

How to unsubscribe from Family Sharing on iPhone

In case any member does not want to participate in Family Sharing anymore, the cancellation process is also very simple. Here are instructions to unsubscribe from Family Sharing on iPhone.

Family Sharing on iPhone is a feature that allows family members to share all purchased or downloaded apps with each other. This helps us save costs and members can enjoy the content in the family group. And in case any member does not want to participate in Family Sharing anymore, the cancellation process is also very simple. Here are instructions to unsubscribe from Family Sharing on iPhone.

Instructions to unsubscribe from Family Sharing iPhone

Step 1:

At the interface on your iPhone, go to **Settings** and then click on **the Family Sharing group that you join** .
