

How to uninstall LinkiDoo

Are you looking for an effective solution to completely uninstall LinkiDoo and thoroughly delete all its files from your PC? Do not worry! This article will provide detailed instructions on how to completely uninstall LinkiDoo.

You need to uninstall LinkiDoo to fix some problems? Are you looking for an effective solution to completely uninstall this tool and thoroughly delete all its files from your PC? Do not worry! This article will provide detailed instructions on how to completely uninstall LinkiDoo.

Method 1: Uninstall LinkiDoo through Programs and Features

When you want to uninstall LinkiDoo, the first solution is to uninstall it via **Programs and Features** .

a. Open Programs and Features

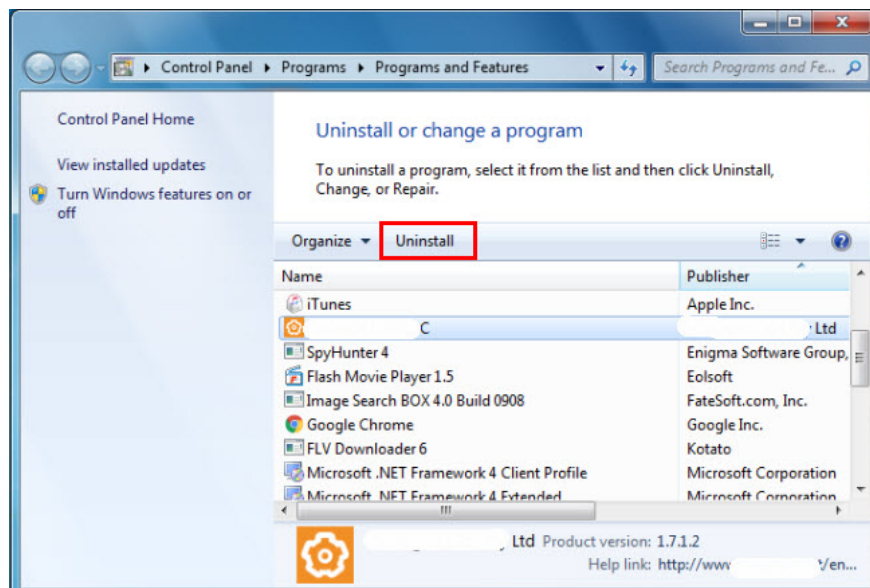

1. Windows Vista and Windows 7

Click **Start** , type **uninstall a program** in the **Search programs and files** box , and then click the result.

1. Windows 8, Windows 8.1 and Windows 10

Click Win+ X, then click **Programs and Features** .

b. Find LinkiDoo in the list, click it and then select **Uninstall** to start uninstalling.

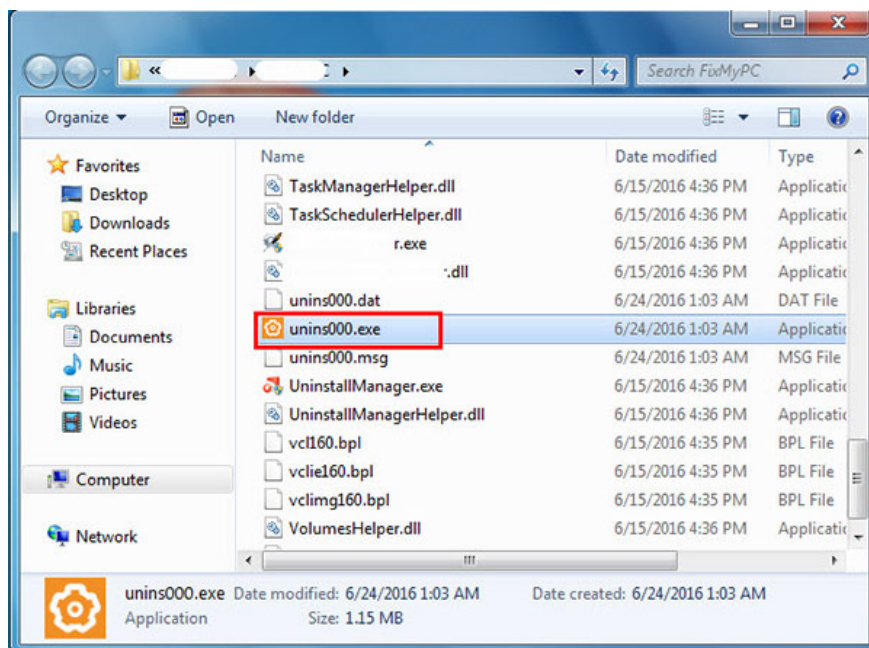

Find LinkiDoo and select Uninstall to start uninstalling

Method 2: Uninstall LinkiDoo with uninstaller.exe

Most computer programs have an executable file named **uninst000.exe** or **uninstall.exe** , or something similar. You can find these files in the installation directory of LinkiDoo.

- a. Go to the installation directory of LinkiDoo.
- b. Find **uninst000.exe** or **uninstall.exe**.

Find uninst000.exe or uninstall.exe

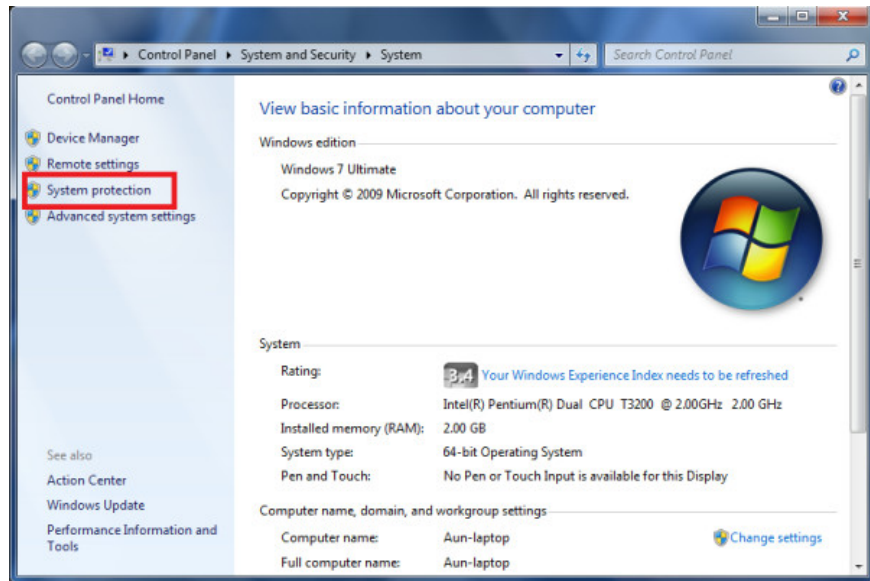

- c. Double click on its uninstaller and follow the wizard to uninstall LinkiDoo.

Method 3: Uninstall LinkiDoo through System Restore

System Restore is a utility that comes with the Windows operating system and helps computer users to restore the system to a previous state, while removing programs that interfere with the operation of the computer.

If you created a system restore point before installing the program, you can use System Restore to restore the system and completely remove unwanted programs like LinkiDoo. You should back up files and personal data before performing System Restore.

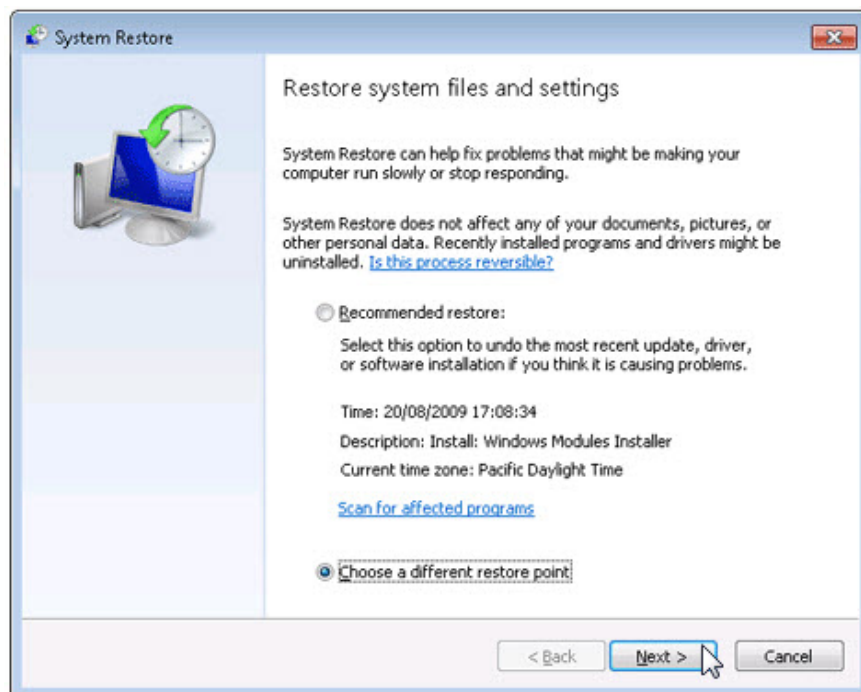

- a. Close all open files and programs.
- b. On the desktop, right-click **Computer** and select **Properties** . The **System** window will display.
- c. On the left side of the **System** window , click **System protection** . The **System Properties** window will display.

Click on System protection

d. Click on **System Restore** and the **System Restore** window will display.

e. Select **Choose a different restore point**> **Next** .

Select Choose a different restore point

f. Choose a date and time from the list, then click **Next**. You should know that all programs and drivers installed after the selected date and time may not work properly and need to be reinstalled.

g. Click **Finish** when the **Confirm your restore point** window appears.

H. Click **Yes** to confirm again.

Method 4: Uninstall LinkiDoo with anti-virus software

If you can't delete LinkiDoo like any other program, then check to see if it's malware. Refer to the list of trusted antivirus programs that **TipsMake.com** has suggested.

Method 5: Reinstall LinkiDoo to uninstall

When the file required to uninstall LinkiDoo is corrupt or missing, the program cannot be uninstalled. In such a case, reinstalling LinkiDoo may help. Run the installer in the original disc or download file to reinstall the program. Sometimes, the installer may allow you to repair or uninstall the program.

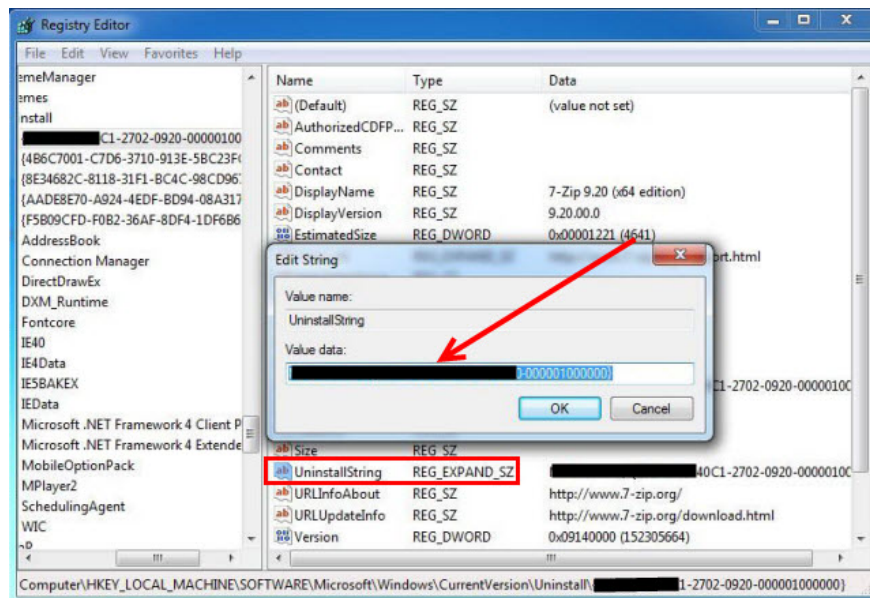

Method 6: Use the Uninstall command shown in the Registry

When a program is installed on the computer, Windows stores its settings and information in the Registry, including commands to uninstall the program. You can try this method to uninstall LinkiDoo. Be careful to edit the Registry carefully to avoid causing the system to stop working.

- Press **Win+ R** to open the **Run** command , type **regedit** in the box, and click **OK**.
- Navigate the following registry key and find the LinkiDoo key:

HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Windows\CurrentVersion\Uninstall

- Double click the **UninstallString** value and copy its **Value Data** .

Double click the UninstallString value and copy its Value Data

- Hold **Win+ R** to open the **Run** command , paste **Value Data** in the box and click **OK**.
- Follow the instructions to uninstall LinkiDoo.

Method 7: Uninstall LinkiDoo with a third-party uninstaller

Manually uninstalling LinkiDoo requires patience and it is unlikely that the software will be completely removed. If you want to completely remove LinkiDoo from your system, you can try a third-party uninstaller.

1. Download Special Uninstaller
