

# How to update BKAV to the latest version, Update BKAV

BKAV is a well-known antivirus software widely used today. To use the new features in BKAV, users must regularly update the software. Updating BKAV is very simple; readers can refer to the instructions in the article below and follow the steps.

Normally, when you use a licensed version of Bkav Pro and you have successfully registered the license, Bkav Pro on your computer will automatically update to the latest version when a new version is released by the publisher.

## How to update BKAV to the latest version

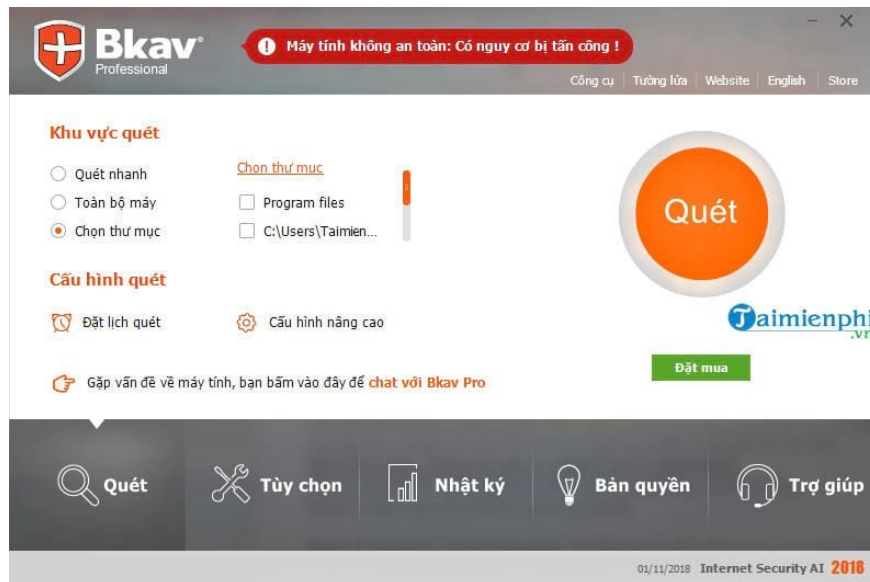

However, in some cases, for some reason, the Bkav Pro software on your computer may not update automatically, in which case the following trick will be very helpful.

- **Download Bkav Pro to your computer here:**

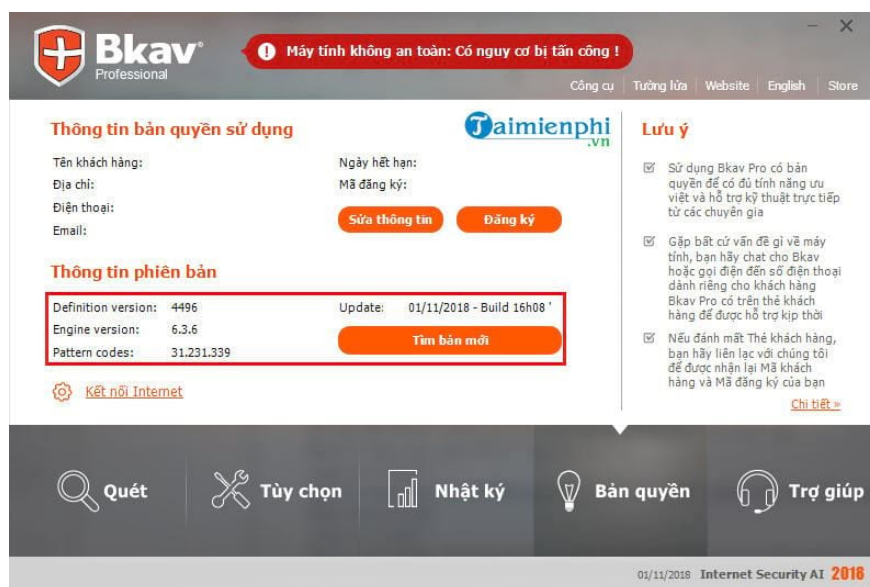

## ***INSTRUCTIONS FOR UPDATING BKAV TO THE LATEST VERSION***

To update BKAV to the latest version, follow these steps:

**Step 1:** Run (open) **BKAV** on your computer.

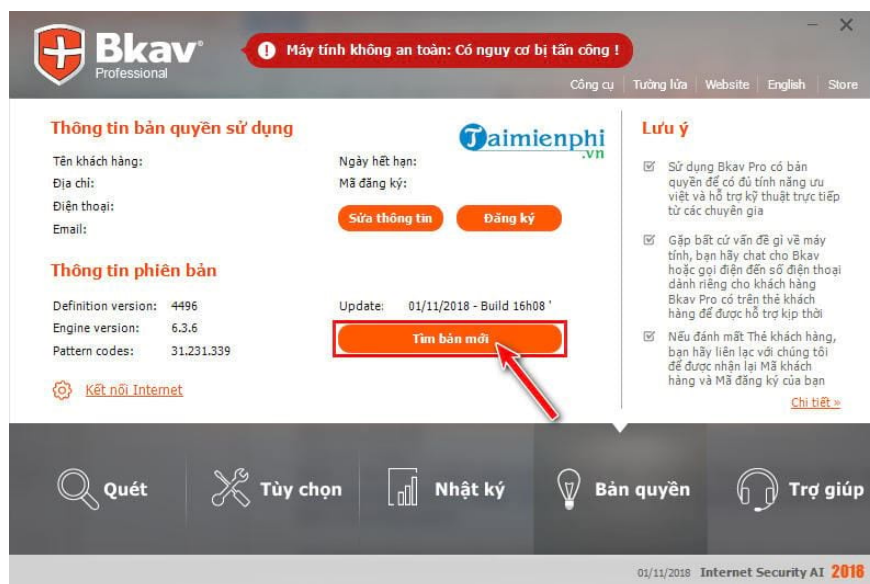

**Step 2:** Click on the "Copyright" tab . Here you will see that the software has not yet been **updated** to the latest version of Bkav.

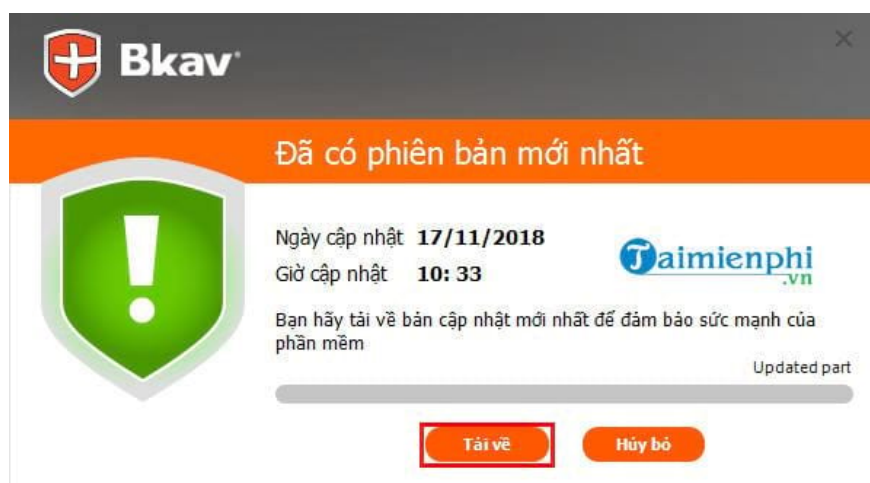

**Step 3:** You will notice that the Bkav Pro version shown in Step 2 is not yet registered with **the license information** . Please note that you need to successfully register your license information for Bkav to automatically update.

If you have successfully registered but still don't see the update, simply click the " **Find new version**" button on the software and wait a few moments for the software to search for the latest version.

**Step 4:** The Bkav update interface will appear. Click on "**Download**" to successfully update.

Besides BKAV, readers can also refer to other antivirus software here to protect their computers from spyware, viruses, Trojans, etc.

So, TipsMake has just guided you on how to update BKAV to the latest version. As mentioned above, if you have successfully registered your license, BKAV on your computer will automatically update. If you don't see the update, please follow the instructions in this article. Good luck!
