

How to uninstall Windows Insider Program Windows 10

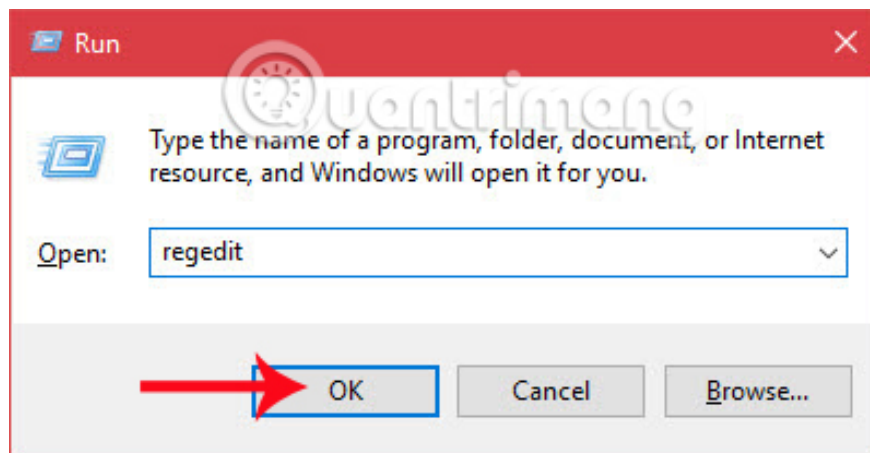

Windows 10 Windows Insider Program is a program registered with those who want to experience before the preview will be upgraded to the full version before it is released.

Microsoft created a campaign called the Windows Insider Program. This is a registration program if anyone needs to preview before the preview version, will be upgraded to the full version and finally when it is released. Through this program, Microsoft will receive feedback, reviews, feedback from users to better improve the operating system before launch.

But what if you don't want to use the Windows Insider Program? In the article below, we will show you how to hide the Windows Insider Program feature on Windows 10.

Step 1:

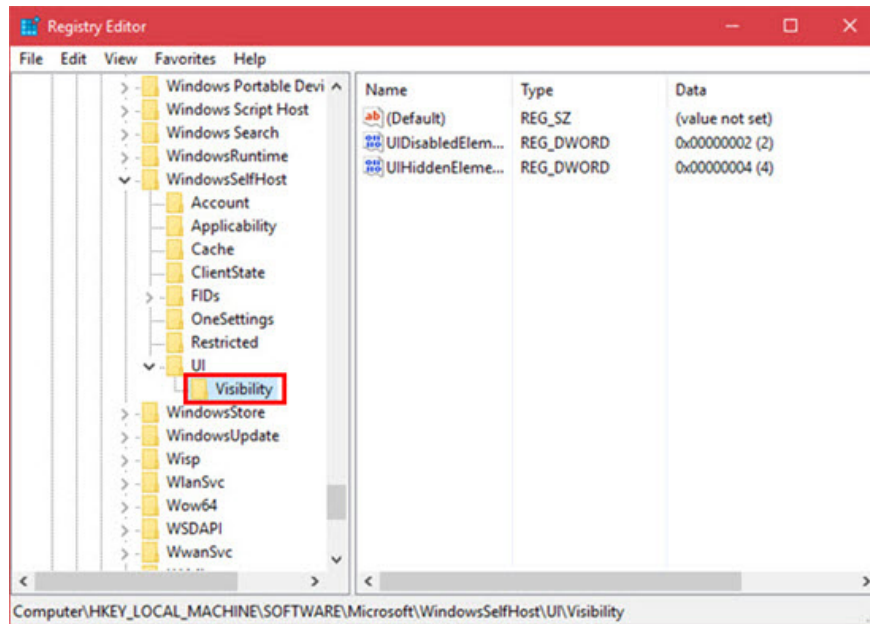

First of all, you type **Windows + R** key combination to appear the **Run** window. Here we will **type the keyword regedit** and **click OK** to open the Registry Editor window.

Step 2:

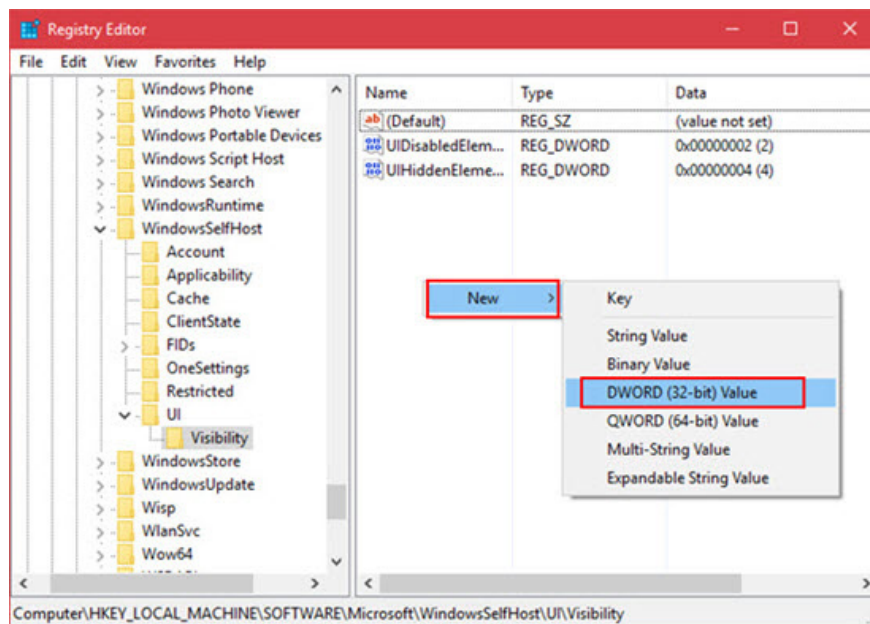

In the **Registry Editor** window, we follow the following path:

HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Windows\SelfHostUIVisibility

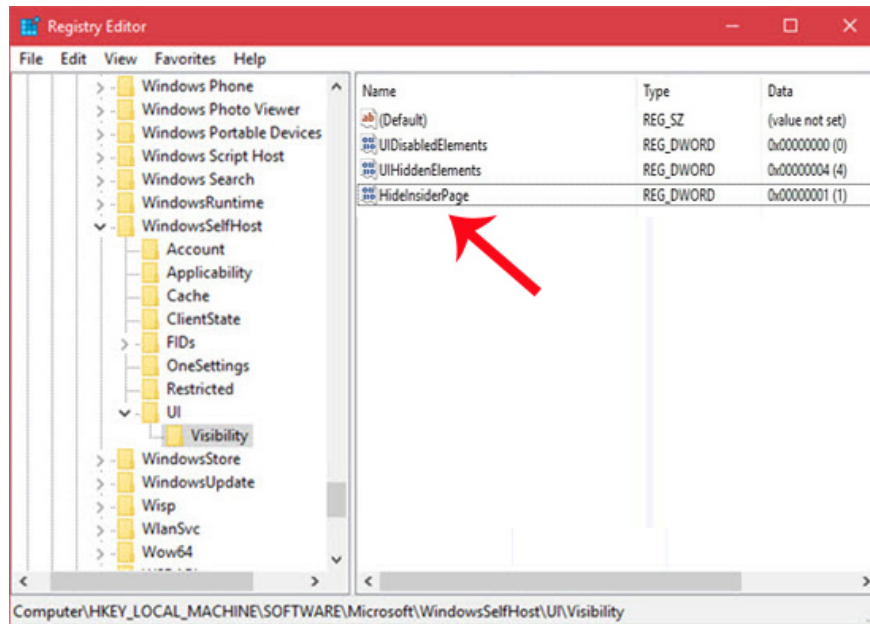

Step 3:

You look to the right interface, right-click and select **New** then select **DWORD (32-bit) Value** .

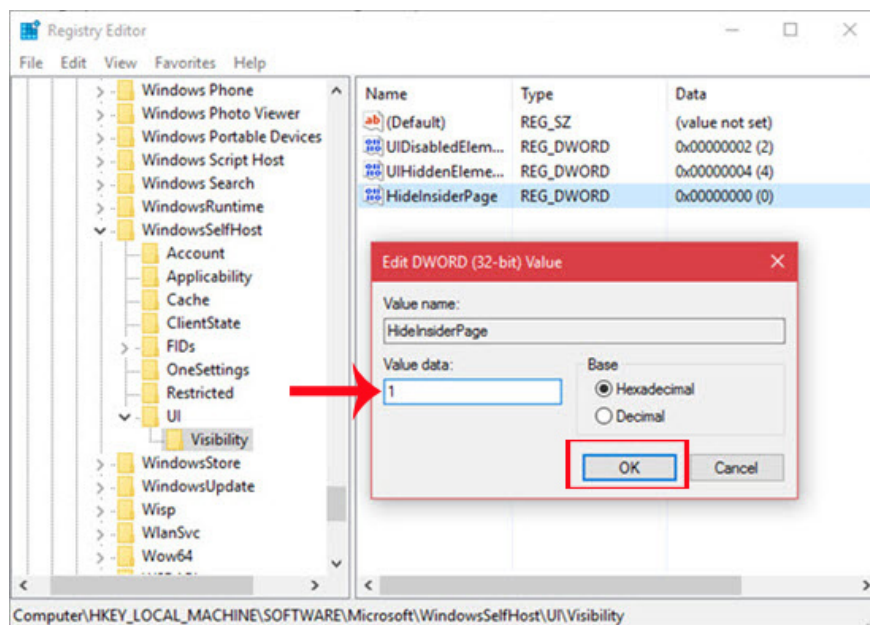

Step 4:

We will proceed to enter the name for the new key, **HideInsiderPage** .

Step 5:

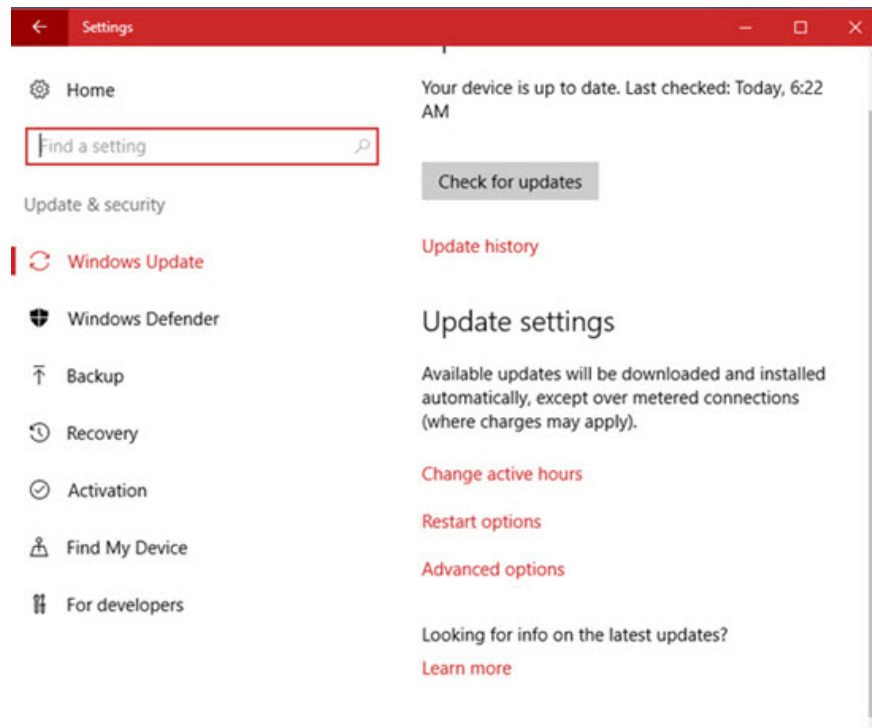

Next, you will **double click on the new key created HideInsiderPage** and then change the value in **Value data from 0 to 1** . Click **OK** to save.

Step 6:

Then we go to **Setting** and select **Update and Security** , we will see the Windows Insider Program hidden and do not appear in the right menu as shown below.

In case we want to **re-display the Windows Insider Program** , follow the steps above and change the value of **HideInsiderPage** from **1** to **0** .

Above is the operation to uninstall Windows Insider Program on Windows 10, if you do not have the need to join the test program preview versions. Besides, we can also hide or show the Windows Insider Program, when just changing the Value data value of HideInsiderPage is done.
