

How to Uninstall QuickTime on Windows

QuickTime was abandoned by Apple a while ago. With a couple security flaws and plenty of other solutions out there, it might seem desirable to uninstall QuickTime. This article will guide you through the QuickTime uninstallation process....

Method 1 of 3:

Windows 10

1. **Right-click the Start button (bottom left corner of the screen) to open the WinX menu.** Alternatively, hit the Windows key + X.
2. **Locate and click "Apps and Features".** You can also just hit "F" while the WinX menu is open.
3. **Scroll down or search for QuickTime.**
4. **Select QuickTime and hit uninstall.**
5. **Confirm the selection.** It should only take about 10 seconds to uninstall.

Method 2 of 3:

Windows Vista or Windows 7

1. **Click the Start button, click Control Panel, and click the *Uninstall a program* link (grouped under the *Programs* category).** (If you are in Classic View, simply click *Programs and Features*.)
2. **Scroll down until you see QuickTime.**
3. **Click on *Uninstall* or *Remove*.**
4. **Click the Yes button, and then click OK after a while.**
5. **Close Control Panel.**

Method 3 of 3:

Windows XP

1. **Click the Start button, click Control Panel, and then click Add or Remove Programs.**
2. **Scroll down until you see QuickTime.**
3. **Click QuickTime, click the Remove button, and then click Yes.**
4. **Click OK, and close the Add or Remove Programs window.** You can also re-download it from Apple.com.
