

# How to Uninstall Razer Synapse on PC or Mac

This wikiHow teaches you how to uninstall Razer Synapse on a Windows or Mac computer. Razer Synapse is a cloud-based configuration software for Razer accessories so you can instantly load your mouse and keyboard presets on any...

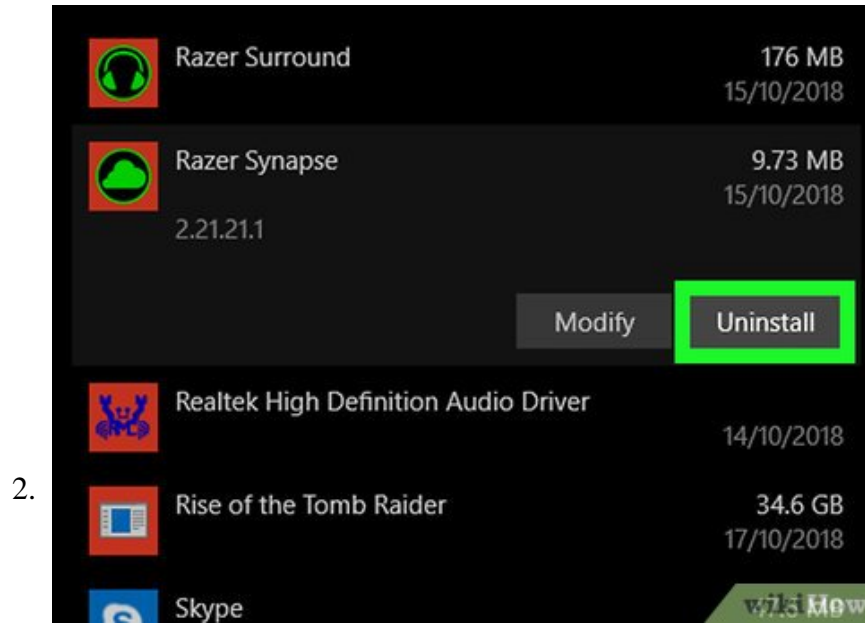

Method 1 of 2:

## On Windows

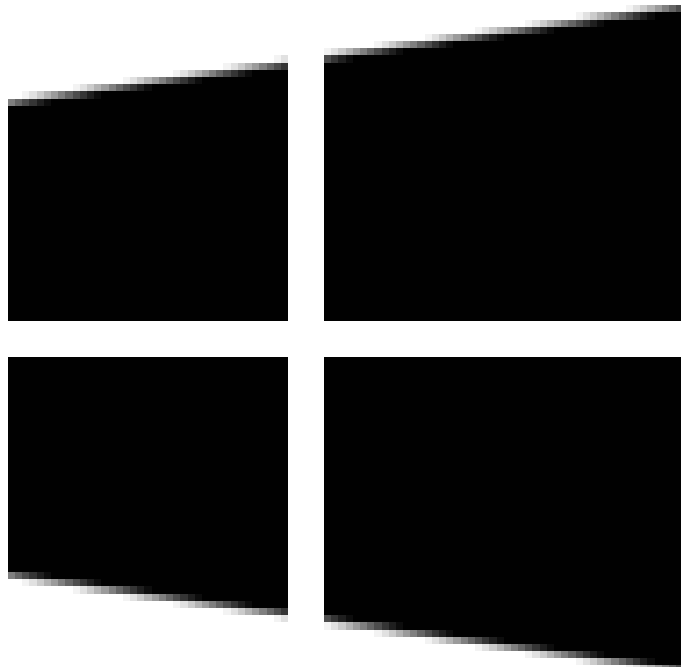

**Close Razer Synapse.** It's a green icon that resembles a cloud in the bottom-right corner of the system tray.

1. Right-click the Razer Synapse icon (click ? first if it's not visible).
2. Click **Close Razer Synapse**.

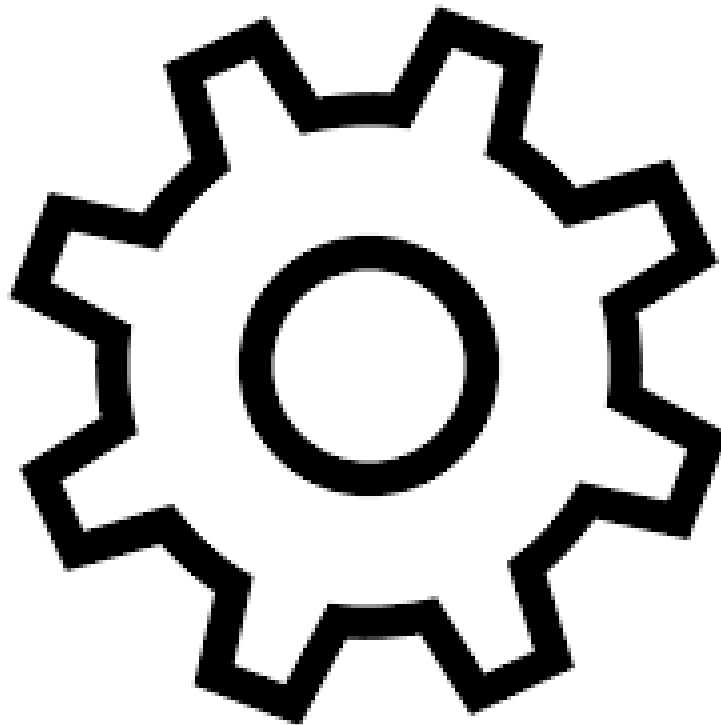

**Uninstall Razer Synapse.** You can uninstall Razer Synapse using the Uninstall file in the Razer Synapse directory, or use the following steps.

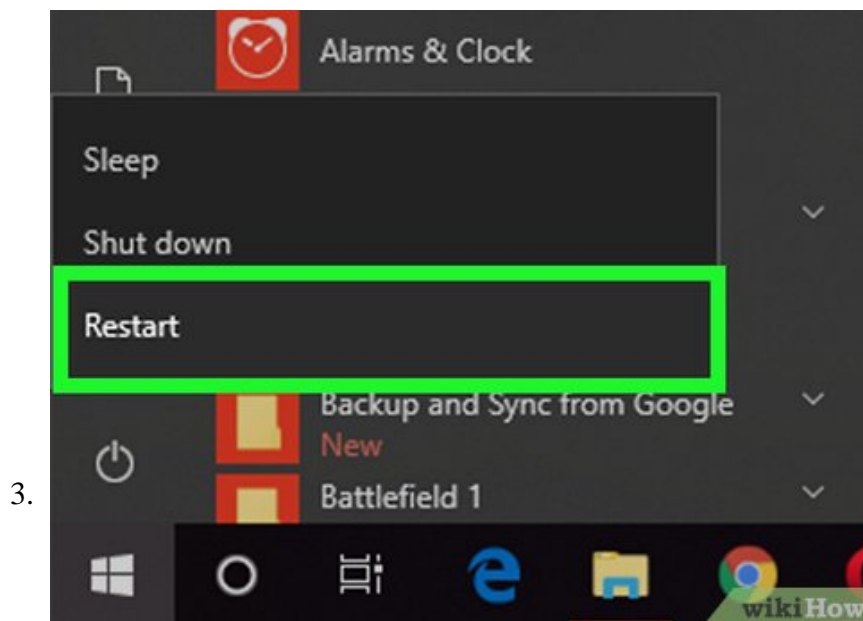

1. Open **Start**

2. Click **Settings**

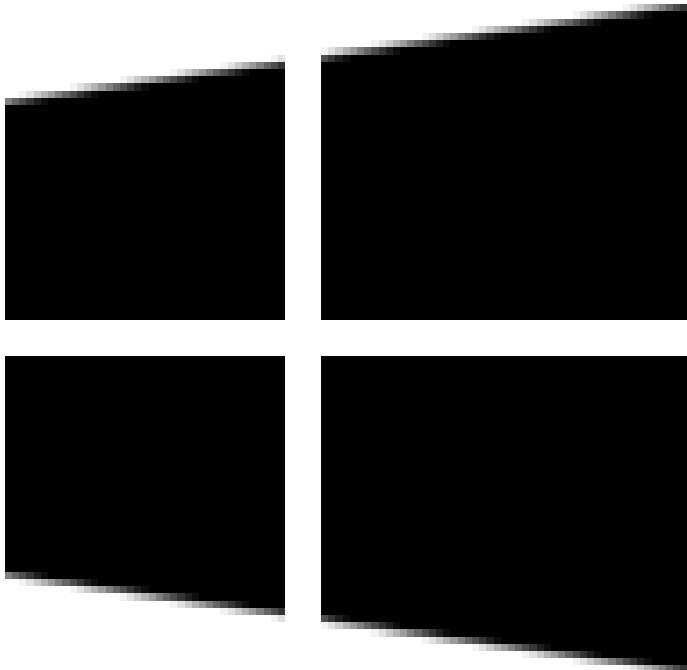

3. Click **Apps**.
4. Scroll down and select **Razer Synapse**.
5. Click **Uninstall**.
6. Click **Uninstall** to confirm.

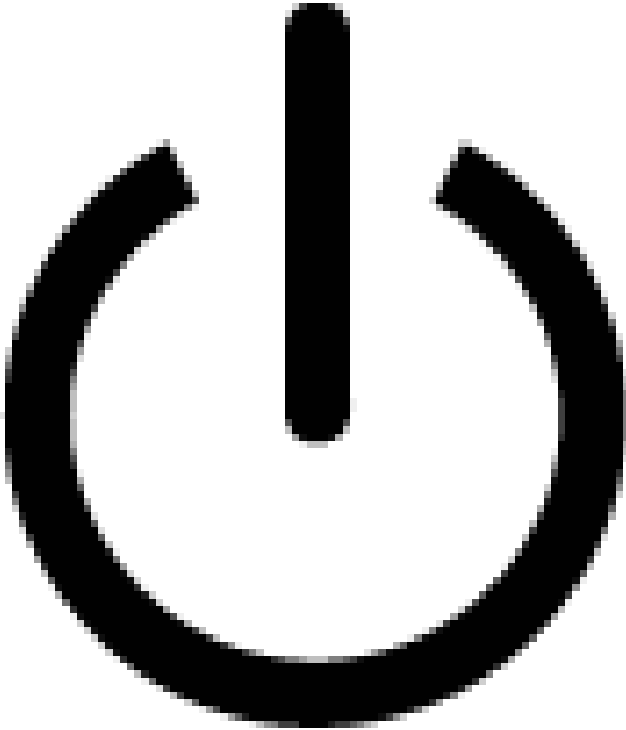

**Restart your computer.** If Razer Synapse is no longer on your computer, stop right here. If it continues to be a problem, there may still be some remnants of it in your registry. Backup your files and continue with the next steps. <sup>[2]</sup> Use the following steps to restart your computer.

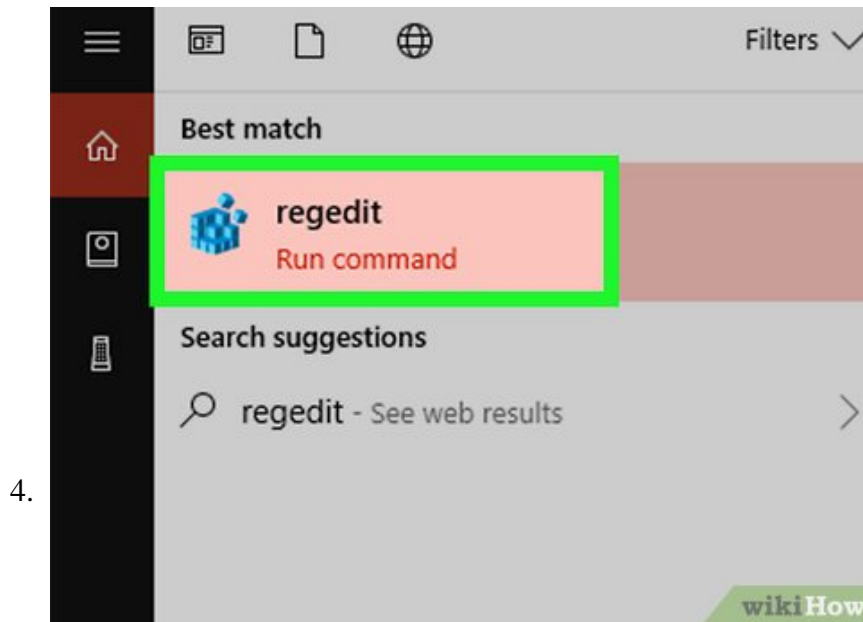

1. Click **Start**

2. Click the **Power icon**

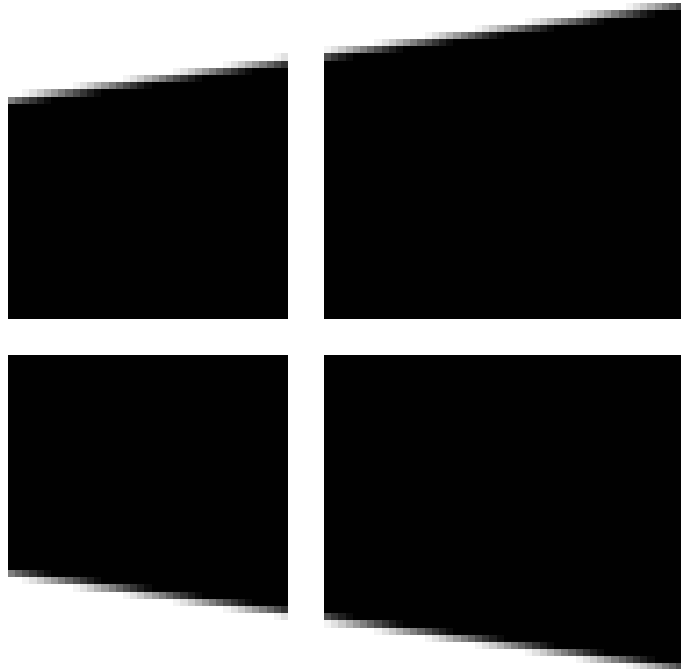

3. Click **Restart**.

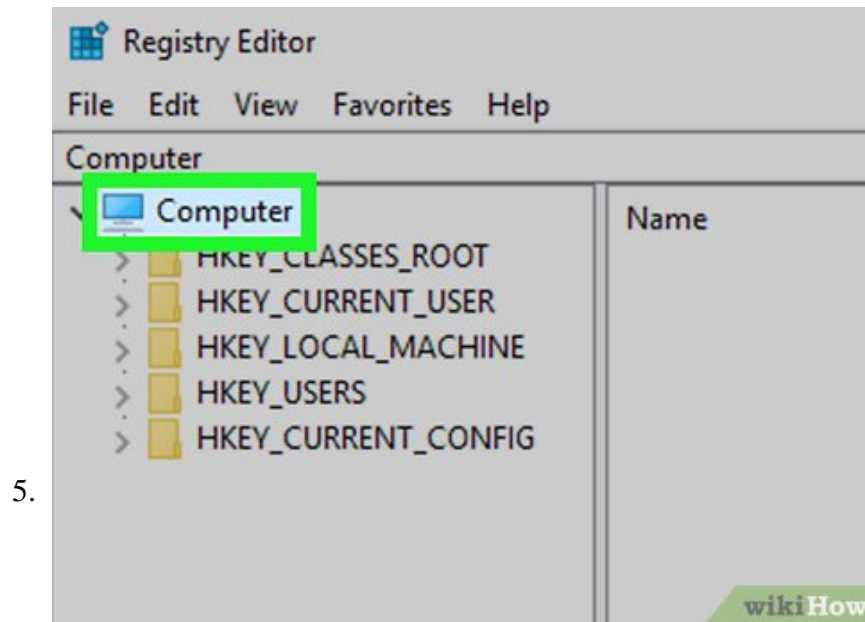

**Launch the Registry Editor app.** It's the app that has an icon of blue cubes. Use the following steps to launch the Registry editor.

1. Click **Start**

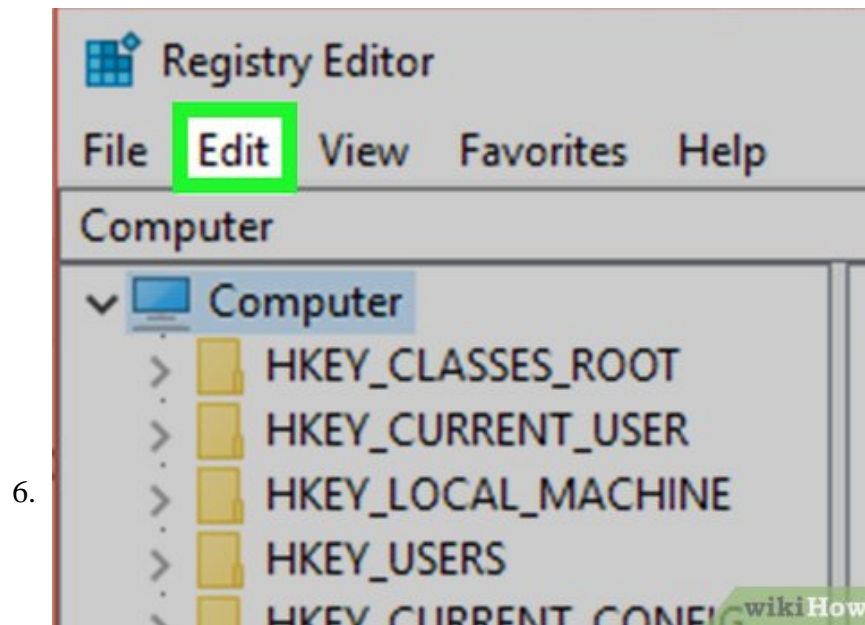

2. Type `regedit`.

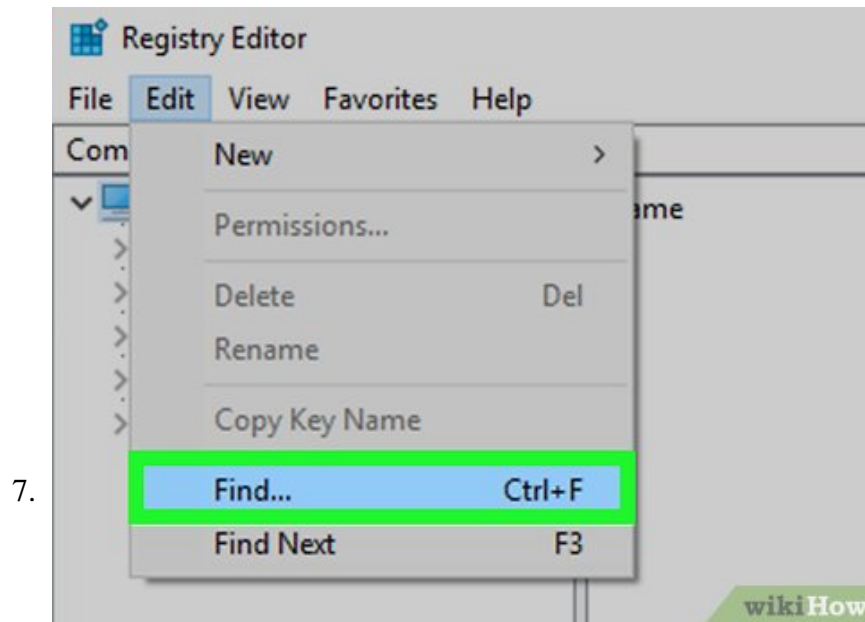

3. Click the **Registry Editor** app.

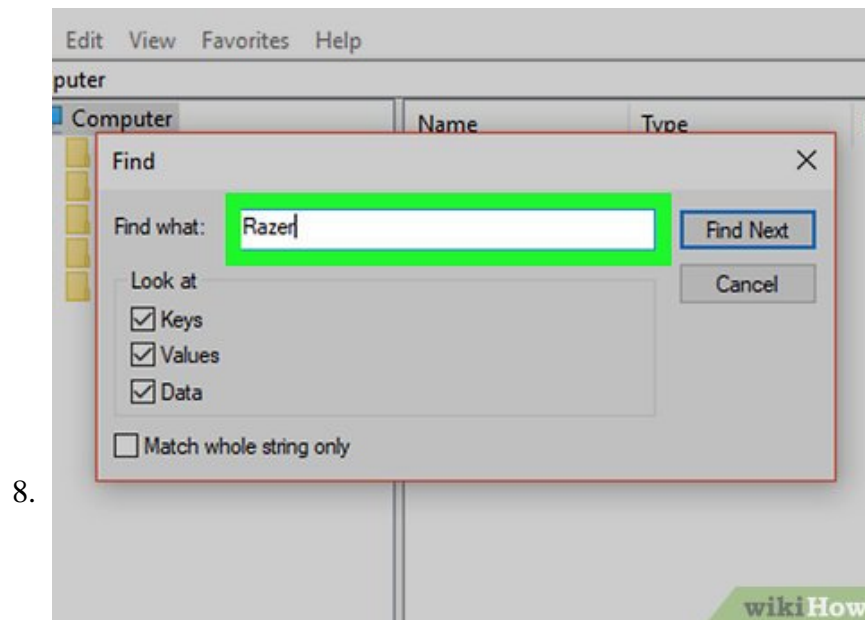

Click **Computer**. It's at the top of the registry editor sidebar on the left.

Click **Edit**. It's the second option in the menu bar at the top.

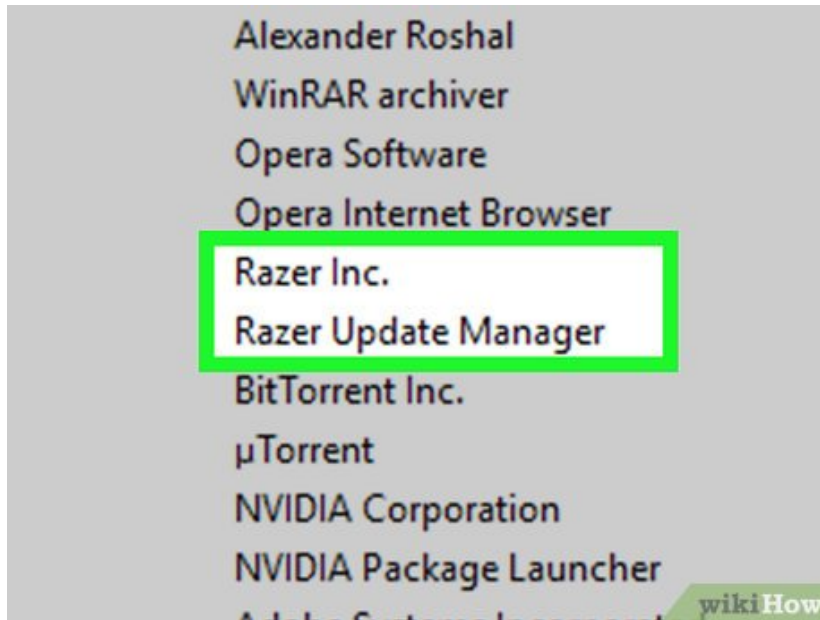

Click **Find**. It's in the edit menu. This will open a search bar.

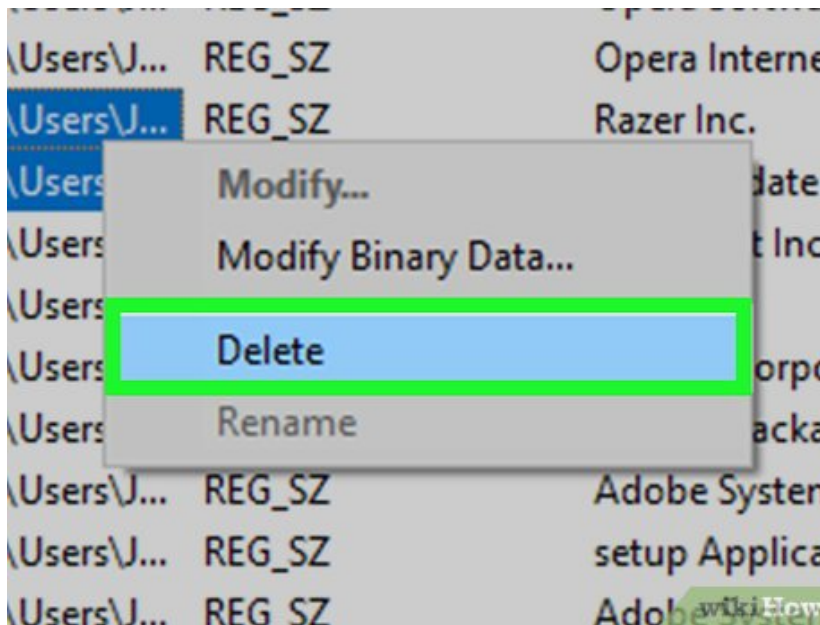

Type **Razer** in the search bar and press **Enter**. This will search for any items from Razer.

9.

**Right-click any items from Razer.** They will say "Razer inc" in the data column.

10.

Click **Delete**. This will delete the registry item.

1. **Warning:** Be careful what you delete from the registry. Deleting the wrong items can cause your system to not function properly.

11.

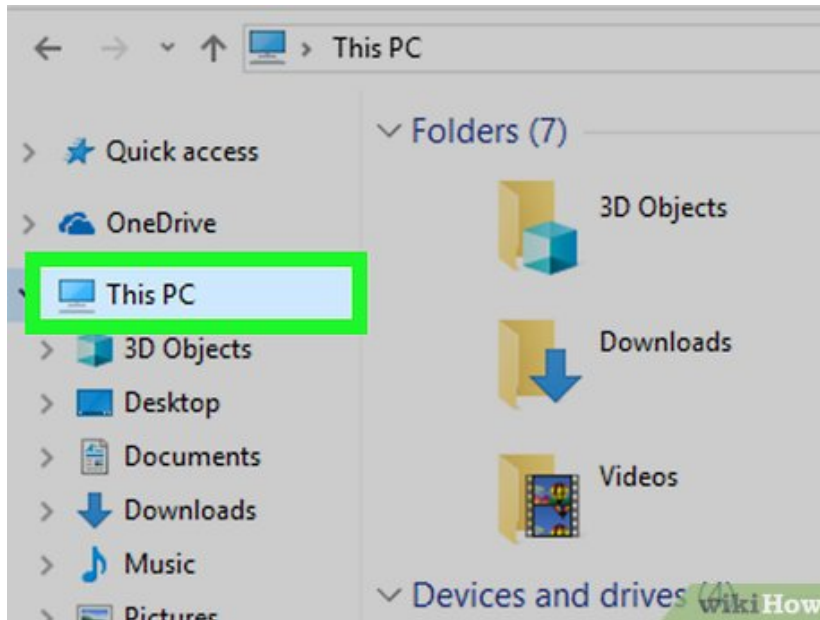

Click

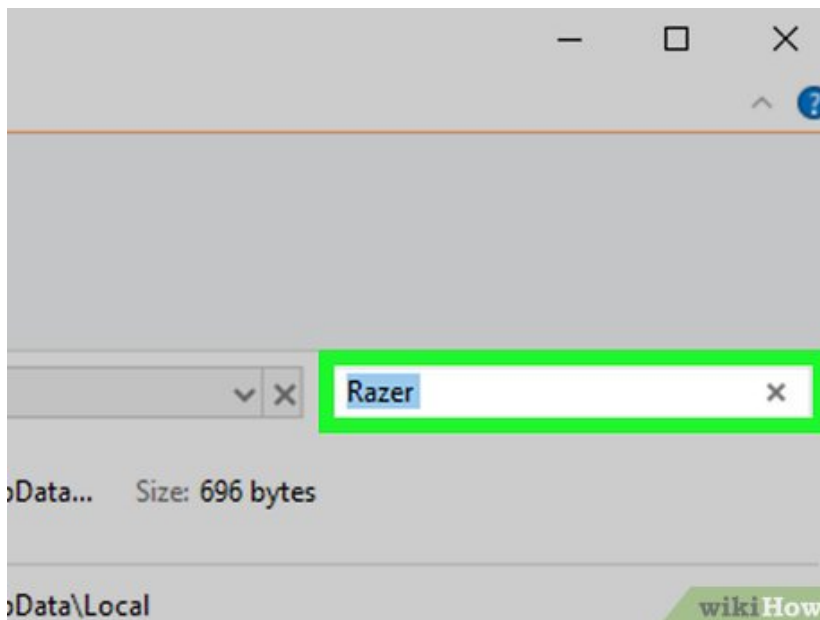

. The icon that resembles a folder in the taskbar is the File Explorer.

12.

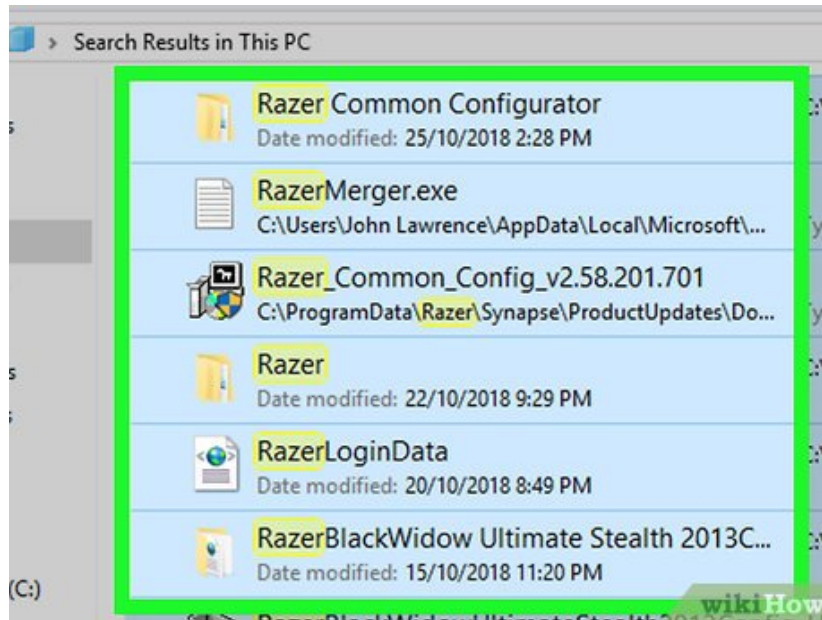

Click **This PC**. This will open your root menu on your computer.

13.

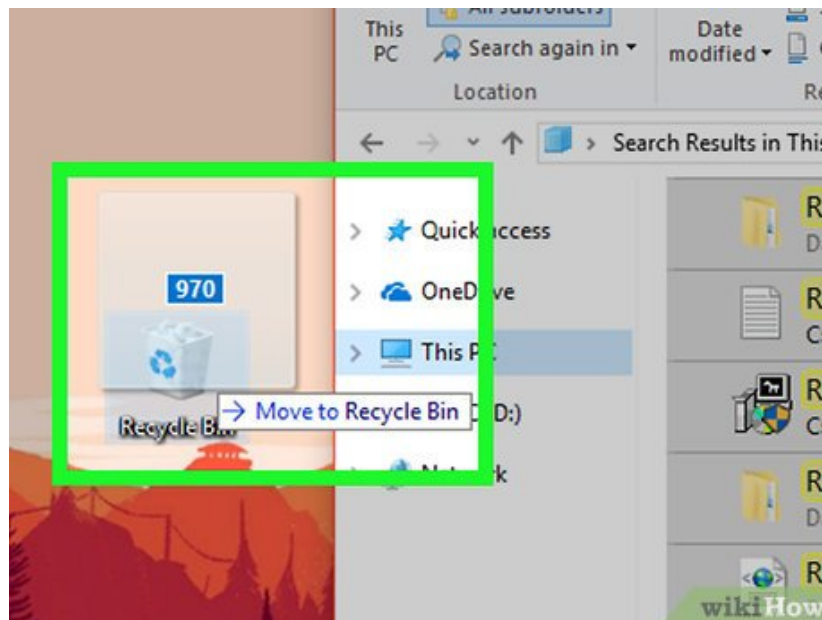

Type **Razer** in the search bar and press **Enter**. The search bar is in the upper-right corner of the File Explorer. This will search for any remaining items from Razer on your computer. The search may take a few minutes.

14.

**Select all items.** Hold **Shift** and click to select more than one item.

15.

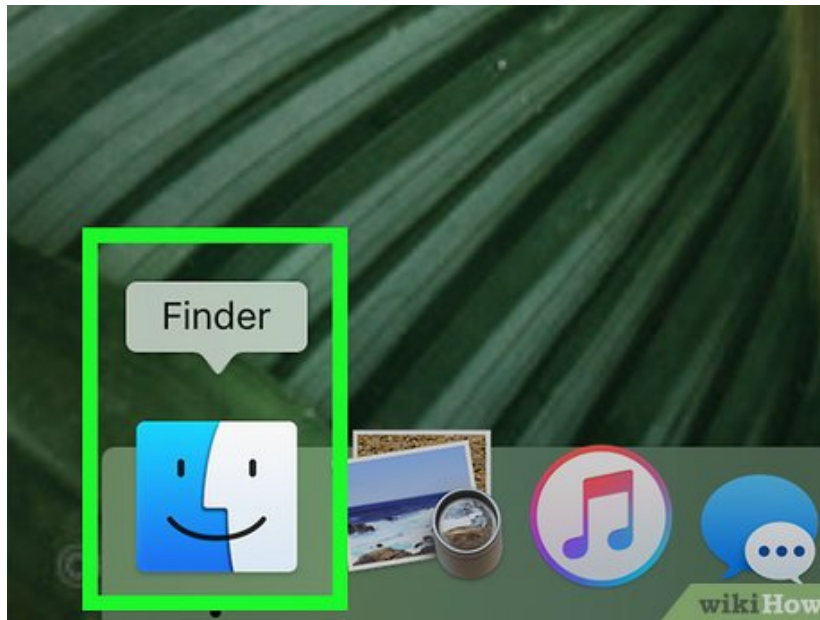

**Drag items to the recycling bin.** The recycling bin is in the upper-left corner of your Desktop. This will delete all remaining Razer items.

Method 2 of 2:

**On Mac**

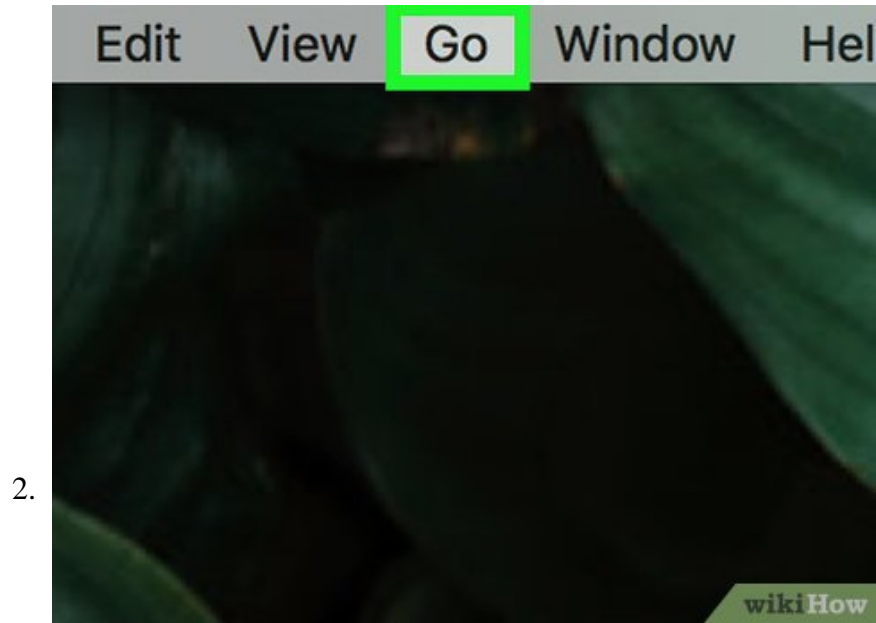

1.

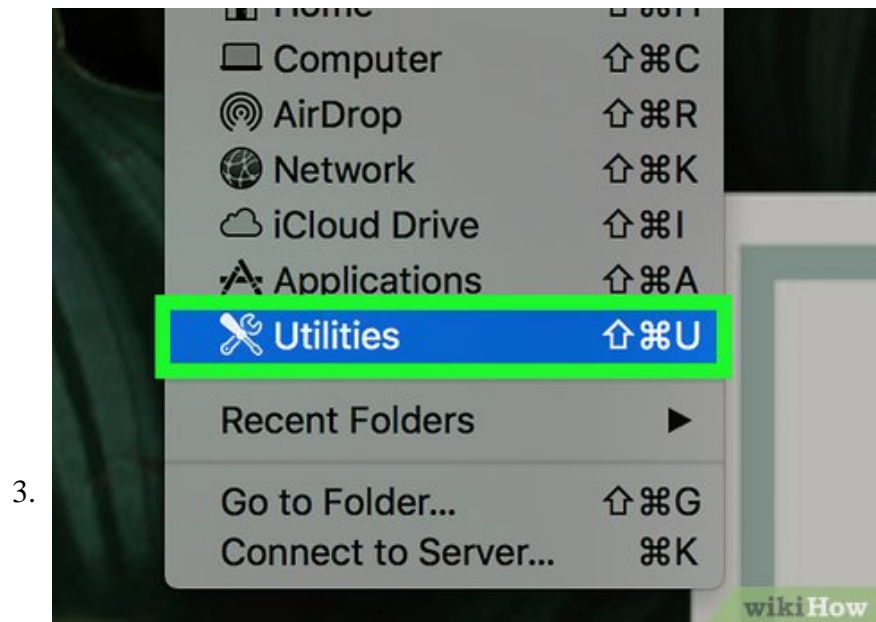

**Open Finder**

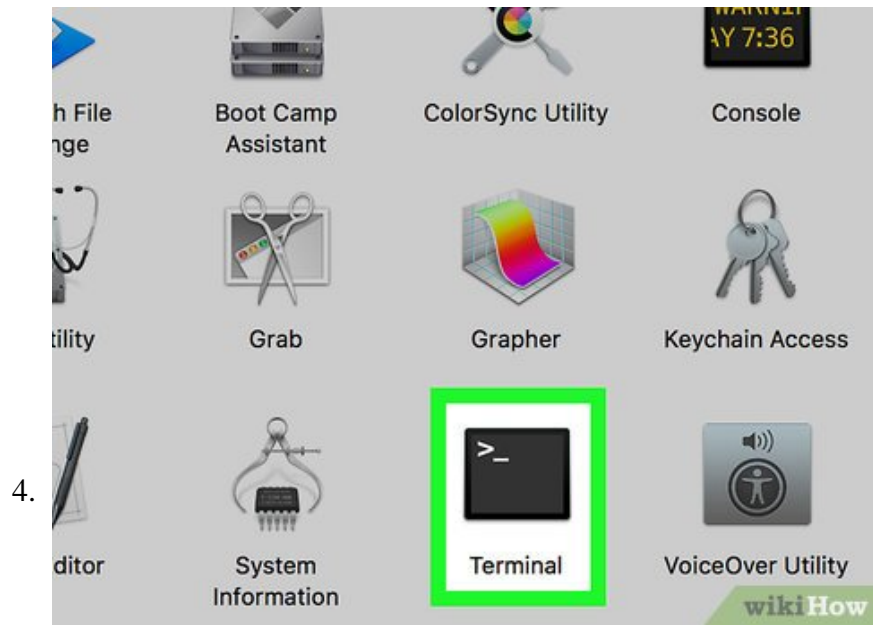

. The Finder is the app that has an blue and white image with a smiley face.

Click **Go**. It's in the menu bar at the top of the screen. This opens a drop-down menu.

Click **Utilities**. This will open your system Utilities.

**Double-click Terminal**

. It's the app with the icon a black screen with a text cursor in its top-left corner. This will launch the Terminal window on your Mac.

```

Last login: Thu Oct 25 14:39:52 on console
-MacBook-Pro:~ $ launchctl remove com.razer.rzupdater
-MacBook-Pro:~ $ launchctl remove com.razerzone.rzdeviceengine
-MacBook-Pro:~ $ sudo rm /Library/LaunchAgents/com.razer.rzupdater.plist
Password:
-MacBook-Pro:~ $ sudo rm
usage: rm [-f | -i] [-dPRrvW] file ...
  unlink file
-MacBook-Pro:~ $ /Library/LaunchAgents/com.razerzone.rzdeviceengine.plis
-bash: /Library/LaunchAgents/com.razerzone.rzdeviceengine.plist: No such file or directory
-MacBook-Pro:~ $

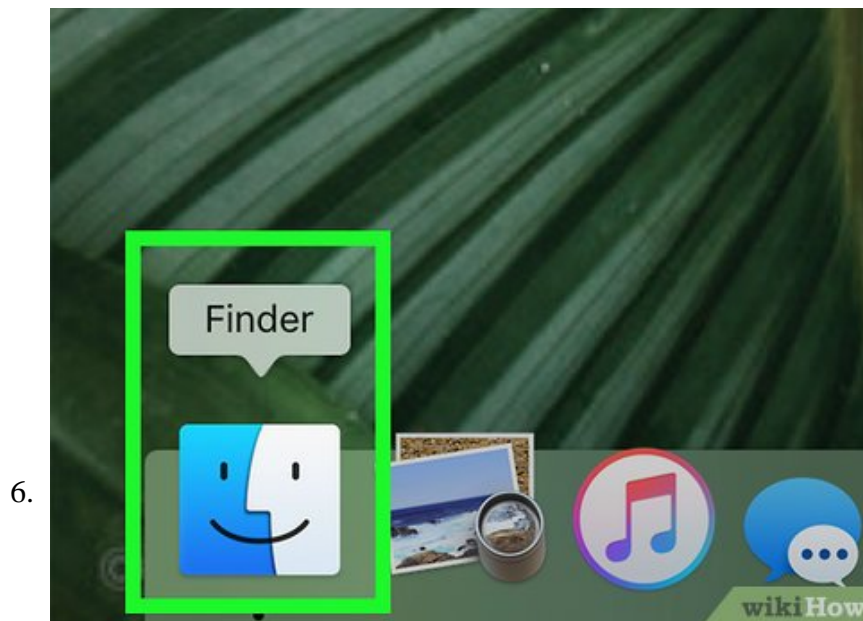

```

5.

Type several commands to delete the Razer files and directories. Enter each command into terminal and press `?Return` after each line. You may be prompted to enter your administrator password to continue.

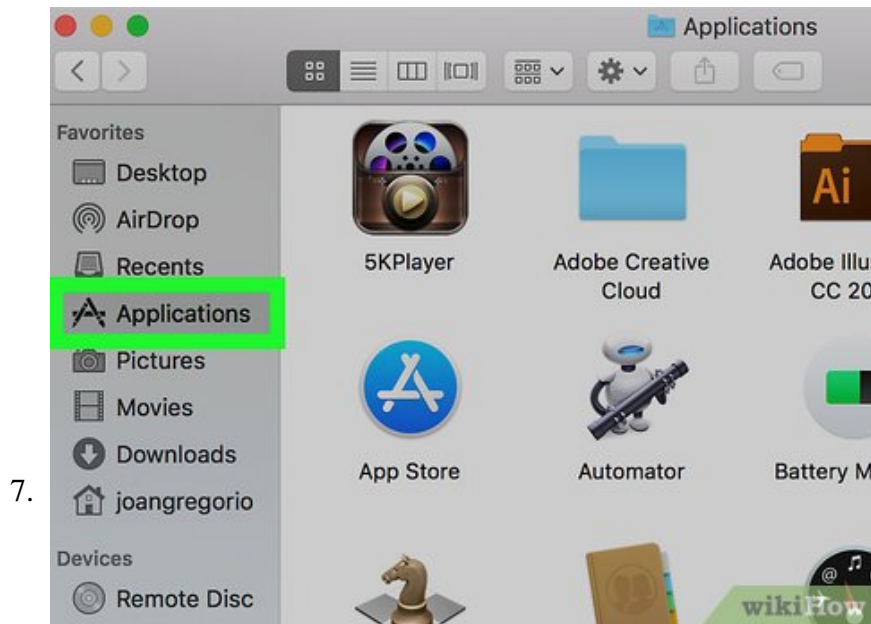

1. `launchctl remove com.razer.rzupdater`
2. `launchctl remove com.razerzone.rzdeviceengine`
3. `sudo rm /Library/LaunchAgents/com.razer.rzupdater.plist`
4. `sudo rm /Library/LaunchAgents/com.razerzone.rzdeviceengine.plist`

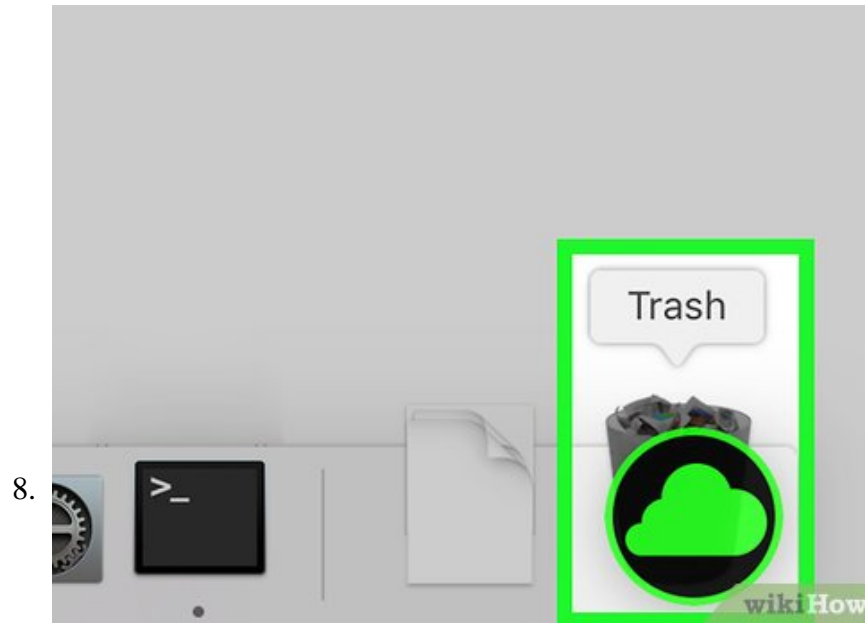

Open Finder

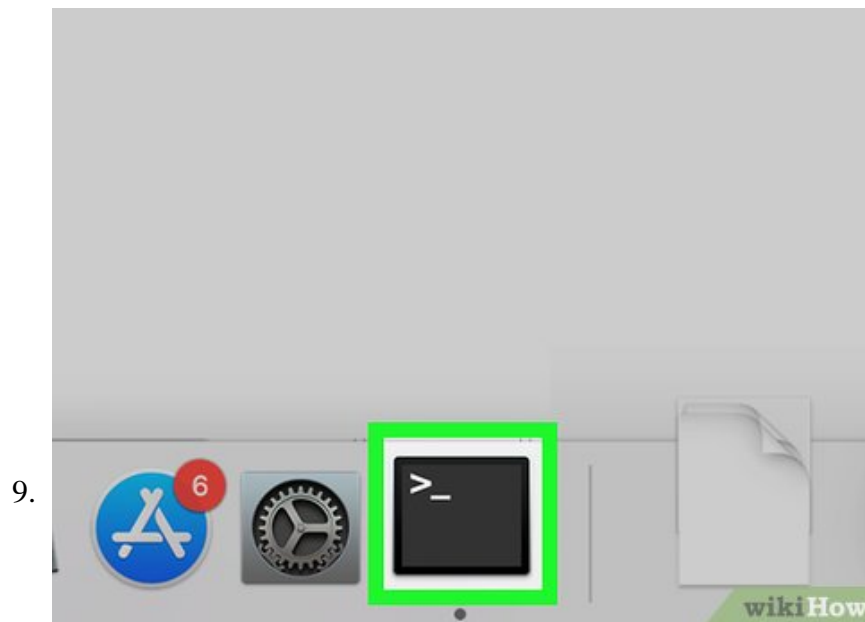

. This will return you to the Finder.

Click **Applications**. You can click Applications in the left sidebar, or in the "Go" menu.

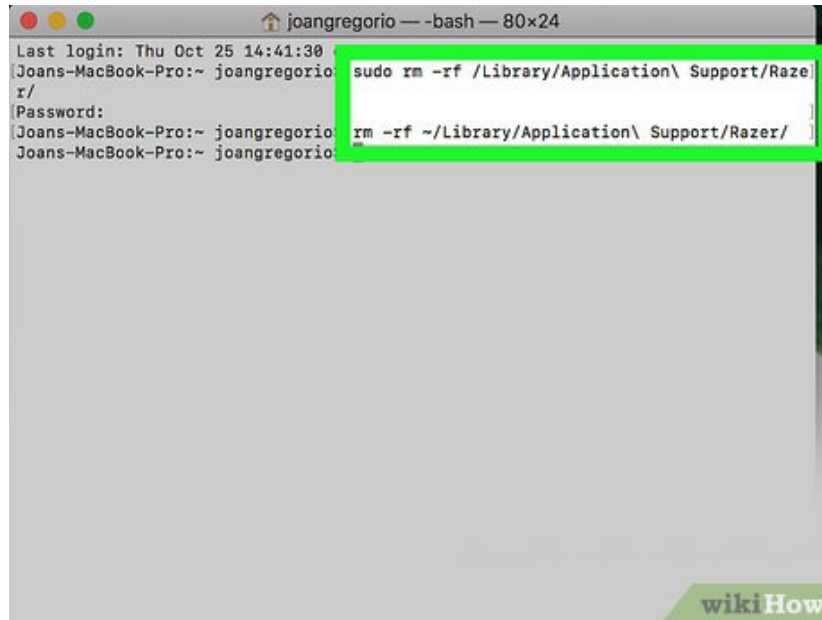

**Drag Razer Synapse to the trash.** This will uninstall Razer Synapse.

**Return to your Terminal window.** You should still have the terminal window open, but if not, you can re-open it just as before.

10.

A terminal window titled 'joangregorio — -bash — 80x24' showing the execution of two terminal commands. The first command is 'sudo rm -rf /Library/Application\ Support/Razer/' and the second is 'rm -rf ~/Library/Application\ Support/Razer/'. Both lines of code are highlighted with a green box. The terminal output shows the prompt 'Joans-MacBook-Pro:~ joangregorio:' followed by the command and a cursor. A 'wikiHow' logo is visible in the bottom right corner of the terminal window.

```
joangregorio — -bash — 80x24
Last login: Thu Oct 25 14:41:30
Joans-MacBook-Pro:~ joangregorio: sudo rm -rf /Library/Application\ Support/Raze
r/
Password:
Joans-MacBook-Pro:~ joangregorio: rm -rf ~/Library/Application\ Support/Razer/
Joans-MacBook-Pro:~ joangregorio:
```

Type the following lines in the terminal. This will remove the support folders for Razer Synapse.<sup>[3]</sup>

1. `sudo rm -rf /Library/Application Support/Razer/`
2. `rm -rf ~/Library/Application Support/Razer/`
