

# How to Uninstall Dropbox from Mac

Are you done using Dropbox on your Mac? Do you want to uninstall this software? Follow the steps in this article to ensure full cancellation.

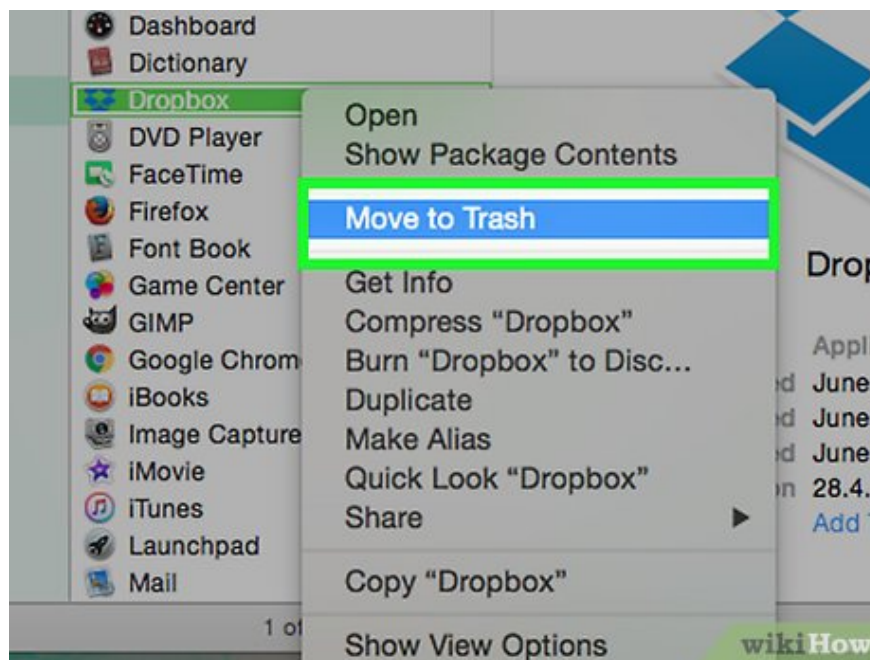

## Delete software and folders

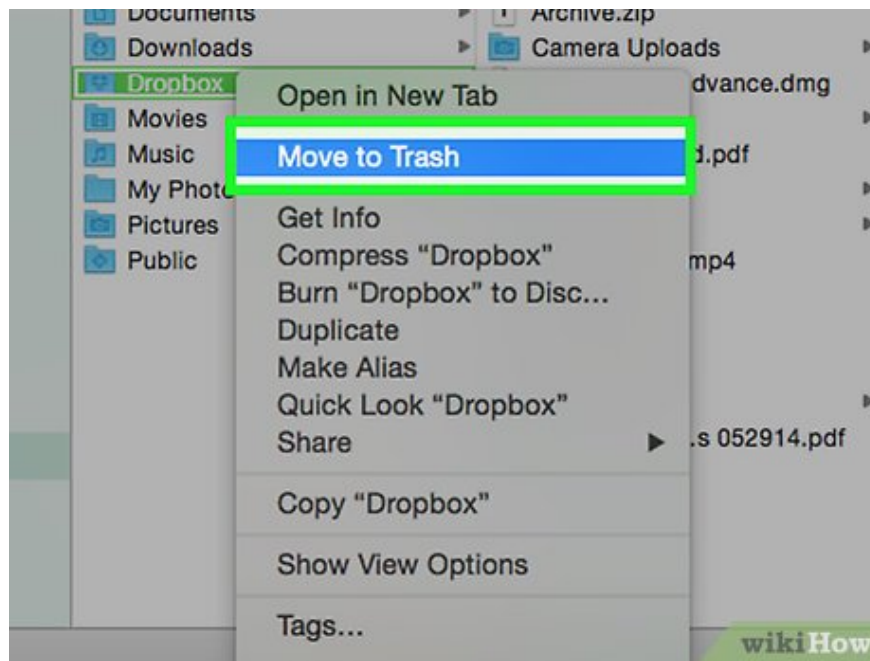

**Find Dropbox on the Mac menu bar.** Click the Dropbox icon.

**Close Dropbox.** Tap the Cog icon and then tap Quit Dropbox.

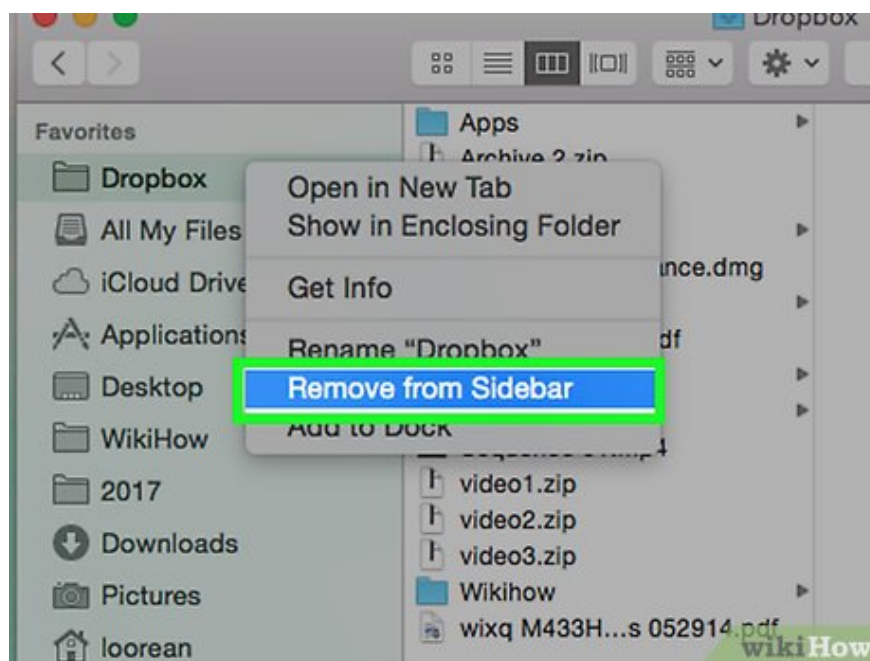

**Locate Dropbox in the Applications folder.** Delete by right clicking and selecting Move to Trash or dragging it to the Trash Can.

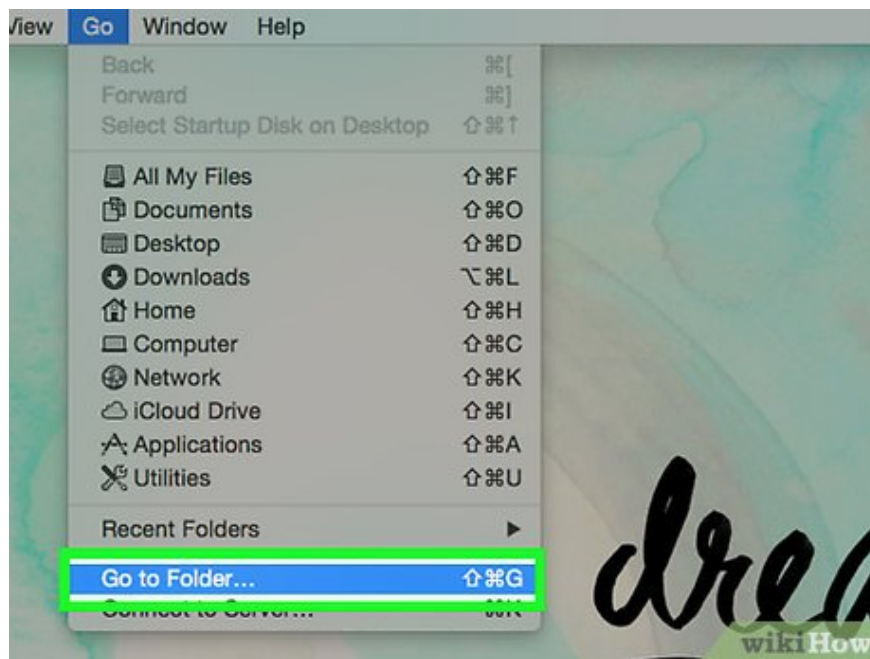

**Locate the Dropbox folder to delete, if desired.** Right-click the folder and select **Move to Trash** or drag it to the Trash Can.

Note that deleting a folder will also delete its contents. If these files are not already saved in the cloud in your Dropbox account, you may need to copy them to another secure folder before deleting the Dropbox folder.

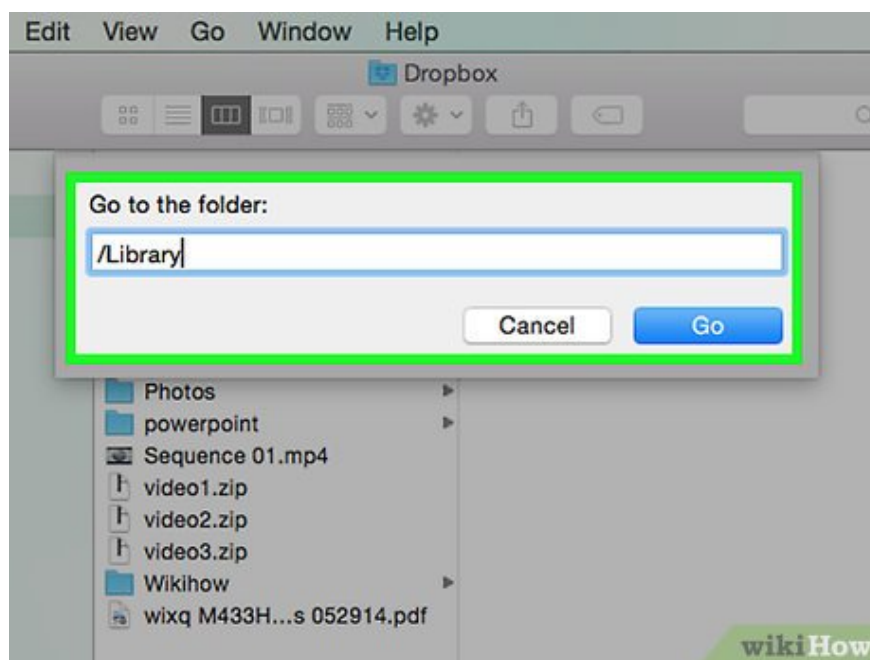

**Remove Dropbox from the Sidebar, if necessary.** If you want to do this, right-click on the Dropbox name and select **Remove from Sidebar**.

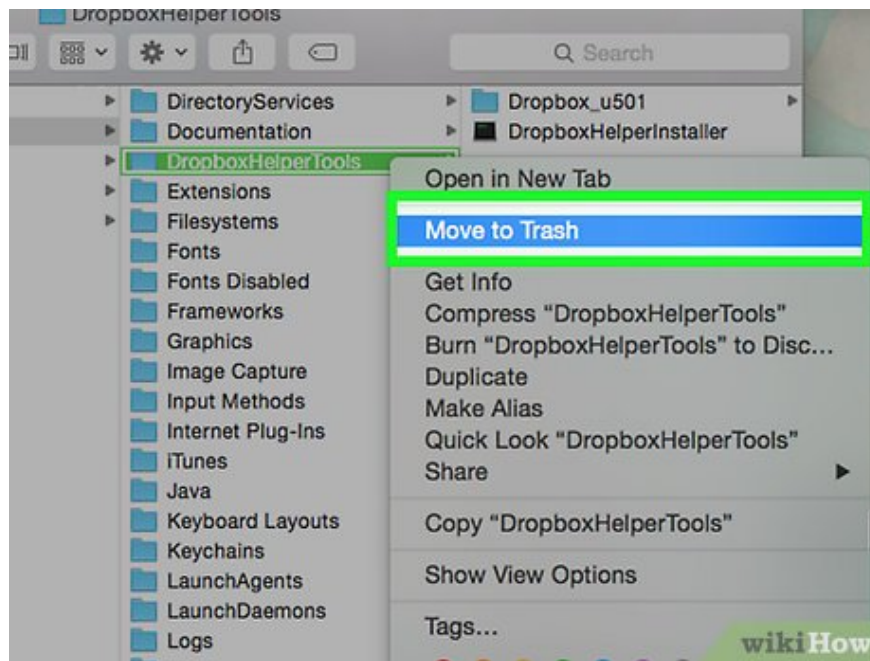

**Remove Dropbox context menu**

**Open Finder.** Tap Go and then tap Go to Folder, or hold down ? Shift+ ? Cmd+ G.

**Enter /Library and press Go .**

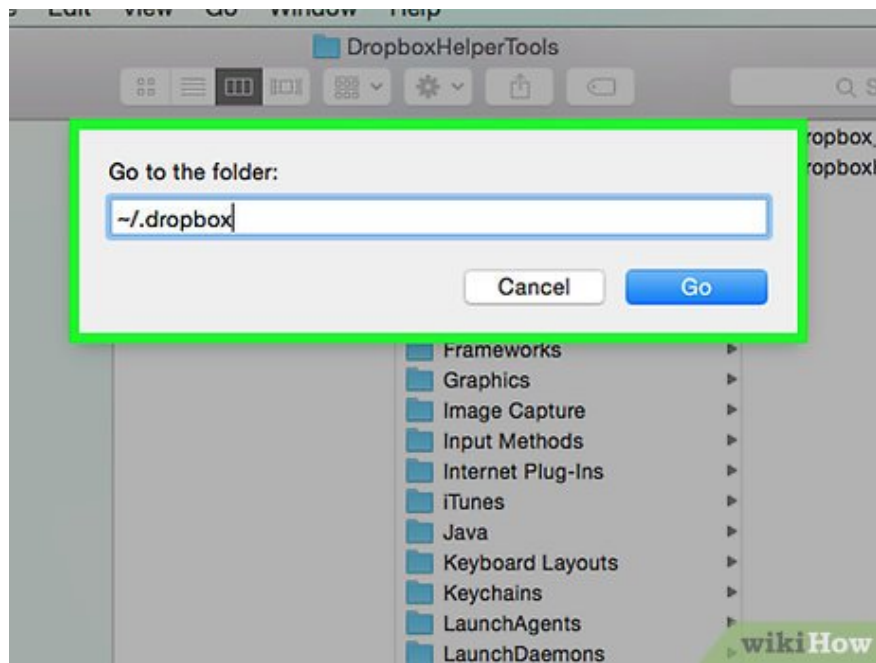

**Delete the DropboxHelperTools file by moving it to the Trash.** This will uninstall Dropbox, context menu from the system (if you have the app installed).

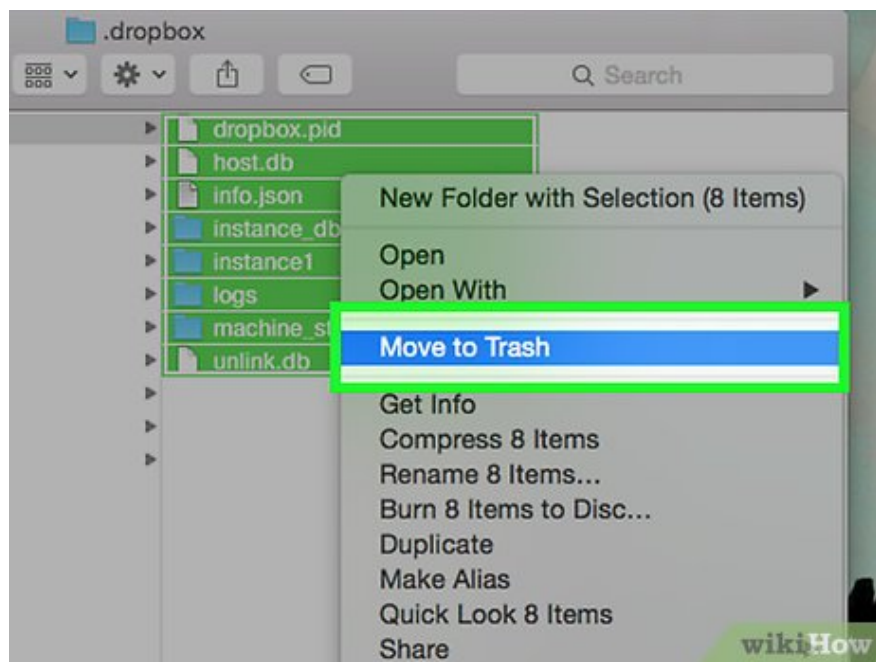

### **Delete Dropbox app settings**

**Open Finder.** Tap Go and then tap Go to Folder, or hold down ? Shift+ ? Cmd+ G.

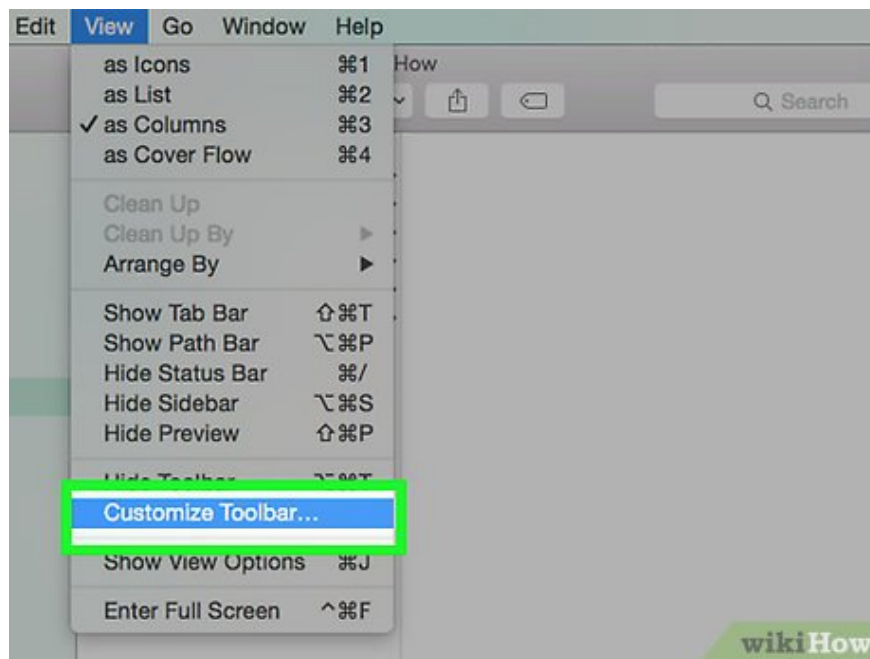

**Enter the Dropbox location.** Enter `~/ .dropbox` and press Go.

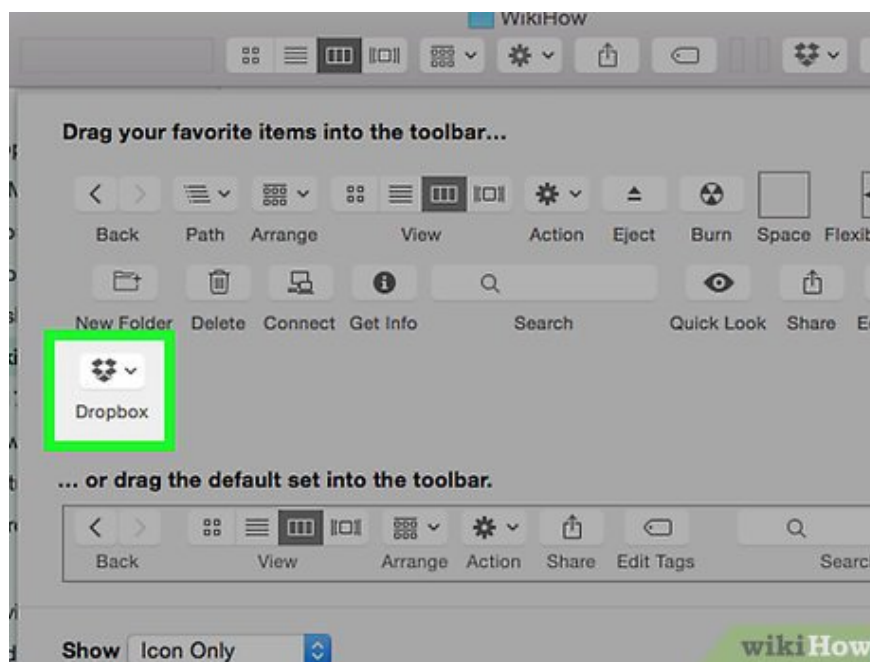

**Select all the contents of the ~/.dropbox folder and move them to the Trash.** This will remove the Dropbox app settings.

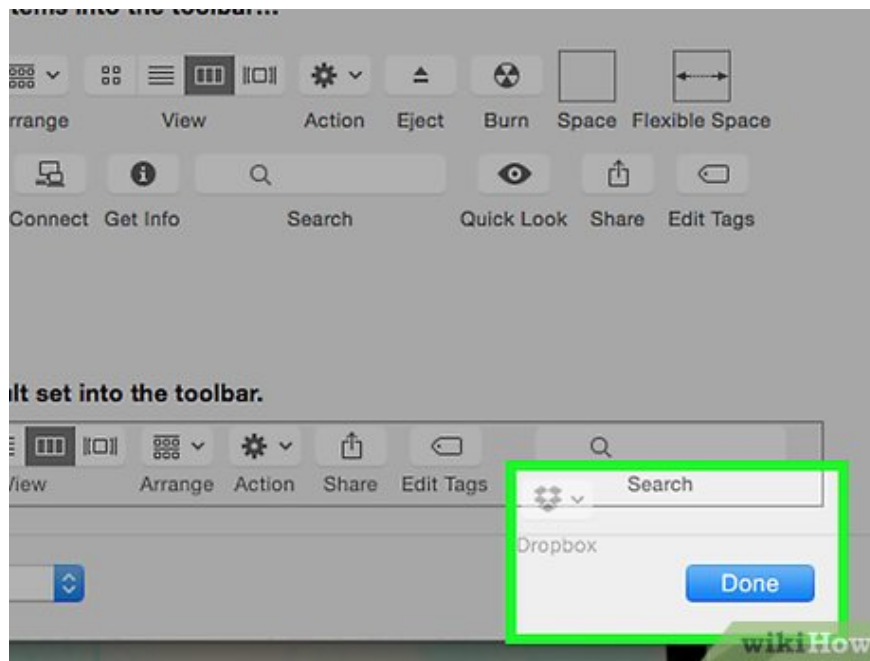

**Remove Dropbox from the Finder Toolbar**

**Open Finder.** Press View and then select Customize Toolbar.

**Locate the Dropbox icon in the current Toolbar set.**

**Press and hold the Dropbox icon.** Drag this icon down to the customization area and release to remove it. Then, press Done.
