

# How to unlock iPhone without passcode using PassFab iPhone Unlocker

Changing your password regularly is recommended by security experts, but in some cases you won't remember what your new password is. Don't worry, I will guide you how to use PassFab iPhone Unlocker to unlock iPhone screen without password

Admittedly, iOS devices are great, you will be protected with absolute protection of screen lock passwords, Touch ID, Face ID and iCloud. Most people keep important personal data on their iOS devices because it always feels safest. However, because it is too secure, sometimes it brings troubles and difficulties for you!

Example: You accidentally drop your iPhone screen. Yes, this is the most common case! Broken iPhone screen, cannot use touch so you cannot enter screen passcode lock to unlock the device. If you're lucky, you can still use Touch ID or Face ID to unlock your device.

However, even if the device is unlocked, you will not be able to retrieve your data because you cannot use the device's touch screen. You can quickly get around this problem by connecting your iPhone to iTunes using a connection cable, then retrieving your data via iTunes on your computer.

But, if your iPhone screen is broken, touch screen can't work, Touch ID and Face ID don't work either. Your iPhone device cannot unlock the screen, so it cannot connect to iTunes to retrieve data on the computer.

In this case, the only way is to replace a new iPhone screen, but the cost of replacing the iPhone screen is very expensive. You can also use your iCloud account to retrieve data by logging into your iCloud account on your computer and then searching for data on the collected copies. However, you need to make sure that your data has been backed up by iCloud before.

But what if you also do not back up data to your iCloud account, or you also do not remember your iCloud password, what to do? It is difficult, isn't it?

Worst case scenario is that you forgot the screen lock password, you have tried entering the screen lock password wrong many times and your iPhone has been disabled, Plus the Touch ID and Face ID are broken not working, and You also forgot your iCloud account password.
