

# How to unlock your Yahoo!

Yahoo! quite strict in protecting its products and services to policies. When any problems occur with Yahoo! products and services. can result in your account being temporarily blocked. If your Yahoo! Your account is temporarily locked (within 12 hours), then you can refer to the following article of Network Administrator to retrieve your account.

Yahoo! quite strict in protecting its products and services to policies. When any problems occur with Yahoo! products and services. can result in your account being temporarily blocked. If your Yahoo! Your account is temporarily locked (within 12 hours), then you can refer to the following article of Network Administrator to retrieve your account.

## 1. Potential causes of Yahoo! Your locked

1. Try to try the wrong password multiple times.
2. Send mail in larger quantities than limited numbers.
3. When someone deliberately hacked your email ID address.
4. When there are 'suspicious' activities on your account.
5. Unauthorized access to third-party applications and software.
6. POP and IMAP settings.
7. Your account is used at different locations at the same time.

## 2. How to unlock your Yahoo account immediately?

To unlock your Yahoo account, you can apply one of the following methods:

## 2.1. Method 1

When you log in to your account, a cookie in the form of a packet is stored on Yahoo's server. These cookies are a way to identify your account. But when someone tries to log in to your account and misuse the password, the cookie is deleted.

And when the limit is exceeded, the cookie expires. This stimulates Yahoo filters to think that the operation on your account is suspicious and therefore it will temporarily lock your account within 12 hours or 24 hours.

To unlock your account, you can try Logging in using another Yahoo server. You can then log in and access your Yahoo! his again.

You can use any of the following servers:

1. <https://login.yahoo.com/config/mail?.intl=in> - India
2. <http://uk.mail.yahoo.com/> - UK
3. <https://login.yahoo.com/config/login> - USA
4. <https://login.yahoo.com/config/login> - Canada

## 2.2. Method 2

- Uninstall POP and IMAP settings from email client software.
- Use any other browser to log in and reopen your account.
- Revoke access to all third-party applications and software.
