

# How to Unlock All Characters in Mario Kart Wii

This article outlines the specific method to unlock every character in the Mario Kart Wii game. Characters in Mario Kart Wii are classified into light, medium, and heavy. This helps you know which vehicles the character can use. Those characters are also a bit different (you can notice the change in parameters when trying to have multiple characters drive the same vehicle). For example, the character Baby Mario has superior weight and control parameters than the character Toad despite being in the same light category. The difference is insignificant, so don't hesitate in choosing your favorite character. You can clearly see this when trying to control many different characters with the same vehicle.
