

# How to update iOS 14.3 Beta 3 to increase stability and many new features

Apple has officially released the iOS 14.3 Beta 3 update to users and developers. With this update, Apple continues to fix outstanding bugs and focus on improving performance. Here's how to update to iOS 14.3 Beta 3 with many new features ...

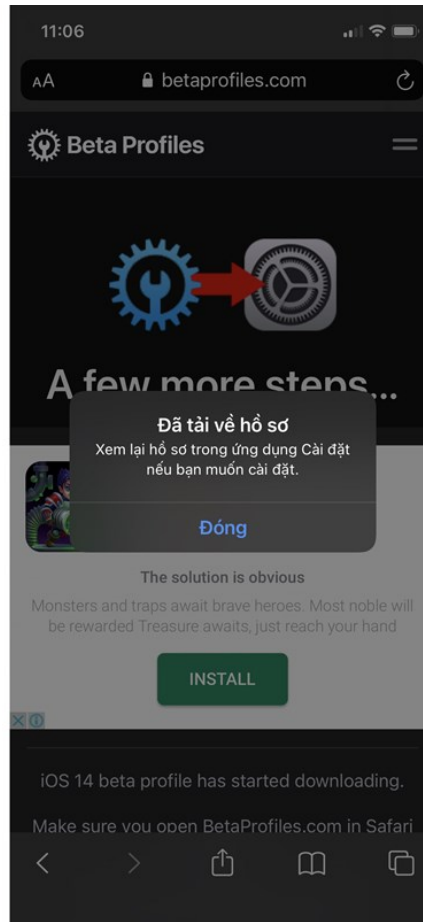

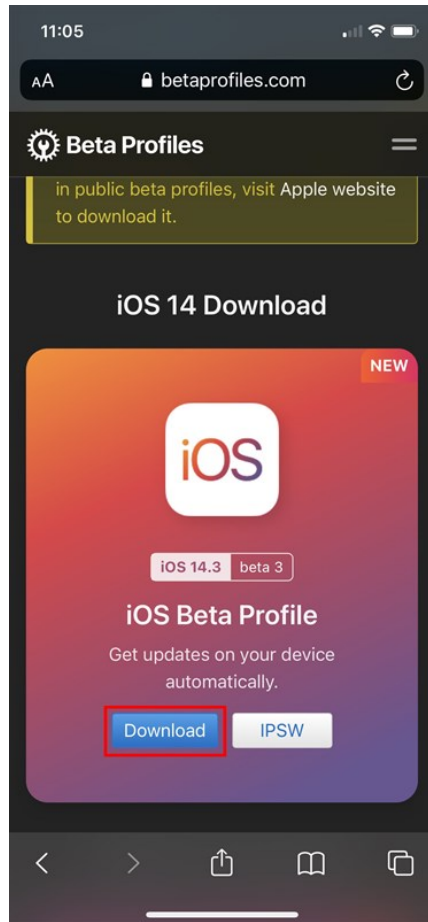

## 1. Instructions to update to iOS 14.3 Beta 3

**Note :** Please back up data to iCloud before updating to a new iOS to avoid losing important data.

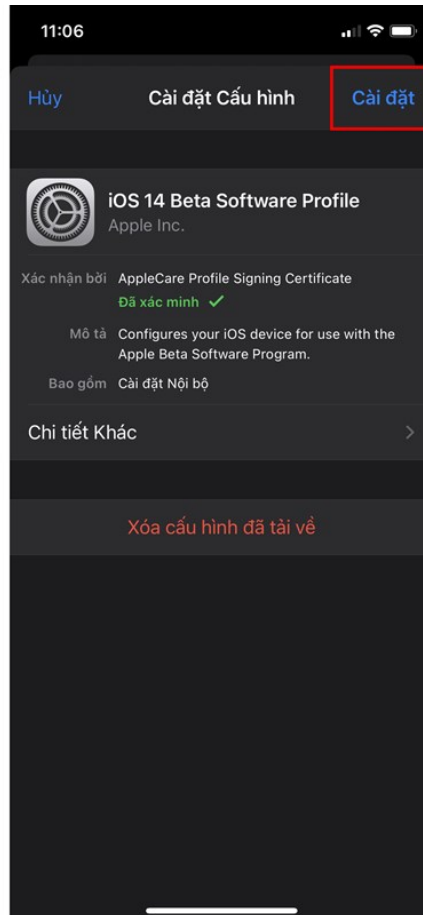

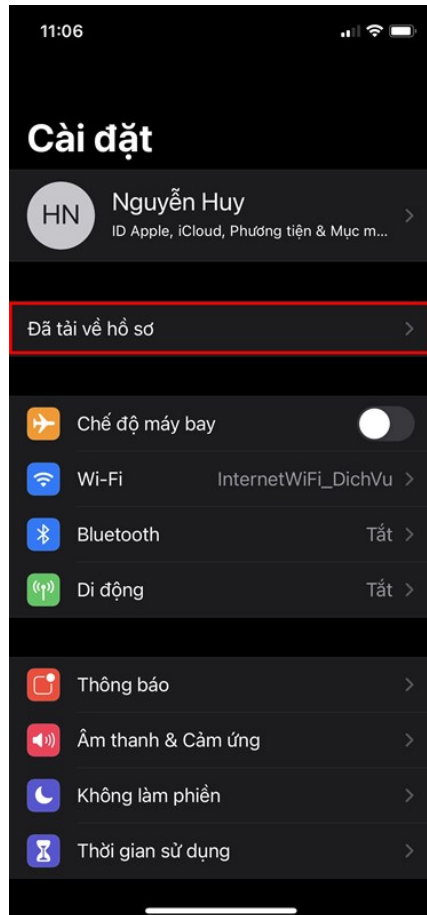

**Step 1 .** You access the Beta Profiles link below, click **Download** to start downloading the iOS 14.3 Beta 3 configuration profile.

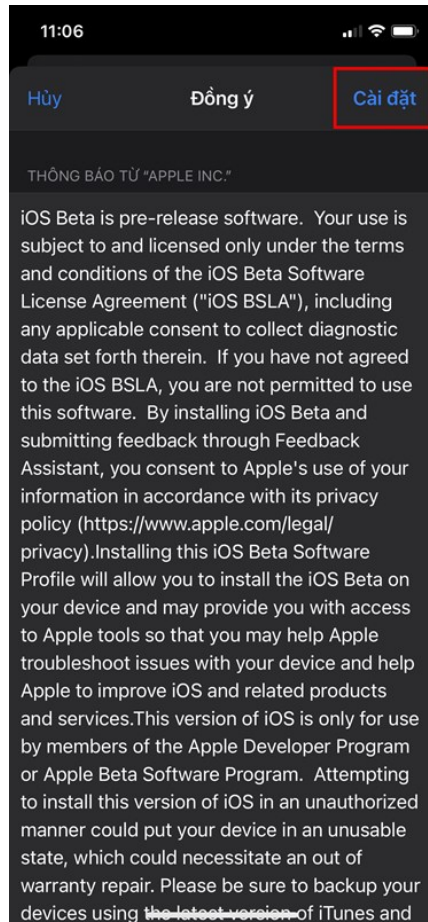

1. [Download Beta Profile - iOS 14.3 Beta 3](#)

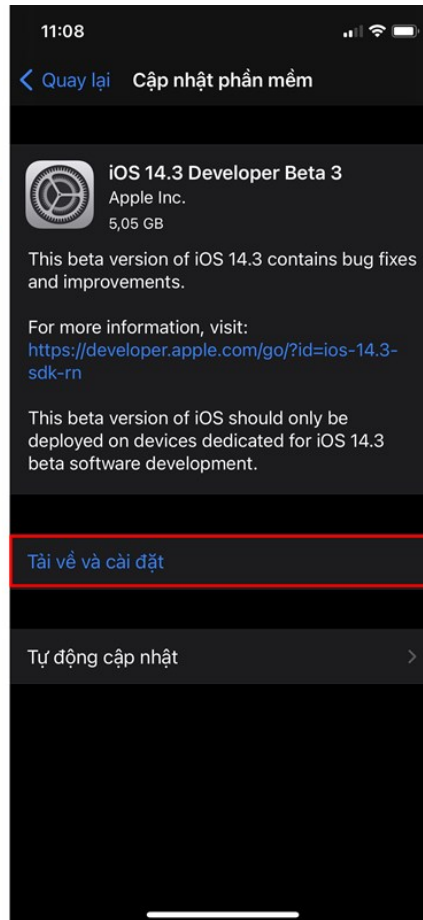

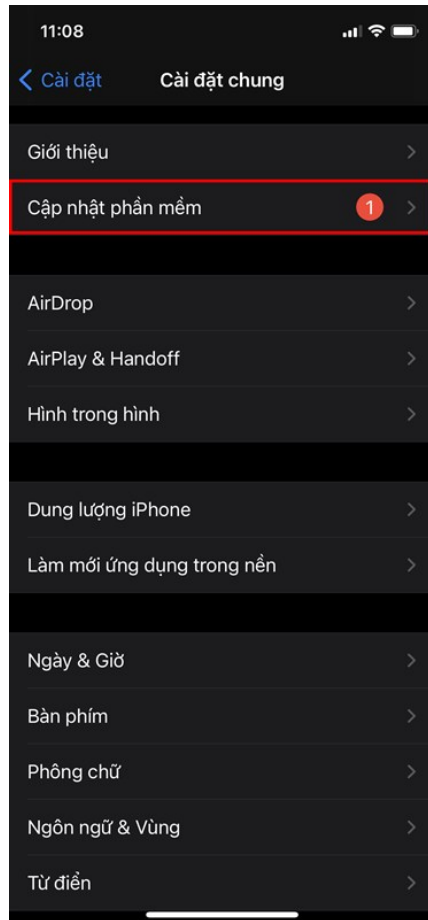

**Step 2 . Go to Settings > Profile downloaded > Configuration Settings iOS 14 Beta Software Profile .**

**Step 3** . You agree to the terms from Apple, select **Install** . Then proceed to **Restart** iPhone to apply the changes.

**Step 4** . Done, go to **Settings > General > Software Update > Download and install iOS 14.3 Developer Beta 3**.

## 2. What's new in iOS 14.3 Beta 3

New features on iOS 14.3 Beta 3 include.

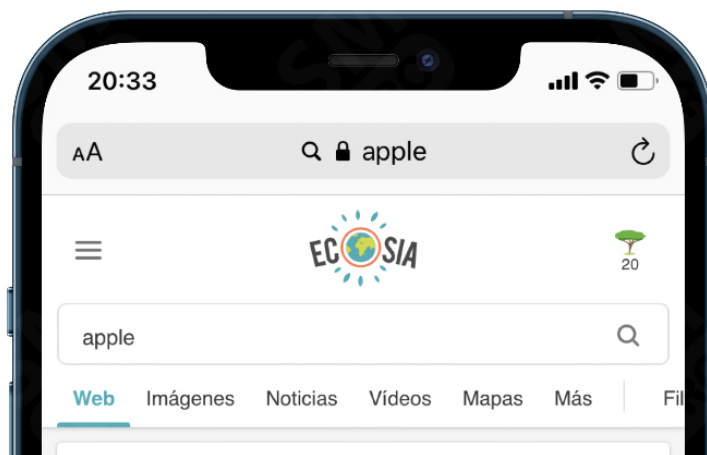

1. Apple ProRAW is now available for iPhone 12 Pro and Pro Max devices.

1. References to AirTags and AirPods Studio will still be available to find out.

1. The Home app finally lets you update your HomeKit-enabled hardware without having to open up a third-party app.
2. Ecosia, the eco-friendly search engine, is currently the default option in Safari.

1. If you join watchOS 7.2 beta, you will now see a Cardio Fitness warning when your cardio fitness level drops low negatively affecting your VO2 max.

## Low Cardio Fitness Notifications

You can receive a notification if your Apple Watch detects that your cardio fitness level is low.

If your fitness level stays low, you'll receive a notification every four months.

1. App Clips can now be launched by scanning a QR code with the camera.
2. Air quality health recommendations are currently in place for several regions including the US, UK, Germany, India and Mexico.
3. Third-party apps are currently offered during setup in certain countries to comply with antitrust laws.
