

Instead of manually unblocking Messenger, you should access the general management interface of blocked accounts on Messenger.

When you block Messenger, the other person cannot text or call you. If you want to contact again, you need to unblock Messenger. Instead of unblocking Messenger manually, you should access the general management interface of blocked accounts on Messenger. Below are instructions for unblocking Messenger on phones and computers.

Instructions to unblock Messenger on iPhone, Android

Step 1:

On the Messenger app interface, click on **the 3-dash icon** in the top left corner. Then click on **the gear icon** in the right corner.
