Instructions for upgrading new versions of Firefox

Step 1:

You open Firefox browser and then click on **the 3 dash icon** in the interface, select **Help** . Or you can quickly press Atl + H. key combination.

Appears a new list to select **About Firefox** .

Step 2:

A pop-up interface appears to let you know which version of Firefox you are using. If you want to update to the new version, click on **Restart to update Firefox**.

The Firefox browser will automatically turn off the interface to proceed to upgrade the browser to the latest version. Now the pop-up appears with the **Firefox Update** interface, showing the browser upgrade process.

When upgrading, Firefox will automatically start. You can check on the system when clicking About Firefox and will see **the Firefox is up to date message**, the browser has been updated to the latest version.

So you know how to update Firefox, upgrade Firefox to the latest version. When updating the Firefox version, the browsing speed will be significantly improved compared to when you use an older version.
