

How to upgrade Windows S operating system to Pro version

Windows 10 S is Microsoft's newly launched operating system, focusing on educational subjects, students and students. Besides, those using Windows 10 S can upgrade to the Pro version.

Recently, Microsoft has launched the Windows 10 S operating system with new features, especially focusing on subjects in the education industry. According to the announcement from Microsoft, Windows 10 S will be provided free of charge to schools currently running the Pro version. And if your device is running Windows 10 S operating system, you can proceed to update the Pro version completely free. Please refer to the following article to learn how to upgrade Windows to Pro from Windows 10 S.

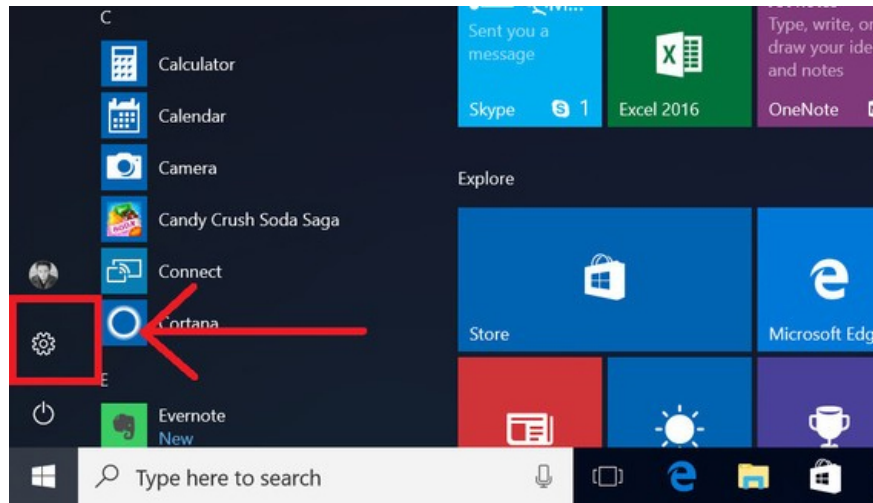

Step 1:

First of all, we will access the Start menu interface, by clicking on **the Windows logo** in the Taskbar.

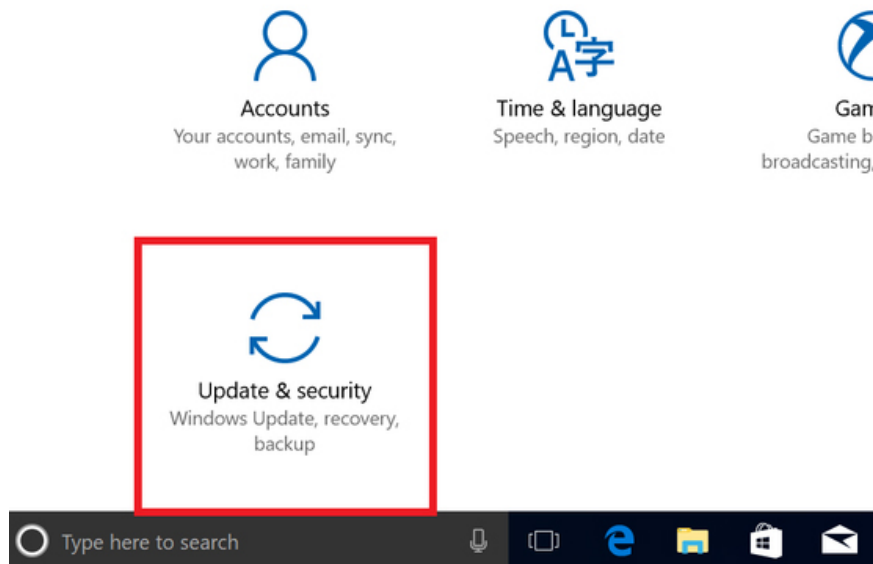

Step 2:

Next, users click on **the Settings icon** in the list.

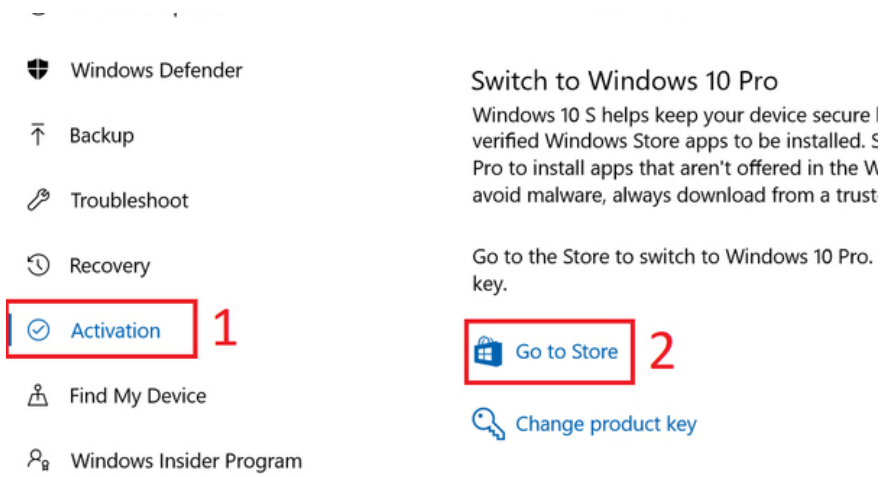

Step 3:

In the Windows Settings interface, click on the **Update & security** item.

Step 4:

In the new interface in the list on the left, click on **Activation** then look to the right and choose **Go to Store** .

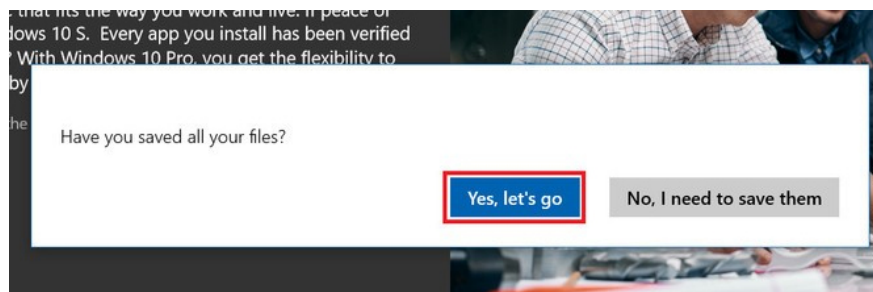

Step 5:

In the Windows Store window, click the **Install** button.

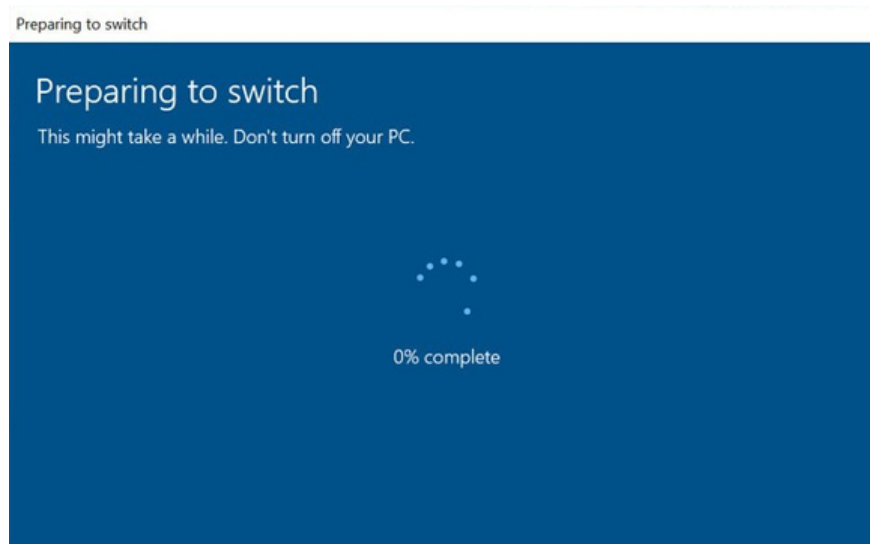

The following day appears the notice board below. Save all the files you are doing on the device and **click Yes, let's go** to update.

Step 6:

Finally, wait for the system to upgrade, the computer will restart automatically.

When the upgrade process is complete, the computer interface will appear a pop-up indicating that the upgrade to Windows 10 Pro has been completed. Now you can proceed to install any application on the web, not just the Windows Store as on Windows 10 S anymore.

I wish you all success!
